Application Plans Ready For Sugar Rationing

Every person in the United States except members of the armed services and persons confined to public or private institutions must file an application for sugar rationing next week. If a person is 18 years of age or over and has left home to attend college, he should apply for and get his own book in the town in which he resides during the school year. Parents are not allowed to register for these students At Fernhopper Meet away from home. 'Zero Hour' Near For Military Ball

Grand March Will Begin At 8:30 o'Clock Tonight

As the "zero hour" approaches, Oregon State military men are awaiting the "call to arms" today, the final communique issued by the Military ball high command said late yesterday.

Arrangements are ready, the attack areas have been surveyed, the schedule fires have been scheduled, and the men will go "over the top" for the grand march, beginning at 8:30 o'clock tonight.

Elmer Ingle, ticket chairman, issued a cautioning order, warning prospective ticket purchasers that absolutely

all tickets have been sold out and that there is positively no chance of obtaining more.

The tentative schedule for ball arrangements sets 8:30 as the "zero hour," time for the grand march to begin, and "plus 105 minutes" as time for the drawing to determine the winner of the draft-the "Beaver selectee."

Woody Hite Will Play

Woody Hite's orchestra will provide the martial music, calculated to make Oregon Staters heed the "call to arms" with a minimum of hesitancy, according to Bob Rau, orchestra chairman and morale officer. Hite will combine his swing tunes with sweet tunes, to remind the warring world of the gentler aspects of life, it is reported.

The music and the draft will be broadcast over radio station KOAC, according to Jimmy Morhis, program director.

Banquet Will Be Given

The ball will be preceded at 6:15 by a banquet for Scabbard and Blade members and their prospective "selectees". Scabbard and Blade members also will have their duties after the ball is over, when Del Crews directs the cleanup committee which the communique hints will be that big job of mopping up the enemy, rescuing the wounded and burying the dead.

The communique concludes

"Let every man do his best,

and don't fire till you see the

new degree courses in commerce authorized by the state board of higher education, F. A. Gilfillan, acting president of Oregon State college, disclosed yesterday. As the administration will be unable to submit the names of the commerce courses before the college catalogue is published, a

supplement will be added to the catalogue later, President Gilfillan said. • A committee will be appointed to propose new courses and rules

concerning the organization and administration of the commerce program for next year. If possible, the committee will submit the plans to the state board at its next meeting, June 7 or 8, President Gilfillan explained.

Will Be Forum Topic

Mrs. O. R. Chambers, wife of Dr. O. R. Chambers, head of the psychology department, will lead the forum at Westminster house tomorrow night at 6:30 o'clock. She will discuss "Shall We Marry in Wartime?" John Corl, junior in electrical engineering, will lead the worship service.

Host and hostess for the social hour are Ralph Moulton, senior in chemical engineering, and Marian Cleveland, freshman in secretarial science. Others assisting during the tea hour from 5:30 to 6:30 are Jean Luzader, sophomore in home economics; Helen Wilson, senior in home economics; Marjorie Koch, sophomore in lower division; and Cecil Whitmore, senior in agriculture.

Sunday Club Schedules War Discussion Topic

"After the War, What?" will be the topic for discussion at the Sunday evening club meeting, 6:30, at the First Methodist church tomorrow. All young adults who are interested are invited to attend and express their opinions about the future world, announced Jess Tiffany, chairman of the discussion.

'Although we cannot immediately solve the problems of the post-war world," Tiffany said, "it is a good idea to start thinking about them and discussing them now.

Hugh Fleming, senior in engineering, will be toastmaster for the fifth annual Mothers banquet which will be held in the Memorial Union next Saturday night during Women's weekend, according to Jim Pitney, senior in agriculture and chairman of the ban-

By Carol Miller

Members of Orchesis, honor society for women in dance, returned from a transcontinental tour last week. They have danced at colleges and high schools over the nation and have been well received wherever they have gone. Many schools called them back for a repeat performance. But the women did not get behind in their school work nor did they miss any classes while they were away, because the dancing was done via Kodachrome movie film.

First the films were shown in California at Glendale, Fresno and Sacramento. Then they went to Tallahasse,

Fla., where the women danced for the Florida State college women. sity of Washington at Seattle and The next stop was Cocker college Washington State college at Pull-

Future Leaders

Sitting in the classroom yesterday, a junior in agriculture gazed absently out of the window as his professor turned another page and continued with the lecture.

The campus seemed exceptionally noisy . . . blue and gold jackets and emblems faded into a green landscape through the mist of rain and memory The whole scene turned back not over three or four years before, when he too, had been chosen as one of the representatives from his high-school in the annual convention of Future Farmers of America at Oregon State.

The campus was huge, the buildings strange, the convention a welcome respite from the everyday grind of periods, teachers and lessons.

From it all, the contests, the banquet, the speeches. of the college-a new resolution was formed-to be some day a member of such a student body and a student at Oregon State college.

It is thus to you, the members of the Future Farmers of America, that Oregon State college extends its congratulations for your personal and group accomplishments for the excellent manner in which the convention is being handled, and for the basic aims of your organization best expressed by the words of your motto.

EARTH It Says Here pot News in Review DOWN

Ellen Holcomb, editor: Leona Leonard, Lorelei Stewart, Pat Wallis, Helen Robinson, Marion Jean Kierzek, assistants.

Rommel Moved to Russia

By United Press

Reports from axis sources that Hitler and Mussolini decided to switch Marshal Rommel from Libya to Russia receive some credence in the British capital. Rommel, according to private advices from Europe, will lead a major tank offensive against the Donets in early summer. The London Daily Telegraph says this ties in with a change in Mary Kollins. Schange Editors: Todd Hamilton and African strategy discussed by the dictators whose plans hange Editors: Todd Hamilton and Affician strategy inscussed by the unexpectedly quick arrival of American formal Board: Betty Anderson, Betty fraves, Glen Schaeffer, Len Moyer, Heloise Lee, Connie Herzinger, Wanda Farmer, Diek Blow.

Red-Nazi Battle Gains Fury

The northern and central sectors of the Russian front are the scenes of violent battles tonight. The Soviets are trying to break the Finnish grip all the way from Murmansk to the gulf of Finland. In the central zone, an engagementdescribed as one of the biggest since the spring thaws slowed the Red army offensive-is underway with tanks and big artillery and countless bayonet charges.

Denmark Prime Ministers Change

There has been a change in prime ministers in Denmark. An official announcement says King Christian has relieved Prime Minister Stauning of his duties because of ill health. The German radio says Stauning fell and hurt his hip so badly that doctors say his condition is serious. Finance Minister Buhl has become the acting Danish prime minister.

China Builds New Supply Line

DENVER .- The Chinese ambassador to the United the group meetings-from the association and hospitality States, Dr. Hu Shih, reveals that his people are completing a new supply line between India and China's interior.

> Dr. Hu said the road will supplant the Burma road, which has been severed by the Japs. The ambassador also predicted the establishment of a second front soon and that the allies will win the war within two years.

Reverse Form of Price Order

WASHINGTON.-The government's order setting price ceilings is being issued in reverse form.

It does not list the articles on which ceilings are setthere are too many. Instead it lists the articles excluded from the ruling. Price Administrator Henderson today presented President Roosevelt with a 30-page copy of the regulations. The copy was designed partly to spike rumors that the regulations had grown to the thickness of a mail order catalogue.

Speaking of the list, Price Administrator Henderson remarked:

"What a merchant charged in March for articles not uded by the order is to be the maximum price-I don't By Bob Stephensen

Surprise! Yes, we've been bombarded with surprises these past few days. You think it's surprising that they've asked a rook like me to take over this sort of thing? So does everyone else . . . but that's beside the point.

We've been told that the Greeks ran away with the election. Too bad it wasn't closer, there's something that was possibly a surprise but don't say we told you so. When the 1680 Greeks can get 1625 of themselves out for voting -that's something. Couldn't be that it only required 55 men to encourage that strong voting, could it.

Guess the Indeps didn't do so well with their hometown people; maybe they were too independent. Of the 2000 non-Greekers, not quite half voted. But we're indebted to the organized living groups, the co-ops and the dorms; they had 100 percent representation at the polls.

Can all these yawns in the library today be from the politicians who said they wouldn't have anything to do with the campaign this year? They've been pretty busy behind the scenes for persons who don't do anything . . . and now they've got to study.

Hal Nelson has been taking this thing pretty well . . . as have all the candidates, for that matter . . . he has been having a few things to say-the kind of stuff we like to hear. We'll give him official credit for telling everyone that we'll be in there giving out good, hard competition again next year, but in the meatime, we'll still dedicate ourselves to our platform of a better, more unified, cooperative Oregon State.

On the record, congratulations to the winners. We'll help to make their reign successful because we're still willing to cooperate. But, "This election hasn't killed us, by any means," and even though the possibility of changing the results is a dead issue, there's nothing dead about the participants. There's going to be planty of activity working with these officers.

But, though it seems like "a terminological inexactitude," this isn't going to continue as a political column. I'm sorry to have yielded to the temptation this time because it is a touchy topic. I hate to conform with standards even though such is occasionally necessary. I'll try to give everyone the continued square deal the Baro has always handled.

Ah, yes; before I close-We like the way the two Greek factions cleaned up the campus for us Wednesday morning. It was more fun to wander around behind them about breakfast time and see how efficiently they picked up each other's scandal-papers.

You can tell Joe Ross that it will be safe soon for him to go around to all his old haunts now that the election is over and everyone is of a forgiving nature. There've been lots said about this boy and we all know that he's going to be good the rest of this term . . . 'cause Uncle Sam said he could wait until the first call in June.

But, dirt is dirt . . . and this is getting worse and worse. As an old hand, question mark here, I've heard that the inside of an editor's office isn't always clean-swept.

This is how others look at us-a writeup by the Associate Collegiate press on our nickel hops, a "popular fad" at Oregon State. They say:

"'Nickel hops' are currently the rampage at Oregon State college. Men enter the sorority houses, carefully scrutinize each co-ed-up and down, put a nickel in the slot, and dance with their dream girl-if they find her.

"The women like this idea of the hops, but object to the one-sidedness of the affairs.

"'We'd like to do a little looking for ourselves," they opine. The gals want the men to hold hops in fraternity houses, allowing the women to trudge from house to house, scrutinize, deposit, and dance-if they find 'him'.

Most of the Oregon men are willing to hold fraternity hops as a turn-about, although one skeptical member, questioned as to his opinion, replied that 'there aren't enough 'wolfesses' on the campus!'"

Mark these in your little book for use at the military ball-three ways to avoid embarrassment when you fall on the dance floor:

1. Just lie there; the onlookers will think you fainted. 2. Get up gracefully; they'll think it was part of the dance.

3. Start mopping the floor; they will think you work there.

-Lincoln Hi Cardinal.

She: "Say, it's past midnight. Do you think you can stay here all night?"

He: "Gee, I dunno. Hafta phone Maw first."

Glove at First Sight-"Pray let me kiss your hand," said he, With burning looks of love. "I can remove my veil," said she,

"Much easier than my glove."

Co-ed's prayer: "Dear Lord, I ask nothing for myself; only give Mother a son-in-law.'

Lines to An Expensive Date:

They parted at her doorway: She whispered with a sigh-"I'll be home tomorrow night," He answered, "So will I!"

Prof. (to mother of freshman): "Your son has a great thirst for knowledge. Where goes he get it?"

Mother: "He gets the knowledge from me and the thirst from his father."

President Vargas Slightly Injured

RIO DE JANEIRO-President Getulo Vargar has been injured slightly in an auto accident while on his way to address a May day celebration.

A brief official announcement said Vargas is suffering only from bruises, but doctors ordered him to rest. He was on his way to address 30,000 people at Vasco da Gama stadium when a private car collided with the president's automobile.

Unusual Accident Occurs

BELFAST .- It was revealed that an unusual accident occurred when Harry Hopkins and General Marshall visited North Ireland two weeks ago. A machine gun accidentally discharged in a convoy Hopkins and Marshall were riding, killing an innocent bystander. The first court martial of the AEF in North Ireland cleared the American sergeant of blame in the death of the bystander, an Irish bus driver.

Party Wants Government to Comply

BUENOS AIRES-The radical party urges the Argentine government to comply with the agreements reached at the inter-American conference in Rio de Janeiro.

At their national convention, the radicals adopted two resolutions after Raul Taborda-the representative Dies of the Argentine-doubted the sincerity of the Argentine government. The Argentine, you remember, voted for a resolution urging that all axis diplomats be ousted from the western hemisphere, but Argentina itself still maintains diplomatic relations with the axis.

RAF Raids French Coast

LONDON .- The British Royal Air force has been on the wing again last night in what may turn out to be its greatest night raid of the war.

Planes in seemingly never-ending numbers winged their way across the English channel to the French invasion coast. The axis answered with a heavy barrage of antiaircraft shells from the Calais and Boulogne area. But few German fighter craft challenged the British.

The magnitude of tonight's RAF operations is indicated by a veteran United Press correspondent, who reports that never before has he seen as many British planes in action.

Junior Can Have 20 Flavors

WASHINGTON .- Junior will have to be content with only 20 ice cream flavors for the duration. That is one of his contributions to the defeat of the axis. (Continued on page 4.)

State Marksmen Add , To Shoooting Laurels

Experts Take Scabbard and Blade National Shoot; Dave Gross High practice left. Coach Lon Stiner

The Oregon State college team won the national Scabbard and Blade rifle match, a report received here from Purdue university, West Lafayette, Ind., indicates.

The Oregon State team scored 1846 points out of a possible 2000, to top the University of Idaho, which placed second, and Carnegie Tech, which placed third. Dave Gross took second honors in individual scores, with 378 out of 400, three under the score of 381 made by Don Bassett of Idaho. Wesley Ross' 374 earned him the fourth place spot in individual standings.

Following are the scores of the **Good Neighbor** champion Oregon State team: Dave Gross 378, Wesley Ross **Nations Cheer** 374, Dale Bever 368, Steve Akin **Oil Appraisal** The Beavers edged out 20 competing teams to win the coveted

championship. The standings of May 1, 1942 (U.P.) Official apthe first ten competitors were as praisal for compensation of American-owned petroleum properties which Mexico expropriated in .1846 1808 1938, has been hailed in Washing-.1805 ton and Mexico City government .1765 circles as a further and vastly important implementation of the .1763 .1752 Roosevelt good-neighbor policy. .1670 The appraisers' panel, headed by Morris L. Cooke, for the Unit-.1659 1594 ed States and by Manuel J. Ze-.1590 vada, for Mexico, agreed upon a settlement sum of \$23,995,991. 1581 .1537 This amount is understood to be .1535 an evaluation of the above-soil properties, such as refineries, 1469 pipelines, machinery, filling sta-..1464 The five highest individual tions, office buildings and the scores in the United States were like. Lamanna Experiments With Bacteria Poisons Sulfanilamide, poisonous to

many species of bacteria, has been found an actual stimulant to bacteria growth if they get it in low concentrations. Experiments demonstrating this point are reported in the current issue of Science by Dr. Carl Lamanna, in-

structor in bacteriology at Oregon State college. In this, Dr. Lamanna notes, the action of sulfanilamide resembles that of many other substances known to be poisonous in high

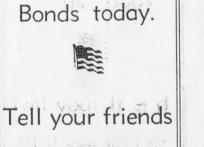

concentration but stimulating when sufficiently dilute. Indole acetic acid and related chemicals, now widely used in promoting growth in plants, are used in very week solutions because in greater strength they are highly toxic to the plants.

Dr. Lamanna did not determine the exact strength of the sulfanilamide solution that would stimulate bacterial growth. He made a simple qualitative test by placing ordinary medicinal sulfa tablets in the middle of plates of nutrient agar containing cultures of various kinds of bacteria and

Lieut. Schoenfeld Is Corvallis Visitor

The arrival of Lieut. B. Franklin Schoenfeld from Anchorage, Alaska, was announced this week by his father, W. A. Schoenfeld, July, 1941, announces Dr. D. C. dean and director of agriculture. The visit was made possible by a temporary leave of absence. Lieut. Schoenfeld is pilot, co-pilot and navigator in the army air corps.

Schoenfeld enlisted as an aviation cadet in 1940 after attending Oregon State college three years with the class of '41. After basic training at several California fields, he was assigned to active duty at Fort Richardson in March, 1941.

He has been on scout duty in the Bering sea and the gulf of Alaska regions since the Pearl Harbor disaster, and, with the aid of four other officers, has made a complete survey of the Aleutian islands

538

Schoenfeld likes Alaska and often mentions the mild climate of the Aleutian island region in letters to his father. He reports that Oregon State college has a fairly large representation of both enlisted men and officers stationed in Alaska.

Schoenfeld is an alumnus of Sigma Phi Epsilon fraternity in complete work for his degree in Corvallis and expects to return basic sciences.

Graduates Complete **Officers' Training**

Two marine corps second lieutenants, Oregon State graduates, class of '41, have just completed their work in the Officers' Training school at Quantico, Va., it was learned yesterday from C. R. Payne, public relations section officer, San Francisco, Cal.

They are Lieuts. Karl G. Palmer and Lyle E. Specht. Unless they are sent to specialized schools, the two young officers will now be assigned to active duty with combat units of the famed "soldiers of the sea." Payne said.

During their training just concluded Lieuts. Palmer and Specht underwent three months' instruction in the Officers' Training school in the duties of a platoon commander and the study of advanced battle strategy.

The men joined the marines last May under the new officer training program for college graduates. Seniors at the time, they were placed on inactive duty to permit them to finish college. Shortly after graduation they were called to active duty in the candidates' course at Quantico and, at the conclusion of this 10 weeks' course, were awarded their second lieutenant commissions and enrolled in the Officer Train-

are leading civilian duty for emergency duty. They must be replaced. The nurse's aide corps is organized to assist professional nurses.

There is no possible doubt that women who enlist are doing valuable work now for their community and may, at any moment, be called on to do invaluable work for their country should there be epidemics, sabotage or enemy action of any kind. Nurse's aides serve on emergency medical field units, where on a squad with a

doctor and a nurse they may be called in case of air raid to first aid posts to help with the care of the wounded. The aides may also serve in public health agencies

and industrial clinics. For further information applicants may write to Mrs. R. W. Stackhouse, 1428 Southwest 12th Avenue, Red Cross Production Center, Portland.

ored last night by the Carnegie hero fund commission for rescuing a companion from a negro hatchet wielder on a moving subway train.

The hero is C. Tyler Wood for Port Washington, N.Y. He received one of 10 bronze medals awarded by the commission for heroic acts.

One of the medals went to Mrs. Hattie Garralts of Elgin, Ill. She was honored because she attacked an enraged bull with a hatchet and saved Carl Meier, a 24-year-old farm hand, from being gored to death.

Amon gthe other recipients was 27-year-old Keith Tiffany of Six Lakes, Mich., for rescuing a group of boys from a burning bedroom. Ray Jenney, of Battle Creek, Mich., received the award for an heroic act in another Michigan fire.

One medal was awarded posthumously to an 18-year-old Rochester, N.Y., schoolboy, Donald Riesenberg, who died in attempting to save a chum from drowning after both had broken through thin ice.

Four others were honored for rescuing persons from drowning. They were Milton Lobel of New York city, Mrs. Amelia Zunk of Los Angeles, Edward L. Gehring of Albemarle, N.C., and Miss Glenna Campbell of Louisville, Ky.

Troy Pridmore of Glenwood Easley, S.C., won the medal for saving five-year-old Mayme Cater from being killed by a train when the car in which she was a passenger stalled on the tracks.
