BEAVER TRACKMEN ARRIVE IN SEATTLE

'Dad' Butler and Aggie Runners Ready for Dual Meet With Huskies Tomorrow

U. OF W. RATED HIGH

Contest With U. of O. May 29 Closes Season Schedule

The Aggie track squad arrived in Seattle this morning all "cocked and primed" for the dual meet with the Washington Huskies tomorrow. The men will have a day of rest to offset the tiresome effects of their trip. The meet has been definitely set for Saturday afternoon and the baseball game for Saturday morning.

Although the university has a well-balanced and strong track squad, O. A. C. has several shining lights and may upset the well-known dope when the final results are known, according to the coaching staff. The Aggie squad is decidedly stronger than the team that met Washington last spring.

Team Boasts Real Stars
The team boasts some real stars and is counting on them to bear the brunt of the attack against the Seattle men. Captain Baker is living up to his reputation established last year as a hurdler of considerable ability. Jim Duxer won fourth in the discus at the coast conference meet last Saturday and is getting the shot out around 44 feet. Clayton is ranked high as a miler and is taking second in that event at Palo Alto last Saturday proved his right to a high rating. Bell is a veteran in the mile and two-mile and placed fourth in the later event against a field of stars down south.

Butts is always up in the front rank and is expected to press Clayton in the mile. Sisson is a comer, having clipped a quarter in 49.1 at Kansas and the 880 in 1:56 in practice. Messing is pole vaulting at 12 feet, and Stiff is getting out over 23 feet in the broad jump. The rest of the squad is strong and the coach expects the team to force the Washington men to the limit for every point they take.

One more meet remains on the Beaver schedule after tomorrow's encounter with the Huskies. The last and most important meet of the year will be on the Aggie track with the University of Oregon, Saturday, May 29. The two teams are evenly matched and the meet will be hotly contested in the opinion of Coach Butler.

STUDENT MEETING SET FOR WEDNESDAY

'Dad' Butler and Relay Team Will Appear at Gathering in Men's Gymnasium

The last student body meeting of the year will be in the men's gymnasium next Wednesday at 1 o'clock.

A rally for the varsity track men who are scheduled for a dual meet with Oregon a week from tomorrow, will follow the regular order of business. Coach M. H. "Dad" Butler, Captain Harry Baker and the Aggie four-mile championship relay team composed of Royse Clayton, Bayard Sisson, Ted Butts and Percy Bell will be introduced to the student body at the meeting.

"A good dance orchestra will be engaged for the occasion and we are expecting to give the new yell leader a hard workout in preparation for his work next year," said Bert Fehren, new student president, in announcing the meeting. "The meeting will be a snappy affair and we are expecting every Beaver to be on hand for the nominations and to give the Aggie tracksters a good rally for their meet with Oregon."

TEUTSCH ATTENDS LECTURES
W. L. Teutsch, district agricultural agent, is attending a series of fruit growers meetings with county agents and farmers of Marion and Polk counties. Cherry fruit fly control is one of the most important questions being discussed. Mr. Teutsch will return Saturday.

PRESIDENT OF W. S. C. TO ADDRESS SENIORS

DR. ERNEST O. HOLLAND

O. A. C. MARKETING CLUB ELECTS FOUR OFFICERS

Organization Creates Closer Relations And Acquaints Students With Methods of Business

Don Stewart, junior in agriculture, has been elected president of the O. A. C. Marketing club. Other officers elected were Harold Ellis, junior in agriculture, vice-president; Lawrence Woodward, junior in agriculture, secretary; and Laurence Nolte, junior in agriculture, treasurer.

N. H. Comish, professor of economics and sociology, faculty advisor, installed the new officers after the election. Mr. Comish gave a short talk summarizing the work of the club for the last year. Ben Pabols, senior in agriculture, retiring president, gave a talk on the benefits derived from the Marketing club.

The Marketing club has for its purpose creation of closer relations between students interested in marketing, and helping members to become better acquainted with methods of marketing. This spring a two-day trip was made to Portland to visit several large manufacturing plants.

CONKLIN ONLY INITIATE OF HONORARY SOCIETY

Fred Conklin, sophomore in chemical engineering, was initiated into Chi Epsilon, local honorary in chemical engineering, last night at a meeting held in the chemistry building. Conklin was the only man initiated.

Chi Epsilon is petitioning Phi Lambda Epsilon, national honorary in chemical engineering, and the local, in keeping with the national society's custom, pledges one sophomore a year. This idea is to have one member of long standing in the organization. Conklin was chosen for his high scholastic standing, personal leadership, and character.

DR. B. T. SIMMS CHOSEN ON NATIONAL COMMITTEE

Dr. B. T. Simms, professor of veterinary medicine, has been selected by the national research council to act as a member of the national committee on an important disease of dairy cattle. The committee will hold its annual meeting at Chicago, June 11 and 12, to discuss the various phases and control of the disease which is causing great economic losses.

Dr. Simms, who has carried on extensive investigations on dairy diseases here at the experiment station, will present the results of his investigations at the meeting in June.

STUDENT PLAYERS PRESENT DRAMAS

Comedy by Esther D. Schwartz Considered Big Production of Evening Program

BOWMAN LEADING MAN

Flora McCoy Takes First Part in Oriental Fantasy

By CATHERINE DAVIS
The community drama plays, given in the Workshop theater last evening, were a creditable example of the work of the public speaking department. "Three Souls in Search of a Dramatist," a comedy written by a local author, Mrs. Esther Dresden Schwartz, was delightfully interpreted by the students.

Jack Bowman, as the dramatist in the first play, experienced the many trials of the modern play-wright who is interrupted in the midst of writing a play by three actresses in search of someone to understand their desires. Eileen Gamwell, the efficient secretary, Jessie York, Elynore Kase and Vivian Tohl, the three actresses, showed talent in their parts.

Flora McCoy Takes Lead
"The Singing Soul," a Chinese fantasy, was greatly appreciated by the audience. Flora McCoy as the youngest daughter of Kwan Yu, a mandarin of the illustrious Ming dynasty, won much favorable comment. Her quaint songs sung to the emperor to appease the wrath of the stars were credibly interwoven in the plot.

The mandarin was played by F. H. Dobbins. The two older daughters were done by Ruth Murray and Helen Elgin. Alfred Carter played the part of the emperor of Peking. The other characters who contributed toward the success of the play were Vernon Owens and Harry Ehlen.

The oriental atmosphere created by the effective stage setting of the latter play overcame the fact that the action was slow in some parts but the general effect was favorable. Costumes and wall hangings loaned by Corvallis people helped to give the fantastic effect.

"Smoke" for Airplane Skywriting Being Made By Chemistry Student

The "smoke" Lieutenant Oakley G. Kelly will use for the airplane "skywriting" in the aerial circus of the fourteenth annual military tournament, is being manufactured in the chemical engineering laboratories, by Leslie Roll, junior in chemical engineering.

The compound is made by passing liquid chlorine over molten tin forming stannous tetrachloride, a liquid which gives great clouds of white fumes when it comes in contact with moist air. The heat of the reaction is so great that the tin is kept in a liquid condition without any outside heat.

The letters O. A. C. and R. O. T. C. will be written in the sky in great white letters by the airplanes of the famous flying ace in his performance which opens the tournament.

PARKING REGULATIONS REVISED BY COMMITTEE

Automobiles will not be allowed to park on Twenty-third street in the vicinity of the commerce building, after Monday, in spaces marked with no-parking signs. Failure to follow this parking rule as well as other campus traffic regulations will result in immediate action according to Arthur L. Peck, campus superintendent.

Additional signs were put up yesterday designating places where parking restrictions are necessary. Posts on the driveway east of the mines building have been moved nearer Monroe street, allowing students to park in that space without the difficulty of driving out to Monroe street. These parking rules are made for the safety of pedestrians as well as drivers.

J. LEO FAIRBANKS TALKS ON ART BEFORE TRIADS

Sigurd H. Peterson and Dr. E. Gilbert Initiated into Faculty Club; Dean to Speak Next

The college can be a great factor in advancement of art on the Pacific coast, especially as applied to the rapidly developing industries, in the opinion of J. Leo Fairbanks, professor of art, who spoke before the Triad faculty club.

"Art is the well-doing of that which is worth-doing," said Professor Fairbanks. "Art is today a practical subject. When I see men who are interested in plowing their fields well, I know they are taking an interest in art. Art is interested always in efficiency."

Art is used in making plays, Professor Fairbanks told his hearers. A beautiful home, for example, is the result of a plan. "Art is not just a fact" he continued. "It enters into life. It is valuable only as we share it."

Sigurd H. Peterson, associate professor of English and Dr. Earl Gilbert, associate professor of physical chemistry, were initiated into the club. E. D. Ressler, dean of the school of vocational education, will be the speaker at the meeting of the Triad faculty club next week.

FINAL PLANS MADE FOR NEWPORT TRIP

Dance, Competitive Games, and Launch Trip Arranged for Pleasure of Seniors

"Clear and fair," the weather forecast for the week-end, predicts an ideal time for the senior trip to Newport tomorrow. Remaining tickets for the trip will be sold today in the lobby of the library from 10 to 12, and from 1 until all are taken. The committee has made arrangements for 25 additional tickets, to be sold to the first persons who come.

At 6:30 tomorrow morning the special train at the Southern Pacific station will start whistling and leave promptly at 7 o'clock. Music in two baggage cars for dancing on the way over will furnish entertainment.

Ten dozen fresh crabs, all prepared to eat, have been ordered for the luncheon in the auto park. The refreshment committee, anticipating that appetites will be whetted by the tang of salt air, has arranged for sandwiches, salad, punch, ice cream and cookies to be served.

W. A. "Bud" Kearns, director of physical education for men, and Howard Blake, senior in commerce, will have charge of competitive games and races on Nye beach in the afternoon. The Natatorium dance hall is engaged for dancing.

A large number of seniors have signed up for the launch trip across the bar, and there is a possibility of arranging a deep sea fishing trip. Everyone will have opportunity to take the trip to the lighthouse on Yaquina head, and to visit the marine gardens there.

Mr. and Mrs. W. A. Kearns, and Sergeant and Mrs. H. G. Crocker will chaperon the trip.

Stanley Knox, chairman of the committee, urges all seniors going on the trip to remember that the success of the excursion, and the possibility of future trips, is dependent upon their conduct.

VERA KIENAST DANCES AT MAJESTIC TONIGHT

Students Members of "Gypsy Fete" Choral Song Cycle, Directed by Mrs. J. L. Gault

Vera Kienast, sophomore in home economics, as the dancer of "Dreams" and "Droning Timbrels" will feature in the "Gypsy Fete," a choral dance cycle to be given by the Lorelei club tonight at the Majestic theater, under the direction of Mrs. James L. Gault.

The program will be interwoven with musical and dance numbers. Those will be played by students majoring in physical education. Miss Bernice Ballance, instructor in physical education, will direct the dance program. Blair Stewart, senior in commerce, will serenade the gypsy camp in the second act, singing "The Gypsy Love Song" and "The Gypsy Trail."

DR. E. O. HOLLAND SPEAKER FOR GRADUATION EXERCISES

President of Washington State College Will Give Annual Commencement Address to Senior Class Monday, June 7 at Meeting in Men's Gymnasium

Dr. Ernest O. Holland, president of Washington State college, has been selected to deliver the commencement address to the class of 1926 on Monday, June 7, the executive office announced yesterday.

President Holland was inaugurated president of Washington State college in March, 1916, succeeding President E. A. Bryan. In the 10 years he has administered the affairs of the Washington institution he has built up a reputation in the west as an executive for both high ability and character. From his first public address at his inauguration to the present he has been an advocate of a democratic spirit in education and of harmony in the educational affairs of the state he serves.

A native of Indiana, President Holland obtained his bachelor's degree at the university of his own state, later obtaining a doctorate at Columbia university. Prior to that he studied in Europe two summers.

Has Broad Experience
For six years President Holland was associate professor and professor of education at his alma mater, Indiana University, going from there to head the school system of Louisville, Kentucky. In the latter period he was a summer school lecturer at University of California. It was while he was at Louisville that he was selected to head Washington State college.

President Holland is active on many of the civic and educational boards of Washington and was an effective worker throughout the period of the World war on various state and national commissions. He is joint author of an English textbook, "Written and Oral Composition," and is author of a treatise on The Pennsylvania State Normal and Public Schools.

Scholastic attainments of President Holland won him both Phi Kappa Phi and Phi Beta Kappa keys. He is also a member of Phi Delta Kappa, national honor fraternity in education, and is a member of Sigma Chi, social fraternity.

DOWN TOWN CLUB PLANS STRONGER ORGANIZATION

Reception for Corvallis High School Senior Women to Be Afternoon of Saturday, June 5.

Plans for developing a stronger downtown girls organization were suggested by Dr. Kate W. Jameson, dean of women, at the Wytomachee club meeting in Shepard hall. Virgil E. Woodcock, president of the independent student council, explained the work to be done by the independent students for next year. A reception for the Corvallis high school senior girls was planned for 2:30 o'clock Saturday afternoon, June 5, at Dean Jameson's home.

"The responsibility of bringing the town to the college and the college to the town lies with the downtown girls," said Dr. Jameson. "Members of the Wytomachee club would be rendering a real service to the college by giving the Corvallis senior high school girls their first introduction to O. A. C."

Lucile Sharp, sophomore in vocational education, was appointed chairman of a committee to work with Bessie Hardenburger, president, in planning for the senior high school girl's reception. Other members appointed were Isabel Aldrup, senior in home economics, and Gladys Hare, senior in vocational education.

ANNUAL TRIP ENDS TERM FOR FORESTRY STUDENTS

Sophomore forestry students under E. G. Mason, assistant professor of forestry, and E. L. Mowat, instructor in logging engineering, will leave this morning for the Fall Creek watershed, 40 miles east of Eugene. The students will cruise and map 2500 acres of timber for and in cooperation with the forest service. This is an annual trip for the forestry students.

Classroom work and examinations have been completed and the students will not return until June 11. The school of forestry truck with supplies and equipment left yesterday to arrange camp. Twenty-five students are making the trip.

SOPHOMORES SCHEDULE LAST DANCE THIS TERM

The sophomore class dance in the College Gardens tomorrow night will be the last college dance this term. Tickets are on sale today in the library lobby. They may also be obtained at the dance.

The Moonlight Serenaders will play, and a special musical feature will be given. Chaperons will be Professor and Mrs. F. H. Thurber, Professor and Mrs. Justin L. Powers, Miss Gladys Peterson, instructor in household art, and Professor C. C. Ruth. The entire student body is invited to attend.

JUDGING CONTEST TOMORROW
The annual stock judging contest sponsored by the Withycombe club will be tomorrow morning at 8 o'clock in the stock judging pavilion. Complete classes of sheep, horses, beef cows, and hogs will be judged. Members of the animal husbandry faculty will decide the winners. The three highest men in the contest will each be awarded a medal.

PARACHUTE JUMPER FEATURE OF DISPLAY

Lieutenant Van Ault Will Provide Thrills for Tournament in Fall From Plane

Lieutenant Adrian Van Ault, accomplished parachute jumper, assured Major Donald A. Robinson, military tournament director, yesterday that he would make a parachute jump as a special feature of the tournament here May 29. The only thing to prevent a jump is a heavy fog or low cloud bank.

Lieutenant Van Ault will jump off several thousand feet above the earth and drop as far as possible before pulling a little ring under his left arm, releasing the special exhibition jumping parachute strapped to his back. He expects to drop at least a thousand feet before opening the parachute.

Parachute jumpers describe the jump in as many ways as there are jumpers. All agree that the body gets a jerk when the chute opens, the violence of the jerk varying with distance. In cases where the jumper is making a long drop before chuting, the jerk often makes black and blue marks where belts are strapped to his body.

Sky writing and a smoke screen exhibition from an airplane are new events arranged for the tournament. Silicon tetrachloride will be used in the writing stunt instead of titanium tetrachloride used in the war, as none of the latter chemical is in existence.

Lieutenant Oakley G. Kelley, non-stop flier across the United States, who put on this event, in a test flight made with the new chemical in Portland yesterday, reports the experiment successful. Kelley has equipped his plane with a special apparatus to avoid danger of fire to the plane.

OFFICERS INSTALLED BY CLUB

Officers of the Forestry club were installed at a meeting in the forestry building last night. W. J. Chamberlain, assistant professor of forest entomology, spoke on the importance of entomology to forestry.

The Traffic Problem
Increasing numbers of automobiles on the campus constantly give rise to the problem of parking and traffic regulations. Unfortunately most of the campus drives are narrow and cannot accommodate parked cars and through traffic with any degree of safety either for machines or crossing pedestrians.

No parking signs have been put up from time to time to prevent undue congestion, but students, always in a hurry to beat the final whistle, are negligent in observing them. The campus superintendent feels that observance of the parking regulations is absolutely necessary for safety and convenience to all.

Sufficient parking space is provided in the large area west of the agricultural building and in the newly designated space east of the mines building to accommodate every car. However, it is unavoidably necessary for some few to inconvenience themselves slightly and walk a few steps further to their class rooms.

Attention of students to the parking rules is called in the news section of the Barometer today. Authorities are reluctant to get "hard boiled" about the observance of these rules but feel that such observance is absolutely necessary. A penalty for violators has been authorized and will be rigidly enforced.

At a number of institutions throughout the nation, including several on the coast, it has been found necessary to absolutely prohibit driving of automobiles on the institutional grounds. Among those campuses where student cars are prohibited are the University of California and the University of Washington. It is hoped that students on this campus will heed the lesson involved and forestall any possibility of such drastic action as has been necessary at our neighboring institutions.

Lest We Forget
With "the burning of the green" the usual tendency is for members of the freshman class to immediately take over the duties of the sophomore class. When the green caps and ribbons go into discard, freshmen take to the campus lawns as their highways, and the haunts of upperclassmen as their own personal property. They assume a superior attitude toward all things.

True, the burning of the mark of servitude places freshmen in a position of dignity which they have not held heretofore, but it does not relieve them of their duties as members of the freshman class. Final examinations have by no means been completed, nor have the present sophomores become upperclassmen.

It behooves freshmen to keep to the campus walks, shunning the grass as they did when they were the greenest of rooks. It behooves them further to avoid a show of "cockiness" toward sophomores and upperclassmen. They will do well to keep everlastingly at the books, or they may never reach the sophomore stage.

A Word of Praise
Volume one, number one of the Cosmopolitan Herald, the work of members of the O. A. C. Cosmopolitan club, will make its appearance on the campus today. The little publication contains six pages of news and comment dealing with the work of organization. The club plans to make the Herald a quarterly publication, and in its efforts merits the support of every student of the college.

Members of the Cosmopolitan club, representing 19 countries, are making

The Scroller's Column

ROBERT SERVICE
By T. A. W.

In the elf-land of eccentricity, where the eccentrics unwittingly play the role of the elves, there is a law which condemns all literature which comes from outside the bounds of affectation. It is actually said that Robert W. Service did not write good poetry. Those of us who appreciate Service's work thank God that there are a few men yet living who are not afraid to write about big things. And we will be dubbed "uncultured" and spoken to, ah, condescendingly.

Good poetry must be simple, sincere, sympathetic, humorous, and intolerant of injustice. The verses in "The Spell of the Yukon" are good poetry. They are as good as the best America has ever produced. And better still, they are not "neurotic." Service has told about Alaska what Kipling told about India—what Burns told about Scotland, but because a few of the great "cake eaters" like Keats or Browning better, Service's work is frowned upon. There is a reason for this injustice.

The colleges (including our most highly boasted universities) have always encouraged a pseudo-manhood, a pseudo-tolerance, and a disdain for everything not scholastic. Whenever one can distinguish any particular man, in a group of men, as being a "college man," then the college has failed to educate him. Such a man is a pseudo-scholar, and will invariably refuse even to discuss Service. But, after all, Service is popular with the audience he chose—the world—and the groans of all the college snobs in America will not lessen his popularity with the "great unwashed."

ANNOUNCEMENTS

Sigma Delta Chi will meet in the tea room at 12 o'clock today. Every member is asked to be present as public as possible due to the large amount of work to be done.

Annual election of the Cadet Officers society will be in the lobby of the library this afternoon. All junior and senior students in military are urged to vote.

The Cosmopolitan Herald is on sale this week in the lobby of the library at 10 cents a copy.

Uncalled for senior announcements may be obtained from Ralph Hylton at the Theta Chi house from 1 to 2 o'clock and 4 to 6 o'clock Friday afternoon. This will be the last opportunity to get them.

Nominations for a board of directors for the student cooperative book store will be this afternoon at 4 o'clock in room 100 library.

Students who will not complete professional requirements until after summer school but who wish teaching positions for next year should file application with the appointment secretary before the close of the present term. After the regular college year it is hard to gather recommendations as instructors leave the campus.

DEAN CORDLEY RECEIVES LETTER FROM ALUMNUS
Dr. A. B. Cordley, dean of agriculture, has received a letter from George K. Jenner, '24 graduate in agriculture, now in charge of the Smith-Hughes work in Molalla, thanking the school for the program given the Smith-Hughes boys and instructors this spring.

The Molalla department of agriculture sent 26 boys and six farmers and business men to the O. A. C. meeting. Mr. Jenner believes that the group received a great deal of useful information at the meeting and that they will all be O. A. C. boosters.

Samuel Rotschy, '25 graduate in forestry, in reply to the special letter sent out by President W. J. Kerr to members of all reunion classes, says that he expects to be here June 4 to 7. Mr. Rotschy is living in Camas Valley.

Tiny Sloop Displayed Downtown Carved by Former O.A.C. Student

"Discovery." Who built it? Is a question that immediately enters the minds of passers-by as they see the large model of a sloop anchored in Lynn's photo shop window this week.

Andrew W. Thomas, linotyper on the Gazette-Times and former O. A. C. student, spent 40 hours of his spare time last winter whittling out the ship "Discovery." He gave it to Harold Lehnert, the Gazette-Times superintendent's boy, who was so pleased with the model that he had it placed on display.

"The thoughts of one who has been near the water for many years naturally drift to ships and yachts," said Thomas whose home is in Marshfield. "The miniature sloop sails and ploughs the water in a fair wind as fast as a man can row a boat."

The little white ship, modeled after the Gloucester fishing sloop is perfectly proportioned, even the sails being built exactly to scale. It is 48 inches long and 12 inches wide and is constructed of one-inch boards glued together and carved inside and out.

Thomas, a chemical engineering student at the college last year, intends to finish his course soon.

College Dormitories Help Many Students In Earning Expenses

The dormitories for women employ in the dining rooms students who are earning their way through college. These students are paid 35 or 40 cents an hour, according to length of service and type of work.

Waldo hall employs 28 students besides two full-time workers. Caithorn hall employs 11 students and Margaret Snel hall, 14. The Waldo cafeteria, which is open to the public, employs six.

Most students work full time, helping at all three meals. Substitutes are employed when the regular workers cannot be present. Students who wish to, may work extra time.

Miss A. Margaret Bowers, director of dormitories for women, has charge of all the dining room work.

BOOKS ON ASTRONOMY BEING SHOWN
Books of astronomy are being featured on the "table of interest" in the library. Books included in the collection are "Mars and Its Canals" by Percival Lowell, "A Beginner's Star Book" by Kelvin McKreedy, "The Reminiscences of an Astronomer" by Simon Newcomb, "The Telescope" by Louise Bell, "Other Worlds Than Ours" by Richard Proctor, "A Handbook of Solar Eclipses" by Isabel M. Lewis, "A Short History of Astronomy" by Arthur Berry, "Stellar Motions" by William Campbell, "The Children's Book of Stars" by G. E. Mitton, "Myths and Marvels of Astronomy" by R. A. Proctor.

University of Oklahoma
A gradual cutting down of elective work in the University of Oklahoma is being planned, together with the elimination of "pipe" courses.

Vassar College
"Euthenics," meaning right living, is the term applied to a new department at Vassar college.

University of Oregon
Men at the University of Oregon have a fencing team which engages in inter-collegiate bouts.

Carlos Steele, '25, former Aggie basketball captain and student body vice-president, was a visitor on the campus. Steele is located in the engineering department of the Pacific Telephone and Telegraph company in Portland.

THE JACK POT

"About all the girls know about needles nowadays is that they have to be changed after each record," is the opinion of "Hip" Dickerson.

Paul: "Since I bought a car I don't have to walk to the bank to make my deposits."
George: "Of course not, you can ride now."
Paul: "No, I don't have any deposits to make."

Jack: "What kind of a watch have you got?"
Ted: "A wonder watch."
Jack: "A wonder watch? I never heard of it before."
Ted: "Well, you see it's like this—every time I look at it, I wonder what time it is."

A lady who took a long time selecting meat finally said to the butcher: "I don't think this meat is lamb, it looks like mutton."
Butch: "Well, ma'am it was lamb when I first showed it to you."

Doctor: "Did the nurse take your temperature last night?"
Patient: "I don't think so, all I've missed so far is my silver watch."

Bernal: "Do you know the difference between loving and liking?"
Carl: "Yes. I like my girl, but I love ice cream."

FACSIMILE OF DOCUMENT PRESENTED AS MOMENTO

A facsimile copy of the Declaration of Independence has been received by the library. It is of heavy vellum to resemble the parchment on which the original declaration was written. Those in charge plan to have it framed and put on display in the reference department.

E. W. Ewedberg, Pacific northwest representative of the Western Publishing company presented the document. It was sent as a memento of the 150th anniversary of the signing of this historic document.

COLLEGE RADIO STATION TO BROADCAST RECITAL

The Elburta trio of Albany will give an hour's recital from college radio station KOAC tonight. A special talk on automobile lubricants and fuels and the fourteenth talk in the geology series are other features of the evening's program.

Selected tenor solos by Arthur R. Kirkham, ex-'20, assistant radio announcer and prominent local singer, will open the program at 7:20 o'clock. At 7:30 J. C. Othus, instructor in me-

chanics and materials, will discuss "Oils and Fuels for the Automobile." "Growth of Knowledge Regarding Life" will be the subject of a talk by D. C. Livingston, professor of geology, beginning at 7:45 o'clock. The Elburta trio consisting of Mrs. Clyde Williamson, soprano; Lural Burgraf, piano; and Glenn S. Taylor, violin, will entertain listeners from 8 to 9 o'clock.

BEAVER BATSMEN TO MEET HUSKIES

Opening Game of Final Series With U. of W. Scheduled Today in Seattle

The Aggie baseball team will play the crucial game of the season this afternoon with the Washington Huskies at Seattle. A win means a chance for the title while a defeat will give the pennant to the Northerners. As the two-game series this week-end completes Washington's schedule it is expected to have the toughest available combination on the field.

The Aggie pitching staff is weakened by the injury of Dave Strimater, chief pitcher. In practice last night he strained his arm so may not be able to play at Seattle. If his arm improves sufficiently Coach Ralph O. Coleman plans to use him in tomorrow's game.

Other members of the squad with the exception of Captain Escallier are in good condition and "rain" to get another chance with the Huskies. Escallier is still suffering from the strained ligament in his leg.

In practice Wednesday night Aggie batting showed improvement. The men were placing their hits, a thing they have been unable to do in former games. If the chucking staff gets to going good Coach Coleman believes the Aggies will give the conference leaders an interesting battle.

Winters, who pitched a no hit no run game for six innings against the Huskies last week, will start on the mound today. Winters has a lot of stuff on the ball and with good batting support is doped to chalk up a victory. Ford and Hodgins will be ready to relieve Winters if the Huskies get to hitting him.

The starting lineup for O. A. C. will be as follows: Winters, pitcher; Faurie, catcher; Sigrist, first base; Hafenfeld or Hartley, second base; Dwyer, third base; Baker short stop; Schulmerich, left field; Escallier, center field; and Logan, right field.

THREE TENNIS MATCHES PLAYED OFF YESTERDAY

Lambda Chi Alpha Racquet Wielders Take Two Out of Three Sets From Phi Delta Team

Three intramural tennis matches were played off yesterday evening. The feature game was between Lambda Chi Alpha and Phi Delta Theta. Lambda Chi Alpha winning two out of three sets. Alpha Pi Delta and Tau Delta of the locals, played a fast and interesting match, the Tau Deltas taking high honors. Miami won from Western in the independent league in an easy match.

The games are getting fast and interesting as all the weaker teams are eliminated. The independent and local divisions will play in the semifinals next, and the winners play in the finals for college championship.

Summary:
Lambda Chi Alpha defeated Phi Delta Theta 6-3, 4-6, 6-0.
Tau Delta defeated Alpha Pi Delta 2-6, 6-1, 6-4.
Miami defeated Western 6-2, 6-1.

PERCENTAGE BASKETBALL BEING TAUGHT IN SOUTH

Tom McMullen, former varsity basketball man, has been appointed basketball coach at San Diego Teachers' and Junior college, according to word received by R. H. Hager, varsity basketball coach. McMullen has been engaged in landscape gardening in the southern city since his graduation from O. A. C.

The San Diego college is interested in the percentage system of basketball and has obtained McMullen because of his experience with the system under Coach Hager, its originator, he reports. San Diego college, in the Southern conference, is the latest California institution to adopt the Hager percentage system.

CAMPBELL VISITS CAMPUS
H. J. Campbell, former coach at Jefferson high school in Portland, was a visitor on the campus yesterday. Mr. Campbell whose present home is in Washougal, Wash., expects to move to Corvallis in the near future.

Leora Phillippi '23 graduate in home economics, is teaching mathematics in the Benson Polytechnic school in Portland.

INTRAMURAL NINES PLAY MANY GAMES

Beta Theta Pi, Kappa Psi, and Alpha Pi Delta Lead in Respective Leagues

Six games of the intramural baseball series will be played this afternoon, and 12 tomorrow in order to finish the schedule before final examinations. Postponements due to wet weather have broken up the schedule, and it became necessary for George Scott, in charge of intramural baseball, to move the schedule ahead.

Alpha Sigma Phi won from Phi Sigma Kappa, 4 to 0; Sigma Gamma took an 8 to 5 struggle from Psi Chi; and Sigma Chi forfeited to Alpha Gamma Rho in yesterday's games. Beta Theta Pi took the long end of a 7 to 6 count against Kappa Sigma. Kappa Psi had little trouble in downing Tau Kappa Epsilon, 14 to 6, to take its fourth win in a row. Delta Kappa offered little or no opposition to Alpha Pi Delta, the latter winning 13 to 0.

Three runs in the fifth inning gave Beta Theta Pi a victory by a one run margin over the Kappa Sig. Poling heaved good ball for the Betas, while Eilers, Kappa Sig hurler, was found for three runs in each of the first and fifth innings. Eight runs in the fifth inning off Flynn, Teke moundman, resulted in a 14 to 6 win for the Kappa Psi nine. Jack Savory held the Delta Kappa batsmen well in check while his teammates pounded the shoofs of Allen to all corners of the lot for a 13 to 0 win. Mitchell, who relieved Allen, proved to be effective, but the damage had been done.

This afternoon's schedule follows: Phi Delta Theta vs. Phi Kappa Tau, field 1; Theta Chi vs. Delta Upsilon, field 2; Wastina vs. Willamette, field 3; Sigma Phi Sigma vs. Pi Kappa Phi, field 4; Alpha Pi Delta vs. Omega Upsilon, field 5.

If the teams cannot play as scheduled, call George Scott at Sigma Nu house. Saturday schedule will be announced tomorrow morning.

POLO TEAM PRACTICING FOR BENEFIT CONTEST

Mallet Wielders Anxious to Enter Northwest Tournament Held in Vancouver Soon

The polo team is practicing daily in preparation for the benefit game May 29, for Leo Beckley, member of the polo team recently injured in practice. The squad will be divided into two teams of equal strength to insure a good match.

The O. A. C. team is desirous of playing in the Pacific Northwest tournament in Vancouver the latter part of the month. No action has yet been taken. The Aggie malletmen feel they can make a good showing in the tournament after their hard series with the Stanford team. Some of the best teams in the northwest will take part, including the Boise, Idaho, team, winners of the championship at the last tournament.

The good showing made by the Aggie "four horsemen" in the Stanford series was a big surprise, think many of the fans. Starting the series with only two experienced men in the lineup, the Aggies lost the first game. In the final match they found themselves and defeated Stanford after trailing behind most of the game. Stanford was in splendid playing condition, having defeated the strong University of Arizona team just previous to the series here.

The polo letters were to be awarded the men at the Military tournament Saturday, May 29, but a delay makes it almost impossible for the sweaters to be ready.

Rooks on the polo squad have challenged a team from Eugene. Plans have not yet been completed. Men on the rook squad are Johnson, McGinnis, Courtney, Peacock, and Woodbury.

PI KAPPA ALPHA ANNEXES HORSESHOE CHAMPIONSHIP

Pi Kappa Alpha won the college intramural horseshoe championship last night by defeating Orion club in two closely contested games, 31 to 20 and 31 to 26. The champions, Mercer and Dowsett, played a steady game, each scoring seven ringers. Haines and Roberts, pitching for Orion, threw nine ringers between them.

The Pi Kaps won the fraternity championship in the semi-finals by winning two games from Theta Nu Phi, local league champions, 31 to 24 and 31 to 8. The winners tossed 12 ringers in this match.

Souvenir Batons Received By Coach and Relay Team

Ossie Solem, director of athletics at Drake university, has paid a high tribute to O. A. C.'s track coach, M. H. "Dad" Butler, and the four-mile relay team. The eastern mail brought Coach Butler a package containing five blue and white batons, one each for Coach Butler and the four men that ran on the four-mile relay team at Drake.

Each baton had upon it a small verse, in honor of the man, and the autograph of Ossie Solem. The one to coach Butler had, "To 'Dad' Butler, the greatest coach and finest sportsman in the world." The others came in the order the men ran—"To Bell, The boy who started the fight"; "To

Butts, You are a fine miller—glad to have you with us"; "To Sisson, A sweet miller with a smile"; "To Clayton, The greatest miller I ever saw." Praise from a man as widely known in the athletic world as Mr. Solem is recognized as a great compliment to the school and the men.

The Aggie four-mile relay team is being featured all over the United States. The spectacular finish of Clayton, the Aggie anchor man and White of Illinois, was featured in most of the larger eastern papers as well as the different news reel pictures, spreading widely the fame of the institution, coach and the four milers.

YEARLING TRACK SQUAD WILL RUN IN DUAL MEET

Rook Team Preparing for Match With Jefferson High School of Portland Saturday

Rook cinder artists took a light workout yesterday and will rest today in preparation for the dual meet with Jefferson high of Portland Saturday. The Jefferson squad is expected to furnish some stiff competition as it is generally picked to win the interscholastic meet in Portland today.

Coach R. H. Hager has added another broad jumper—Maham—to his list of entries. He has jumped better than 20 feet in practice. Black, rook miler, has been shifted to the half mile. He showed unusual strength in the tryouts, covering the distance in 2:03. McKinney and Bradshaw are the regular half milers. Brown is improving in the mile while Riebe and Darlington are covering the distance in good time.

The meet Saturday will be the third appearance of the rook trackmen. In the meet with Corvallis high the yearlings took all first places and most of the seconds. Last Saturday the rooks

YEARLING TRACK SQUAD WILL RUN IN DUAL MEET

Rook Team Preparing for Match With Jefferson High School of Portland Saturday

Rook cinder artists took a light workout yesterday and will rest today in preparation for the dual meet with Jefferson high of Portland Saturday. The Jefferson squad is expected to furnish some stiff competition as it is generally picked to win the interscholastic meet in Portland today.

Coach R. H. Hager has added another broad jumper—Maham—to his list of entries. He has jumped better than 20 feet in practice. Black, rook miler, has been shifted to the half mile. He showed unusual strength in the tryouts, covering the distance in 2:03. McKinney and Bradshaw are the regular half milers. The meet Saturday will be the third appearance of the rook trackmen. In the meet with Corvallis high the yearlings took all first places and most of the seconds. Last Saturday the rooks

ROOK BASEBALLERS PLAY FROSH TODAY

Oregon Babes Strengthen Team After One Sided Defeat Earlier in Season

The rook baseball team will tangle with the Oregon frosh at 2:30 today and tomorrow on the varsity diamond. The two games this week are the last on the rook schedule. With a record of six wins and no defeats the rooks will attempt to complete the season with a clean slate.

Aggie yearlings have been victorious in eight out of the last nine games played with the frosh. The frosh nine has been entirely rebuilt since the first two games with the rooks, according to reports from the university.

Coach Keene will start his strongest combination against the frosh. The probable starting lineup for the rooks will be Bouton, short stop; Quayle, third base; Pfaffm, center field; Cloninger, second base; Burke, left field; Merril, right field; Cloyes, first base; McHaley or Tonolicher, pitcher.

Saturday's game will be the last under the direction of Coach Keene, as he leaves at the close of the term to become director of athletics at Willamette university.

AGGIE BASKETBALL TEAM DOWNS BAIRD ALL-STARS

In a game featured by clever floor work on the part of the varsity basketballers, the Baird brothers' independent team was defeated Wednesday night. Coach R. H. Hager, using four different combinations, expressed himself as being well satisfied by the progress shown.

Practice this afternoon at 4 o'clock will consist of further drill on fundamentals. Hager is planning to start his famous game of basketball golf in the near future. In this game the players shoot from 15 different positions on the floor. Each shot is counted as a stroke. Par for the course is 25, although many are able to do it in less.

BOOKLET PUBLISHED BY COLLEGE EDITOR

Illustrated Pamphlet Printed Showing Service of O.A.C. in Training Students

"Science for Service," a new illustrated booklet on O. A. C. and opportunities here, by Edwin T. Reed, editor of college publications, is off the college press and ready for distribution.

The booklet is designed to show citizens of Oregon and prospective students the service the college is rendering the state in training young men and women for the world's business, industrial pursuits and professions of life, and in development of the state's natural resources, industries, business, and citizenship.

Dr. W. J. Kerr, president of the college, briefly traces in the foreword the rise of scientific instruction in this country, with land-grant colleges and technical schools serving as pioneers in bringing science to the aid of industry and social progress in America.

Alluding to Tyndall's challenge to the United States to give greater attention to cultivation of science, President Kerr writes: "Profoundly true were these far-seeing utterances of Tyndall in 1872! Profoundly fortunate for America was the fact that just then the newly-founded land-grant colleges offered a convenient and adequate vehicle for putting into effect this program of scientific research."

The health service is said to prove that O. A. C. is not only a store house of knowledge but a reservoir of service. On the page of miscellanies, the student self government plan, honor system, college standards, school of music and its organizations, and the O. A. C. Alumni association are briefly sketched.

Topics such as the experiment station, extension service, Corvallis, college events, student publications and industrial journalism are also given a place in this booklet.

A copy of the new booklet will be sent every high school graduate in the state, and to others on request.

SENIOR MEN WIN PRIZES FOR ENGINEERING PAPERS

Rewards Offered by Portland Section of American Civil Engineers Which Meets Tonight

Robert T. Stanley won first prize offered by the Portland section of the American Society of Civil Engineers. His paper was the "Building of the Long Bell Relief Map." Wendell Dawson won second prize with a paper on "Some Practical Engineering Mathematics." Adrian H. Williams won third, his being "Construction of the Elk City Highway." These men are all seniors.

Prize winning papers will be read at a joint meeting of Portland and student sections in the University club at Portland this evening. Prizes, consisting of junior membership in the A. S. C. E., will also be given. This is an annual event in which seniors in civil engineering compete.

Other men attending the meeting are Stewart H. Sims, professor of civil engineering; Ray F. Newton, Harvey Summers, George Sedgwick, Chung M. Li, Charles H. Reagan, Clyde C. Beam, Francis Thomas, Willis H. Bartlett, and Virgil Rodgers, seniors in civil engineering.

After leaving college a student in civil engineering can become a junior member in the A. S. C. E. and after holding a responsible position for five years can become a regular member.

MRS. PRENTISS SPEAKS BEFORE SALEM WOMEN

Mrs. Sara Prentiss, instructor in household administration, discussed "How the Child Keeps His Mental Health" in an after-dinner speech before a group of A. A. U. W. women in Salem.

"Every child does not keep his mental health," said Mrs. Prentiss. "In 1924, 75,000 entered hospitals for mental diseases in this country. In the next 10 years, at this rate, one-half to three-fourths of a million persons, many of whom are now school children, will become inmates of such institutions."

Mrs. Prentiss is giving a series of talks in Salem on the well being of children, both mental and physical.

STUDENT BODY LEADERS LEAVE FOR CONVENTION

Jenkins and Fehren Attend Annual Pacific Student Presidents' Association Meeting

Bert Fehren and Vernon Jenkins, incoming and outgoing student body presidents, left yesterday afternoon for Seattle, Wash., where they will attend the annual Pacific Student Presidents' Association meeting.

The University of Washington is host this year to the student representatives who meet annually to discuss problems peculiar to the government of students in the colleges of the Pacific coast. Latest information on the various policies and methods of student government will be presented for discussion by the group.

Discussion of the honor code will be given special attention this year. Recent developments of the code, in schools where it is in force, will be discussed.

Conferences, banquets and sight-seeing tours will constitute the program for the student presidents. The University of Washington will observe Junior week-end this coming week-end, giving the group an opportunity to witness class celebrations at the northern institution.

STUDENTS ON PROGRAM FOR STATE CONVENTION

A program sponsored by the visiting delegates to the state convention of the Laundry Owners' National association Saturday evening in the women's gymnasium is open to college students and townspeople.

Speeches and music will make up the program, which is under the direction of David Lilly, senior in commerce. Cleone Andrews will play piano solos. Ernest Beals, sophomore in pharmacy, will play his accordion. David Lilly and Carl Metten, sophomore in vocational education, will sing. Leonard Moss, freshman in commerce, will entertain with magical tricks.

A banquet followed by a dance will be given tonight at the Hotel Benton.

HONORARY INITIATES PLEDGES

Nine home economics students were initiated into Omicron Nu, national home economics honorary. The ceremony, which took place in the tea room, was presided over by Georgia English, senior in home economics, president of the chapter. "Service" was the theme of the speeches. Those initiated were Mrs. Merle Davis, Mrs. Lucille Gorseline, Erma Scritsmier, and Ella Miller, seniors; Maud Mueller, Hazel Hopkins, Gertrude Harry, Lois Cheadle and Eugenia Vilm, juniors.

GRADUATES RECEIVE REUNION INVITATIONS

Many Letters Sent to Alumni by Dean Milam Concerning New Courses Offered

Letters to 195 graduates in home economics have been sent by Miss Ava R. Milam, dean of home economics. Of the 13 classes that will hold reunions in June, 155 alumni were home economics students. Besides a hearty invitation to attend the reunion festivities, the letter included data concerning the changes which the school of home economics has made in its curricula.

"One of the most outstanding recent developments in home economics, not only at O. A. C., but over the United States, is in the emphasis placed on child training and child care," reads the letter. "Our curricula now includes economics, sociology and psychology. We are coming more to analyze the job of the home maker and to recognize that her first responsibility is to be adequately equipped for intelligent motherhood and citizenship."

A new course to be offered in summer session, a nursery school, is announced in this letter. Children from 2 to 5 years of age will be observed in the school five days of the week. The aim of the course is to present to the student first hand acquaintance with physical and behavior problems.

Saturday morning, June 5, the home economics women of the state are planning a breakfast at 8:30 in the tea room. It is asked in the letter that reservations be sent to the home economics office.

NATIONAL HOUSE GIVES THIRD COAST CHAPTER

Nine members of the local chapter of Tau Kappa Epsilon, and one graduate member, left for Seattle yesterday to aid in the installation of Sigma Delta Theta, local fraternity at the University of Washington, as Chi chapter of Tau Kappa Epsilon.

This installation will be the twenty-second of Tau Kappa Epsilon, and the third on the Pacific coast. The third chapter is at the University of California.

Those making the trip are DeWitt Dornier, '24 graduate in agriculture, Fred Parker, Edward Laird, Alvin Filppin, James Altman, Arthur Wight, Carl Walker, James Fraer, Willis West, and Tom Maginnis. The men will return Sunday.

EASTERN STAR SORORITY INSTALLS NEW OFFICERS

Officers of Temenids, Eastern Star sorority, were installed by Dr. Kate W. Jameson, dean of women. Mrs. W. J. Kerr, honorary member of Temenids, was present at the installation.

Officers are Alma Horsfield, freshman in commerce, president; Fern Duncan, sophomore in vocational education, vice-president; Dorothy Cummins, sophomore in home economics, recording secretary; Bessie Brown, junior in home economics, corresponding secretary; Lanta Brewer, sophomore in home economics, treasurer; Wilma Brewer, '25 in pharmacy, alumni secretary; Thelma Johnson, sophomore in vocational education, editor; and Betty Currie, sophomore in vocational education, sentinel.

CO-ED TRACK TEAMS VIE FOR HONORS TOMORROW

Points Given for Orange "O" Sweaters to Winners of Class Events; Numerals at Stake

The co-ed track meet will be this afternoon at 5 o'clock on Bell field. The 11 events will be a 50 yard dash, 100 yard dash, 60 yard hurdle, running broad jump, running high jump, shot put, basketball far throw, baseball far throw, relays, and the javelin and discus throw. Any co-ed having the required number of practices may enter three events besides the relay.

The track meet offers opportunity for co-eds to win points toward an Orange "O" sweater. For first place in any event 30 points will be given; second, 20; third, 10; and for each member of the relay, 10. Co-eds are required to have at least eight practices before they are eligible to take part in the meet.

Participants are urged to be on the field promptly at 5 o'clock. Numerals will be awarded the class team winning the highest number of points in the meet.

WILMA LEACH INSTALLED AS PRESIDENT OF W. A. A.

Co-ed Sports Managers Take Office; Swimming Numerals Awarded Championship Team

Wilma Leach, junior, was installed as president of the Women's Athletic association at a meeting last night. Other officers installed were Louise Kettel, sophomore, vice-president; Claribelle Mintonye, sophomore, secretary; Elizabeth Currie, junior, treasurer; and Katherine Murphy, sophomore, custodian. All are students in vocational education.

Sports managers for the coming year are Anona Joos, junior in home economics, volleyball; Ednah Lawrence, freshman in home economics, basketball; Alice Joy, sophomore in vocational education, tennis; Carol Chapman, junior in vocational education, hiking; Lida Jarmon, junior in vocational education, rifle; Julia Butler, sophomore in vocational education,

baseball and Eudora Mitchell, sophomore in vocational education, swimming.

Swimming numerals were awarded to members of the sophomore swimming team which won the interclass championship. Those receiving numerals were Alice Joy, Eudora Mitchell, Claribelle Mintonye, Katherine Murphy and Louise Kettel.

The new constitution was adopted. A bronze plaque bearing the names of senior women outstanding in athletics and having other desirable qualities of womanhood was selected as a higher award. A small Orange "O" on a black background will be awarded the co-ed who earns 500 points.

NEW ELECTRIC MOTORS PLACED IN LABORATORY

Three electric motors have been placed in the junior electrical laboratory by the Fairbanks-Morse company. These motors will be used for test purposes by juniors and seniors in

electrical engineering. This equipment will be loaned to the college indefinitely. When it becomes obsolete or worn out the company will replace it without charge to the college.

The largest motor, a three phase, double wound, 10 h. p., high starting torque motor, is equipped with a voltage compensator. The voltage compensator is used in starting the motor. The other motors are rated at one-half and 7 1/2 h. p.
