Dr. Needham Will Lecture To Sigma Xi

Science Honorary Plans Initiation Of New Members

Dr. James G. Needham, emeritus professor of entomology at Cornell university, will present the annual Sigma Xi, national science honor society, lecture tonight at 7:45 o'clock in Memorial Union building, 105. The lecture, "War—A Biological Phenomenon," will follow the initiation and banquet at which 35 new members will be initiated into the organization which includes representatives of both pure and applied sciences. Dr. Needham's lecture will be open to the public.

Dr. Needham is an outstanding authority on biology as evidenced by the fact that his name is starred in "American Men of Science" thus naming him as the foremost leader in that field in this country. He has written between 15 and 20 books as well as numerous articles on zoology, natural history, insects of North America and China and fresh water life. Dr. Needham has collected insects in Cuba, the Philippines, Venezuela and China. He was awarded a gold medal for the best work on the fauna of China. His most recent book, "About Ourselves," is a survey of human nature from the zoological viewpoint.

The following students have
(Continued on page 4.)

Closing Hours Are Extended

Closing hours for closed weekend were extended from 10:30 to 12 o'clock for Friday and Saturday night by action taken at a standards committee meeting yesterday noon in the Memorial Union tearoom. Except for this extension of hours, closed weekend rules will be the same as they were fall and winter terms.

Marie Corbett, junior in science, president of standards committee, appointed Wanda Turner, junior in secretarial science, and Jean Floyd and Virginia Stabler, juniors in home economics, to prepare a booklet which will be published this summer and given to the freshmen next fall. According to Miss Corbett, this booklet will explain the social regulations of the college in such a way that new students will be able to know and understand them.

Mrs. Buena M. Maris, dean of women; Mrs. Lorna C. Jessup, assistant dean of women; and Mrs. Mabel Winston, secretarial assistant to the dean of women, also attended the meeting.

Science Professors Argue Over Pitching Abilities

Amid the crash of world empires and the clash of legions, a battle of campus significance looms that bids fair to pit two eminent (save in the eyes of each other) scientists, one against the other, each supported by countless cohorts.

A challenge that can only end with honor on the field of battle has been issued by Dr. E. P. McWhorter, plant pathologist, to Dr. Edwin T. Hodge, geologist.

This impending battle of the PhD's arises from an alleged insult hurled by Dr. Hodge at Dr. McWhorter regarding the relative distance the latter can throw a stone toward the opposite bank of the Willamette river.

Other sections of the school of science at first were inclined to scoff at reports of such insult, averring that it was obviously impossible for a geologist to insult a plant pathologist or vice versa. On second consideration, however, it appeared that the honor of either the biological or the physical sciences was at stake and hence the affront should not be allowed to pass unchallenged.

Dr. McWhorter, in a scathing indictment of his potential adversary, charges that the insult was doubly reprehensible and assumes an interstate aspect by reason of its being perpetrated in the

Three Seniors Given Prizes At ASCE Meet

Three seniors in civil engineering will receive prizes for their senior theses, it was announced at the annual joint meeting of the Oregon section of the American Society of Civil Engineers and the Oregon State college student chapter. The meeting was held in Portland Friday night. Each of the men will receive the amount of the initiation fee for entrance into the society as his reward.

The men and their theses were Arthur Olson, "An Economic Study of a Sewage Disposal System for Corvallis, Oregon;" John Merrifield, "A Quantitative Survey of the Corvallis Sewage;" and Michael Donahay, "An Analysis of the Corvallis Water Distribution System."

Each of the seniors presented his thesis before the group and answered questions regarding it. Originally it was intended to give one prize only, but after the papers were heard, a motion was made from the floor and passed to award the prize to all three contestants.

Each of the papers aroused lively comment, reported Prof. C. A. Mockmore, head of the department of civil engineering. As a result, the meeting extended considerably over the time allotted to it.

Merrifield and Donahay are both going into the civil engineering corps of the navy after graduation. Olson has accepted a position with the Standard Oil company of California.

Between 60 and 70 people attended the meeting, estimated Prof. Mockmore. This included a group of seniors and faculty men from the civil engineering department of Oregon State.

Alpha Delta Pi Has Birthday

The Alpha Delta Pi sorority celebrated its 91st birthday last week. The sorority was established May 15, 1851, at Wesleyan Female college, Macon, Ga., and is the oldest secret society for women.

A Founder's Day banquet was held Friday night at the chapter house, Miss Maxine Blake, grand first vice-president who is visiting the chapter at this time, was among the guests.

Many alumni of Alpha Delta Pi and several prominent Corvallis women were also present. Miss Blake has been visiting the University of Oregon chapter and from here will go to her home in Seattle, Wash.

Pledging Announced

Chi Phi announces the pledging of Jack Wilson, sophomore in fish and game from Fresno, Calif.

Delta Upsilon Spring Formal

Above, left to right, Jean Floyd, Col. Des Islets, Mrs. Des Islets, Mrs. C. L. Olmstead, Chuck Olmstead, Ardith Haines.

Right: Shot of dance floor.

DU's Hold Annual Jig; Cantonment Heads Guest

Lieut. Col. R. E. M. DesIslets and Mrs. Des Islets were guests of honor at the annual flower formal of Delta Upsilon Friday night at the chapter house. Colonel Des Islets is head of the Corvallis cantonment, Camp Adair. His family has recently joined him from the east to make their home here. This was one of their first social events on the campus.

Colonel Des Islets, once an instructor in ROTC at Alabama, was at ease in the college setting and familiar with the procedure of a typical fraternity dance. In his college days he was a member of Blue Key, senior men's honor group, and of the Theta Chi social fraternity.

The fraternity was in its traditional dress for this yearly dance, wearing a lining of spring flowers. Couples danced underneath a ceiling of hawthorns. Walls were completely covered with sweet briar studded with irises, snowballs, bachelor buttons and roses. The fireplace housed a small fountain, while one end of the room bore the pin of Delta Upsilon worked out in flowers.

Welcoming the Colonel and his wife were Pres. Charles Olmstead; his mother, Mrs. C. L. Olmstead; members of the fraternity and their guests. Wes Lang and his band from Portland furnished the music. After the dance members of the groups serenaded the women's living groups on the campus.

Summer Session Editor Wanted

Students who are interested in being editor of the Summer Session News for the first regular summer term should indicate their desire to be considered as applicants immediately. Fred M. Shideler, associate professor of Journalism, said yesterday.

The Summer Session news is a weekly publication in tabloid form. Summer school students in elementary journalism provide much of the copy for the paper, which does not carry any advertising and is financed through the summer session administration headed by Dr. M. Ellwood Smith, director of the summer session and dean of lower division.

The News is printed only for the first five-week session.

Engineer Board Meets to Plan For Next Year

New and old members of the engineering student council met yesterday afternoon in Memorial Union building 105 to formulate plans for the coming year. Jack Wittkopf, junior in electrical engineering, assumed his duties as new president of the organization.

Defense bonds amounting to \$300 have been purchased by the group this year. Ross Mudge, senior in mechanical engineering and outgoing president, reported. He also summarized activities sponsored by the council during the past year, including the engineer's bust, engineers' ball and two engineering convocations.

Bob Lundeen, outgoing manager of the Technical Record, gave a statement of the magazine's finances for the year. Responsibilities faced by the new members were emphasized by W. H. Paul, associate professor of mechanical engineering and faculty advisor for the group. Describing the early history of the organization, he pointed out that all activities of the engineering school as a whole are under the direct supervision of the engineering student council.

Plans for activities during freshman week next fall will be made at a meeting next Monday.

Bob Letourneux Names New Thanos

Bob Letourneux, junior in secretarial science, announced the names of the new Thanos at the convocation Saturday afternoon. They are Marvin Wellman, Elwood Hoffman, Russell Cooley, Philip Dumas, Earl Roberts, Bob Kent, Edwin Smith, Tom Snowhill, Eulas Hale, Leon Deveraux, Dick Niklas, Blaine Brattain, Doug Bailey, Dean Young, Pat March, Wally Brockley, Jim Monahan.

Others are Ray Crane, Dave Childs, Dick Baum, Earl Biele, Bob Heckman, Carl Stueck, Norbert Mikshi, George Chomileus, Bob Pesheck, John Larkin, Amos Furnue, Bob Hawkins, Pete Bert, Henry Devritt, Norm Gray, Gale Briggs, Del Chapman, Harley Horn, Mickey Cramer, Emerick Hultin, and Bob Clark.

Sprague Sees Cadet Corps' Final Review

Governor Pleased With Appearance Of ROTC Unit

Governor Charles A. Sprague inspected the Oregon State college ROTC cadet corps on the intramural field yesterday afternoon at the annual military review.

Accompanied by Chancellor Frederick M. Hunter of the Oregon State board of higher education and Dr. F. A. Gillfillan, acting president of the college, Governor Sprague first inspected the corps as a whole, then received the graduating seniors of the military department and reviewed the cadets.

When the cadet officers were presented, the governor congratulated them and mentioned the fact that other Oregon State graduates were already in the service. He also expressed his confidence in their ability and his pleasure in being able to address them.

According to Colonel William R. Scott, professor of military science and tactics and commander of cadets at Oregon State, the governor was pleased and commented on the good appearance and neatness of the cadets. He was especially satisfied with the smart manner in which the corps was assembled and passed in review. Governor Sprague was also interested in and pleased with the work of the junior officers who led the corps in review.

Added the colonel, "I think the whole thing was splendidly given—it went off smoothly and without a hitch or delay. Each commander handled his organization properly, and I hope they'll always do as well as they did today. In fact, I couldn't ask for better from the cadets."

Chancellor Hunter, who displayed an unusual knowledge and interest in cadets' medals for marksmanship, was also favorably impressed, as was Dr. Gillfillan, who called nearly all the senior officers by name as he went down the line with the governor and Captain K. M. Johnson, who acted as governor's aide.

In conclusion, Colonel Scott said of the seniors who will be sworn in May 29, "We are all proud of them."

White Announces '43 Rally Team

The names of the five women and three men selected for next year's rally team were announced Saturday afternoon during the convocation on lower campus by Bob White, yell king, and senior in engineering.

The men are Bob Hawkins, freshman in lower division; Tom Clark, sophomore in agriculture; and Don Moyer, freshman in engineering.

The women are Melva Boon, freshman in secretarial science; June Peterson, freshman in home economics; Peggy Mahaffy, freshman in secretarial science; Lois Dustin, freshman in home economics and Carol Schramm, freshman in secretarial science.

Kappa Kappa Psi Initiates Tonight

Kappa Kappa Psi, band honor society, will hold its annual initiation at 5 o'clock tomorrow night in the Benton hotel.

Bill King, Kappa Kappa Psi president and junior in engineering, also announced that the new pledges will give a band concert tomorrow at 12:45 o'clock from the campus bandstand.

Pledges who will be initiated are Ross Webb, sophomore in mechanical engineering; Lloyd McKnight, sophomore in business administration; Edward Adams, freshman in engineering; Burton Isaac, sophomore in junior division; and Loren Luper, junior in education and conductor of the Albany high school band, as an honorary member.

Chairman

Jack Stark, senior in science, who was appointed Senior Bust chairman.

Counsel Groups Explain Program To Rooks, Sophs

Representatives of the Rook and Rookess counsellor organizations will speak to counsellors and those interested in becoming counsellors at meetings this week, according to Jean Fulton, junior in home economics and chairman of the speakers' committee.

"The counsellors will explain the rook and rookess counsellors' program to students so that the idea that counsellors function only during freshman week may be avoided," said Miss Fulton.

The counsellor program not only takes charge of freshman mix, but it arranges retreats, faculty firesides and follow-up parties, together with advising the rook or rookess on school problems, Miss Fulton said.

The speakers for the men's living groups include: Dick Ross, Bob Lindsey, Dick Lahti, Dick Jenning, Ben Kerns, Melvin Haygood, Tex Hale, Walt Vincent, Bill Mears, Del Chapman and Dan Beasley.

The women's speakers are: Mary Louise Armstrong, Ruth Blakely, Betty Jones, Nell Kenney, Marjorie Wilson, Mary Louise Shupe, Alice Jacobsen, Jane Weller, Bonnie Laughlin, Pat Boles, Gladys Beckendorm, Nancy Sonneland, Gertrude Kirsch and Carolyn Johnson.

OSC Previews Staff Will Meet Tonight

There will be a meeting of all staff members of the Oregon State Previews, or anyone else, who is interested in working on the magazine, in the Beaver editor's office in the Memorial Union at 7:30 o'clock tonight.

Sophomores End Tradition As 'Tug' Champs Keep Flag

By Dick Jenning

A strong sophomore tug-of-war team literally dragged its way into the lime-light last weekend when they pulled their traditional rivals, the freshmen, into the cold waters of St. Mary's river.

The significant news in the victory of the second year tugsters was not the fact, evident to many, that the rooks were pulled into the river, but rather that the successful defending of the flag of the moleskin wearers added significance to campus weekend festivities.

In more years than we would care to count, the losing side has always managed to at least capture winner's flag. The result of this year's pull-fest would point towards two general conclusions that could be drawn by any strictly neutral observer. First, the sophomores were and are superior to the freshmen, and secondly, the rooks are an inferior class to that of the victorious sophomores.

We prefer not to discredit either one of these two theories, but rather to uphold both of them.

Many who viewed the flag-rush, after the losing side crossed the river, noted with alarm the size and number of the oncoming first year men. Yet the guardians of the flag of '44 waited, undaunted, to successfully meet the

Jack Stark Appointed 'Bust' Head

Senior President Gives Few Details In Announcement

Jack Stark, senior in science, has been appointed chairman of the annual senior bust, Jim McAllister, president of the senior class, revealed late last week. The fact that Stark had been appointed chairman was the only tangible detail, however, that could be drawn from the taciturn senior class head.

Stark himself had little to say about the subject. Committee heads have carried out their parts successfully, he said. The entertainment committee which Stark wouldn't say was and wouldn't say wasn't headed by George Strong and Barbara Forrest, has lined up "oodles of talent" from the darker corners of the campus as well as a high class group of orchestral "five-givers," rumored, but without confirmation, to be that of Walt Weber.

Other committee heads with little to announce were orchestra committee head Paul Washburn, who has been with the baseball team on its disastrous trip to Idaho and Washington; Gene Williams, head of the finance committee; and Peggy Johnston and Lois Noble, chaperones committee; Lou Levy, refreshments committee; Don Bengtla, transportation committee (Bengtla promises a big blast about his big "Rose Bowl football style" car rally, which will start the bust rolling, when and if it materializes next Wednesday); Sybil Kennedy and Jack Mulder, lunches; Quentin Greenough, parking; Elmer Ingle, cleanup.

As an afterthought to his "no comment" report, chairman Stark added that the bust might be held this coming Wednesday, May 20, at Colorado Lake, and that the girls might get late closing hours, possibly 1 o'clock, and that lunches, entertainment and orchestral music might be furnished.

Dean Maris Attends Pan-Hel Discussion

Mrs. Buena M. Maris, dean of women, represented Oregon State college Saturday in a panel discussion for high school seniors, organized by Panhellenic in Portland at the Neighbors of Woodcraft building. Deans from the other Oregon colleges and Portland high schools were present and participated in the discussion.

The purpose of the panel was to answer questions of high school seniors regarding college costs, housing and clothes.

BEAVER CHANT

By Bud Conrad

If you recall two seasons ago when Ralph Coleman took his team on the road trip north, they were under the same sort of pressure that is present this season. That is, the task of trying to add baseball to Beaver championships after Stiner and Gill had already sewed up their respective titles. Well, Coley came through in good shape under the pressure and outstretched Oregon for the title. By the way of comparison between the two teams the starting nine of '40 were a much more experienced team with the exception of Glenn Elliott and Johnny Leovich, the battery combination, who were only sophomores. This year, Elliott is the veteran and the remainder of the team includes five new men.

Now whether or not it is more advantageous to have a seasoned infield and outfield with a rookie pitcher or vice versa is undecided. Most coaches would probably prefer the rookie pitcher set-up in college ball inasmuch as the majority of competition is of the unseasoned class, generally speaking. However, two years ago, Glenn Elliott was faster than he is now, according to Coleman. This year the bespectacled southpaw has reformed to the slowed down curve and change of pace ball. Evidently Elliott's change has been made to order for Oregon and Washington State hitters who beat him in two games.

So it looks as if the Orange team has its work cut out for them for the remainder of the season. They merely have to win the rest of their games. A win over Washington today and double pasting for Oregon Saturday and next Monday would do the trick, providing the Huskies lost one game. The Beavers would then have 10 victories against five losses, Washington would have the same and Oregon would be credited with 10 wins and six defeats, if we beat them twice. The Beaverville team who led the league for the first half of the season have so far dropped four out of the five games played on the road trip, whereas we were all confident that they would get by with an even break. But Idaho dumped them the first thing and that may have had a psychological effect.

AROUND TH EHORN.—The army cantonment is claiming the services of Warren Perryman, Jim Busch and Glenn Warren at present. Lew Beck, soph basketballer, is slated to pitch for the cantonment softball team this season, and many other Staters will seek employment there to get "peon" wages of \$1 per hour... Word has floated in that another of Lonnie Stiner's footballers has excelled in military service. Martin Chaves, Rose Bowl guard and friend of Pete Kmetovic, has been advanced to captainship in the army air corps. This follows nicely in that Jim Kisselburgh, who couldn't make the football team in high school at L.A., is an instructor in the same AAC and made the highest grades every attained by a cadet. Perhaps Mr. Stiner will be drafted into the A.C. as a morale builder.

Rook Track
Oregon State rook track team overpowered the Oregon freshmen 65-56 last Saturday on Hayward field. Although each team scored seven firsts apiece, the rooks gathered in enough second and third places to win the meet. Wally Still, Oregon freshman speedball, was the one man gang of his team, scoring 16 1/2 points. He took first in the 100 yard dash, 220 dash, javelin and was anchor man on a winning mile relay team. Still, in winning the 100 yard dash in :09.9 broke the Hayward field record of 10 seconds flat, which was set 22 years ago by Grilley of Oregon. Stew Schweizer was high-point

Varsity Tennis Oregon Cops Final Match To Win Meet

Ducks Even Series With 4-3 Victory; Bruckert-Downie Lose

The University of Oregon evened up the dual tennis meet series with Oregon State by beating the Beavers, 4 to 3, here Saturday morning. The Beavers and the Ducks have met twice this season and each have won once. Ricksecker and Rooney of Oregon and Bagby of Oregon State staged the most thrilling set of the meet when it took 22 games to decide which of the two would win. It was Oregon State's Hal Bagby who came out on top by winning the set 12 to 10.

The Oregon State varsity will attend the northern division championship playoffs at Pullman on May 22 and 23. The results of Saturday's meet are as follows: Singles—Baker of Oregon defeated Hatfield of OSC, 7-5, 2-6, 6-3; Williams of Oregon defeated Hedberg of OSC, 6-1, 1-6, 6-3; Bagby of OSC defeated Ricksecker of Oregon, 6-4, 3-6, 12-10; Rooney of Oregon defeated Bruckert of OSC, 6-3, 1-6, 6-3; Downie of OSC defeated Larson of Oregon, 6-2, 1-4, 6-0. Doubles—Hatfield and Herberg of OSC defeated Williams and Baker of Oregon, 6-4, 6-3; Rooney and Ricksecker of Oregon defeated Bruckert and Downie of OSC, 6-4, 6-3.

New Problems for Farm Wife
BERKELEY, Cal. (UP)—The California College of Agriculture has worked out a list of 18 new war problems which the national emergency has created for the farm wife. The list includes conservation of valuable materials, food and clothing, tires, gasoline, electricity, paper, silk, metals, fat for soap-making, vegetable gardening, raising of small meat animals and various other tasks.

ATO Keeps Slate Clean
In another close game played yesterday afternoon Alpha Tau Omega kept its name on the undefeated list by getting a 1 to 0 decision over Sigma Alpha Epsilon. Showing sensational form, Marvin Hays, winning pitcher, allowed the SAEs no hits and was never in danger of being scored upon. In the meantime his teammates

Varsity Baseball HUSKIES DOWN OSC 10-2

An up-and-coming University of Washington team handed the teetering Oregon State Beavers a 10-2 defeat in a crucial game played at Seattle yesterday. It was the fourth loss for the Beavers on their road trip. The two nines met again today with a pitcher's battle slated between OSC's Glenn Elliott and Washington's big Doug Ford. Sophomore Warren Simas was the starting pitcher for the Beavers but after a six-run Husky rally in the third, he was relieved by Gene Williams. It was the first defeat for Simas, the big and rugged right hander, in four games. In the third, the Orange scored on a hit by Vic Brown, a base on balls to Don Strobe and a single by Simas. And with the bags filled in the sixth, Hazel walked Ike Weaver to force in a run. Ray "Heinie" Heinzen collected two for two for a perfect day at bat.

Intramural Softball Cauthorn Trips Sigma Chi 1-0; ATO Nips SAE in First Inning Spurt

Cauthorn hall squeezed out a 1 to 0 win over Sigma Chi yesterday afternoon by tallying one run in the last inning. Dale Throckmorton, Cauthorn center fielder, opened the sixth inning with a single and stole second, third, and then home when Harry Moss, Sigma Chi catcher, dropped a pitched ball. This was the extent of the independent rally as the next three men were put out in one, two, three order. Sigma Chi had men on third in both the second and sixth inning, but they did not have the hitting power to drive them in. Don Hawkins, Cauthorn catcher, ruined the SX chances to score in the second frame by playing heads-up ball. With a man on first and third, Hawkins made a fake throw to first and then caught Glass, SX left fielder, off third base to retire the side.

Gene Mattice, losing pitcher, chucked his usual good ball game by striking out 14 men in six innings of play. The scores: R H Sigma Chi 0 4 Cauthorn Hall 1 3 Batteries: Mattice and Moss; Hawkins and Hawkins. Umpire, Kalibak.

ATO Keeps Slate Clean
In another close game played yesterday afternoon Alpha Tau Omega kept its name on the undefeated list by getting a 1 to 0 decision over Sigma Alpha Epsilon. Beaver Track Ducks Stop Beavers; Team Eyes N.D. Meet

Bob Fisher Beaten by Don Wilson; Blair and Stephens on Sick List

Coach Grant "Doc" Swan, his contention concerning the Beaver's chances in the Oregon meet last Saturday amply proven, today grimly set to the task of readying the track team for the northern division meet this weekend. The loss to the Ducks, although decisive, might have been closer had Captain Tommy Blair, quarter-miles, been over the flu and in condition to run, or had the Staters been stronger in the weights. As it was, the meet produced a number of rather surprising upsets.

Heading the list in the surprise division was the defeat of Oregon State's great sophomore miler, Bob Fisher, by his constant competitor, Don Wilson of the Ducks. Leading all the way, with the diminutive Oregon start close behind, Fischer failed to produce his usual finishing kick, consequently losing by 10 yards in a driving stretch finish. Wilson's winning time was 4:19.2, a new record for Hayward field. The duel between the two men will continue with a vengeance this coming Saturday in the Seattle meet.

Rooks to Meet Frosh Today

Frahler Likely to Start For Rooks

This afternoon the Oregon State Rook baseball team will meet the University of Oregon Frosh in the last game of the series between the two teams. The struggle will be the last of the season for the rooks who have won 11 and lost only one this year. The game will get under way at 4 o'clock on Coleman field.

The rooks have a two to one game edge on John Warren's crew by virtue of their 9 to 4 win last Saturday in Eugene. The Frosh won the first game behind the curve ball pitching of Whitey Lokan, 6 to 2. Bob Warner, ace rook hurler, won the second game 10 to 1, and then pitched Lokan Saturday to give the Staters the edge in the series. Coach Stats Gill will be able to start anyone of his pitchers this afternoon as they are all in top shape for the last game.

Warner pitched six hit ball for the rooks Saturday while his teammates were collecting 10 hits off Lokan. The Duckling curve baller was not nearly so puzzling to the rook batters as in the first encounter. The rooks enjoyed a comfortable 4 to 2 lead until the eighth inning when Jim Prior clouted a home run with one man on base to even the score. Big Elmer Weimer lead the rook attack with three singles in four trips to the plate.

Honorary judges for the races were Pat Shields, Margaret Street, Jean Pierce, and Ruth Judd, four of the six finalists in the coxswain contest.

Foresters, Professors Attend Meet

Five forestry professor and several seniors in logging engineering attended the Willamette Valley Logging conference in Eugene Friday. Although the conference was held both Friday and Saturday, the faculty members, E. G. Mason, acting dean of forestry; H. R. Patterson, professor of logging engineering; C. J. Budelier, instructor of logging engineering; George Schroeder, assistant professor of forestry; and R. M. Evenden, assistant professor of wood products and the students attended Friday's meeting only.

An increasing shortage of materials, equipment and men in the logging and lumbering industries was the subject of major discussion. Methods and measures for promoting safety in the woods and in the mills were suggested.

One of the important problems that faced the conference was that of training new men to replace the experienced ones who are being drawn from the industry by the war effort. The maintenance and care of tires for the needs of logging was also considered.

Classes in first aid were strongly recommended for all workers in the sawmills and loggin camps.

Dean Johnson, manager of the C. E. Johnson Lumber company at Toledo, was the principal speaker at the conference banquet which was held at the Hotel Osburn Friday night. He spoke on the general theme of the conference.

Women Present Talent Show

Members of Phateres, national social organization for independent college women, presented a talent show in the form of a radio broadcast at their regular meeting last night. Maxine Miller, freshman in secretarial science, was in charge of the program and mistress of ceremonies. Mrs. Mabel Winston, assistant to the dean of women and advisor of Phateres, was special guest artist in one of the dramatic portions of the show.

Features on the show, a character portrayal by Kay Wells, a vocal duet by Joyce and Betty Wright, a reading by Josephine Wright, a piano duet by Alene Ringo and Lorrean May, a monologue by Marian Cleveland, a vocal quartet by Helen Lundberg, Frieda Voget and Mary Leigh.

A skit by Mrs. Winston, Mary Jane Currier, Lora Jean Bennett, Betty Kilpatrick, Bernice Schaad, and Betty Mann, a clarinet solo by Selma Konick, a reading by Winifred Kiebusk, a character portrayal by Sally Jane Alexander, a skit by Jo Dillon, Wilma Waggoner, and Mary Alice Jones.

Westminster Gives Hawaiian Dinner

Westminster house was transformed into a miniature Hawaii when the Annual Chimes staff members acted as hosts to over sixty guests at their Hula dinner and dance Friday night.

Festivities began with the throbbing of jungle drums which continued for 15 minutes and then broke off into native music as the guests were ushered in to dine. The entire feast was laid out on three-inch-high tables, decorated with ferns and larkspur, at which the diners sat cross-legged on the floor as do the natives at their popular "lulus."

The highlights of the menu consisted of salted dried octopus meat and native poi, both direct from Hawaii. The poi was served in one bowl for each table and was eaten by dipping into it with the fingers—one finger for a man and two for a woman. Chop suey, steamed rice, beefed tomatoes, avocado salad, vegetable broth and tea completed the menu.

Throughout the dinner, Hawaiian recordings were played and a running program of specialties was presented. "Prof. Bengy Kernsi" related his latest experiences in the "lovely Hawaii" and introduced his latest addition to his collection, Princess Papaya Jones (Ruth Jones) in her grass skirt as she swayed and swished the hula amongst the diners. Heikki (Hank Matson), the Finn, and Pu-Pu (Leopold Waiau), the Hawaiian, sang their native tongue versions of "Aloho Oe" blending together on the chorus with the guests joining in on the second chorus as they left the tables.

A feature of the after-dinner dancing program was a La Conga line headed alternately by Matson and Waiau. The fundamentals of the Rumba and Hula were also shown to the dancers by Matson and Waiau. Special recordings furnished music for these dances.

Dinner and dancing were in charge of Leopold P. Waiau, freshman in engineering; Hank Matson, senior in secretarial science; Holden McTaggart, sophomore in lower division; Ruth Jones, junior in home economics; Corinne Harpham, sophomore in home economics; Ben Kerns, freshman in engineering; and Alice Cunningham, senior in home economics.

Gerald Keilboltz, instructor of chemistry, is general chairman for the event. Other members of the planning committee are Beatrice Hyland, graduate assistant in mathematics; Bruce Walton, junior in science; and Robert Prather, sophomore in science.

Each society is to solve its own transportation problems, with Ed Ehlers, graduate assistant in mathematics, doing this job for Pi Mu Epsilon. Al Kister, senior in chemistry, is transportation chief for Phi Lambda Upsilon. The food situation is being taken care of by Jean King, senior in education. Dick Lewis, senior in science, is in charge of cleanup. Hugh Southworth, graduate in chemistry, and Vitez James Ramsdell, senior in chemistry, are entertainment co-chairmen.

Honor Societies Hold Picnic

Four honor societies from the school of science will picnic at Colorado Lake from 4 to 9:30 o'clock Thursday evening. A joint program is planned.

Free food, fun, and frolic will be shared by members of Phi Lambda Upsilon, chemistry honor society; Sigma Gamma Epsilon, geology honor society; Sigma Pi Sigma, physics honor society; and Pi Mu Epsilon, mathematics honor society.

Gerald Keilboltz, instructor of chemistry, is general chairman for the event. Other members of the planning committee are Beatrice Hyland, graduate assistant in mathematics; Bruce Walton, junior in science; and Robert Prather, sophomore in science.

Hoofers Go To Falls

Seventeen hoofers hiked to Silver Creek falls Sunday morning on a Hooper club excursion. They also hiked from South Falls to North Falls, where they stopped and ate their lunch. Some hoofers hiked back to South Falls before returning to Corvallis. Among those taking cars out were Dr. Glen A. Bakkum, professor of sociology, Mrs. Bakkum; Dr. O. R. Chambers, professor of psychology, and Mrs. Chambers; and Ruth Krueger, circulation librarian.

AIEE Meets

(Continued from Page 1)
gineering, presented the Eta Kappa Nu sophomore award to Liljeberg. The award annually honors the sophomore in electrical engineering who has shown himself outstanding in scholarship, industry and character.

A student technical session followed the banquet meeting. Student papers were presented by Hugh Fleming, senior in electrical engineering, Glen Bredefeier, senior in electrical engineering, and W. H. Huggins and Edward N. Sidor, graduate and senior in electrical engineering respectively. Delmar L. Brown, chairman of the Portland section, presented a \$10 prize to Fleming, whose paper on "A Study of the Effect of High-Frequency Fields on Microorganisms" was judged the best of those submitted for competition.

Wives of the Portland section members were entertained at a tea at the home of Mrs. Macmillan during the technical session.

Dr. Needham Speaks

(Continued from page 1)
been elected to associate membership in Sigma Xi and will be initiated into the group tonight:

Seniors, Clyde H. DuVall, science; Bruce Graham, science; Kenneth Hedberg, science; Fred B. Morse, mechanical engineering; Arthur E. Olson, civil engineering; Donald R. Olson, mechanical engineering; Jack Peterson, science; Jack Dillard Sather, agriculture.

Graduate students, Ernest C. Anderson, science; Warren R. Biggestaff, science; A. J. Classen, chemistry; Harold E. Dregne, agriculture; Rex A. Elden and Henry R. Fortmann, agriculture; Eugene F. Grant, electrical engineering; Robert McGilvery, chemistry; Bernice I. Orwig, zoology; Sister M. Gemma Piennett, science; LeMar F. Remmert, chemistry; William E. Roake, science; Phillip W. Schneider; Francis L. Van Veen, chemistry; and Glen Edward Williams, chemistry.

The following graduate students will become full members: Gordon Alderton, Carl M. Anderson, Daniel E. Bonnell, Herbert E. Harper, William H. Huggins, Gerald W. Keilholtz, Wilson S. Pritchett and Jack W. Siegel.

Three faculty members, Arthur D. Hughes, assistant professor of mechanical engineering; Willem J. van Wagtenonck, research associate; and Glenn Voorhies, assistant professor of wood products; and one alumni member, Clara Chapman Pierson, will also be initiated.

War Cancels Political Picnic

SWEETWATER, Tex. (UP)—Add to events cancelled because of the tire shortage: Pic and box suppers—always arranged when politicians speak—have become a thing of the past in Nolan county. Political candidates have agreed to cancel all rallies.

Evacuation Aid Out of Reach

SANTA CRUZ, Cal. (UP)—Authorities, anxious to help evacuated aliens, established an information bureau for them, then learned it had been erected in a district prohibited to aliens. It had to be moved.

Wants Her to Make Mind Up

SAN JOSE, Cal. (UP)—Homer W. Calhoun asked for the custody of his twin children from his former wife on grounds that she cannot make up her mind about marriage. His petition explains she first married him, then divorced him; then remarried him; then had the marriage annulled; the married a Mr. Davis; divorced him; then remarried Davis.

Dr. Zeller Wins Science Award

Dr. S. M. Zeller, plant pathologist at Oregon State college, has received the most coveted of national honors in Phi Sigma, national biology honor society. He has been elected by the national Phi Sigma council to honorary membership in Phi Sigma. This honor comes only to outstanding workers in the field of biological science. Dr. Zeller has devoted years of service and research in biology in relation to human welfare. In addition, he has made his contributions available through more than 77 publications. Many studies of great practical value in mycology in relation to agriculture are now under way.

Dr. Zeller came to Oregon State college in 1919 as an assistant professor of plant pathology and assistant plant pathologist at the experiment station. He rose rapidly in rank to become professor of plant pathology, research and plant pathologist in 1924. Dr. Zeller spent one summer in Alaska on a kelp investigation expedition, and was associate editor of "Phytopathology" from 1924 to 1930. He filled the position of president of the Pacific division of the Phytopathology society from 1922-30, and was on the advisory board of this organization from 1925-1928.

The honor that has come to Dr. Zeller is also an honor to Alpha Mu Chapter, active chapter of Phi Sigma at Oregon State college.

Concert Association Features Debussy

Claude Debussy, composer of such musical delights as "Afternoon of a Faun," "The Sea" and "Moonlight," will be featured today in the recorded program of the Student Concert Association, at 4:30 o'clock in the Varsity O room of the Memorial Union. Debussy is known to musicians as an impressionist, that is, as one of those who seek to depict, not the actuality, but the impression or emotion conveyed by any experience. He founded the impressionistic school in music, under the influence of the painter Edouard Manet and the "Symbolists" who were in the forefront of the late nineteenth century rebellion against the conservative classic forms in painting and poetry.

A master of originality in technique of composition and orchestration, Debussy was also singularly gifted in imparting melodic color and atmosphere to his musical works. Many of his innovations in the realm of composition are good, sound practice to the composers of the present day. In another field, that of opera, Debussy excelled even Richard Wagner in his perfect fusion of poetic text and dramatic action. As a pointed contrast to Debussy's "sins of harmony," some compositions of the classic composers will be presented in today's program. There is no charge for attendance and all are invited.

4-H Club Members Hold Annual Picnic

Campus 4-H club members held their annual picnic at Avery's park Sunday afternoon.

Invited guests included H. C. Seymour, state 4-H club leader and Mrs. Seymour; L. J. Allen, assistant state club leader, and Mrs. Allen, and Helen Cowgill, assistant state leader.

Members of the committee handling the affair were Keith Shepard, sophomore in agriculture; Jim Randall, junior in forestry; Evelyn Christensen, freshman in secretarial science; and Virginia Park, freshman in home economics.
