Office of the President

Gentlemen:

I am writing on behalf of a research group on Black studies which has recently been organized by the Constituent Assembly of Cornell University. We are interested in obtaining information on the structure, content, and governance of programs in African and Afro-American studies at other colleges and universities. If your institution possesses or contemplates such a program, we would very much appreciate your forwarding to the appropriate personnel our request for information about it. We would be particularly grateful for any brochures, articles, internal directives, etc., which they could send us on these topics.

Finally, we would appreciate being informed of the existence of programs in Black studies at any of your sister institutions.

Thank you in advance for your kind assistance.

Very truly yours,

Professor Stephen U. Chase  
(for the Black Studies Research Group  
of the Cornell Constituent Assembly)
