CURATOR

George B. Abdill

Dear Slug :

No problem at all to get extra prints of Joel for you. Have made up some extras for our file, in addition to the ones I sent.

Enclosed is your newspaper (original) and a Xerox copy of the article. We made an extra copy for our files here.

Quite a few years back the Dayton Reading Club put up a history of Dayton, composed of articles similar to the one in the enclosed paper. Local ladies each took a topic or two to research & write up. The end results were mimeographed, I believe. Have you seen one of these ? I think I have one at the house, and will try to dig it out. Carl Francis probably has one or more.

My kinswoman, Gertrude Goodrich, (now deceased) was one of the ladies involved, and I furnished her data on the Dayton, Sheridan & Grand Ronde R.R. and on the early river steamboats on the Yamhill. She was a daughter of Joel Palmer Dorsey.

All the best ...

George B. Abdill
