

PROCEEDINGS OF THE
SECOND WORLD CONGRESS ON
DESALINATION AND WATER
RE-USE

NOVEMBER 17-22, 1985
BERMUDA

VOLUME 2

SESSION IV: DISTILLATION TECHNOLOGY
V: MATERIALS AND CORROSION
VI: DESALINATION PRACTICE

Organized by the
INTERNATIONAL DESALINATION ASSOCIATION (IDA)

Cosponsored by the
EUROPEAN FEDERATION OF CHEMICAL ENGINEERING
Working Party on Fresh Water from the Sea

C O N T E N T S

VOL. 1 PROCEEDINGS (VOL. 54 DESALINATION)

I	ROUNDTABLE ON THE FUTURE OF DESALINATION	1
II	MEMBRANE TECHNOLOGY	
	K.A. KLINKO, W.G. LIGHT and C.M. CUMMINGS Factors influencing optimum seawater reverse osmosis system designs	3
	C.T. SACKINGER Seawater reverse osmosis at high pressures	19
	W.T. HANBURY and A. YUCEER Constriction of B10 hollow fibre bore diameters under operating conditions	27
	S. KIMURA, H. OHYA, Y. MURAYAMA, K. KIKUCHI, M. HIRAI, M. TOYODA, T. SONODA and S. SETOGAWA Five years operating experience of a 800 m ³ /day reverse osmosis seawater desalination plant	45
	R.A. BERGMAN, H.W. HARLOW and P.E. LAVERTY Resolution of reverse osmosis flux decline problems at Englewood, Florida	55
	M. KURIHARA, T. UEMURA, Y. NAKAGAWA and T. TONOMURA The thin-film composite low pressure reverse osmosis membranes	75
	B.G. KEEFER, R.D. HEMBREE and F.C. SCHRACK Optimized matching of solar photovoltaic power with reverse osmosis desalination	89
	B. HU, D. REN, R. XU and D. YU The development of the spiral-wound reverse osmosis modules	105
	P. GOUBEAU Energy recovery pumps in reverse osmosis desalination plants	117
	D.B. GUY and S.I. MAGIDSON The line pressure reverse osmosis appliance industry	127
	H.K. HEYBACH and U. MÜLLER-FRANK The chance for reverse osmosis technology: vacuum precoated prefiltration/automation	137
	P.K. NARAYANAN, W.P. HARKARE, S.K. ADHIKARY, N.J. DAVE, D.K. CHAUHAN and K.P. GOVINDAN Performance of an electrodialysis desalination plant in rural area	145
	L. ZHENG The status of development and application of reverse osmosis and ultrafiltration technique in China	151
	H.C. VALCOUR Recent applications of EDR	163
	Y. LIU, K. LANG, Y. CHEN, and B. CAI Effect of heat-treating and dry conditions on the performance of cellulose acetate reverse osmosis membrane	185
	W. JIANG and D. LI Low electrical consumption electrodialyser filling ion-exchange conducting spacers	197

1 Fresh Water from the Sea,

, W. Pusch

X. LU, C. GAO and X. SUN Reinforced and dry polysulfonamide membranes	207
Y. MIMURA, S. TANIGUCHI and E. TATSUMURA MASHIMA How to obtain highest plant efficiency for reverse osmosis desalination plant	219

III CHEMICALS IN DESALINATION

D. BARBA, V. BRANDANI, and G. DI GIACOMO CaSO ₄ scale conditions of membranes predicted by a multi-ion thermodynamic model	227
M.P.C. WEIJNEN and G.M. VAN ROSMALEN The influence of various polyelectrolytes on the precipitation of gypsum	239
Z. AMJAD Applications of antiscalants to control calcium sulfate scaling in reverse osmosis systems	263
A.L. SMITH, D.P. LOGAN, H.E. NEHUS and M.L. DELITSKY Elimination of mineral acid dosing to control water formed scale in brackish water reverse osmosis systems	277
K.G. COOPER, L.G. HANLON and R.E. TALBOT An operating philosophy to optimize the output, plant life and economy of MSF plants operating at high temperatures	291
J.C. BERNARD and E. DEMOLINS Scale control additive - practical experiences in MSF plants	301
F. BUTT, F. RAHMAN, A. AL-ABDALLAH, H. AL-ZAHRANI, A. MAADHAH AND M. AMIN Field trials of hybrid acid-additive treatment for control of scale in MSF plants	307
D.P. LOGAN and S. KIMURA Control of gypsum scale on reverse osmosis membranes	321
R. ZANNONI, F. FANTINI, M. HARUNI, T. ABU IHWEIG and G. BOARI Reverse osmosis desulphation pretreatment: new prototype application	333
M. WILF and P. GLUECKSTERN Restoration of commercial reverse osmosis membranes under field conditions	343
A. KAJI and M. MURANO Membrane for ethanol-water separation - water selective membrane	351
D.P. LOGAN and K. KURODA Improved high temperature MSF evaporator operation for potable water production	361
I. RESINI, G. COLIVA, A. DE MAIO and R. LUCENTI 4x6 MIGPD plus 1x1 MIGPD (acid) plants - two years' operation results	377

VOL. 2 PROCEEDINGS (VOL. 55 DESALINATION)

IV DISTILLATION TECHNOLOGY

A.M. AL MUDAIHEEM and H. MIYAMURA Construction and commissioning of Al Jobail Phase II desalination plant	1

U. FISHER, A. AVIRAM and A. GENDEL Ashdod multi-effect low temperature desalination plant report on year of operation	13
M. LUCAS and F. MURAT Desalination by mechanical vapour compression: operational results after one year operation of the Flamanville unit — comparison with other desalination processes by evaporation	33
N. NADA, D. KHUMAYYIS and M. AL HUSSAIN Economical evaluation of Alkhobar phase two 50 MIGPD at three different modes of operation	43
B.A. CRUL and P.R. BOM New aspects in solar powered seawater distillation	55
J. CORTÉS and F. CANTERA Basic parameters of design on a VC-VTE process with high ER	69
A. FURUKI, K. HAMANAKA, M. TATSUMOTO and S. INOHARA Automatic control system of MSF process (Ascode®)	77
D.M. KHAMIS FAREIGH and S. ARAZZINI Description and mathematical model of a large MSF desalination plant in SCADA configuration	91
M.H.A. EL-SAIE, M.F. FARRAG, and M.H. ERFAN Computer supervisory control of MSF evaporator	107
H.T. EL-DESSOUKY and G.M.R. ASSASSA Computer simulation of the horizontal falling film desalination plant	119
M.M. HILAL and M.A. MARWAN Design equations for a new set up of sluice gates to stabilize inter-stage brine flow	139
A.M. MUBARAK and H.T. EL-DESSOUKY Design of waste heat boiler for desalination-gas turbine co-generation plant	145
T.J. RABAS An improved MSF condenser design	169
G. MIGLIORINI, B. FUMAGALLI and S. ARAZZINI Theoretical approach to MSF stages efficiency calculation	185
H.T. EL-DESSOUKY and T.A. KHALIFA Scale formation and its effect on the performance of once through MSF plant	199

V MATERIALS AND CORROSION

R. CIGNA, L. GIULIANI and G. GUSMANO Continuous corrosion monitoring in desalination plants	219
T. HODGKIESS, N.K. NG and P. ARGYROPOULOS The corrosion behaviour of a number of materials exposed to bromine- containing environments	229

S. NORDIN, B. ERICSSON and B. WALLEN Optimization of high-pressure piping in reverse osmosis plants	247
J.W. OLDFIELD and B. TODD The use of stainless steels and related alloys in reverse osmosis desalination plants	261
M. PÖTZSCHKE, M.B. ROCKEL and G. RUDOLPH The effect of iron (pick-up) on seawater corrosion properties of welded CuNi10Fe steel compounds	281
U. ROHLFS and H.-D. SCHULZE Possibilities of corrosion prevention and removal in seawater exposed structures and desalination plants	283
H.-D. SCHULZE, U. ROHLFS and K. THIES Enhancement of availability through the early detection of damage in desalination plants	297
V. CANETTA and N.M. VALOTA MSF desalination plants - copper alloy tubes: their economic aspects for overall cost production	307

VI DESALINATION PRACTICE

M. AL-ARRAYEDH, B. ERICSSON and M. OHTANI Construction and operation of 46,000 m ³ /day reverse osmosis desalination plant, Ra's Abu Jarjur, Bahrain	319
P.J. DE MOEL, R.F.M. DE GIER and G. ONDERDELINDEN Design of the 50,000 m ³ /day treatment plants for Qasim S.A. desalination of brackish water at 99% recovery	343
M. AL-SOFI, R.D. PETERSON, D.L. MOEN, Y. SOEJIMA and H. SAWADA Thermal performance of 10x5.2 MIGD MSF plants, Al Jobail phase II	357
N.M. WADE, R. HEATON and D.G. BOULTER Desalination and water re-use: comparison of MSF and RO in dual purpose power and water plants	373
K. THIES, U. ROHLFS and H.-D. SCHULZE Enhancement of the availability of desalination plants by means of in-service inspections	387
R.P. BIRCH, M. AL-ARRAYEDH and B. HALLMANS Bahrain's fresh groundwater situation and the investigations into using Bahrain's brackish water resources as a feedwater for the reverse osmosis desalination programme	397
H. BOEHMER and F.J. GLAZE Better MSF plant performance by avoiding tube fouling and debris	429
B. ERICSSON and B. HALLMANS A comparative study of the economics of RO and MSF in the Middle East	441
G. FECHNER and R. PILLKAHN Use of variable speed pumps for MSF and RO plants	461
P. GLUECKSTERN, M. WILF, J. ETGAR and J. RICKLIS Use of microprocessors for control, data acquisition and on-line performance evaluation in a reverse osmosis plant	469
M. KISHI, K. MATSUMOTO, Y. TAKEUCHI and K. HATTORI Development of flow model for weir type orifice	481

S.A. KRESHMAN Seawater intakes for Libya
L. LIBERTI, R. PASSINO Technical and economic
T.J. RABAS The effect of tubside of condensers used in
F.E. STONE and A.N. RO A projected world market
H. BOEHMER and F.J. GI Debris separators and
C.D. HORNBERG Analysis of desalination
B. TEISLEV Small on-shore desalination

VOL. 3 PROCEEDINGS

VII WATER RE-USE

H.H. SEPHTON Process sequence for
P.S. CARTWRIGHT Membranes separations A review
N. HASBANI Basic design and economic compression and of water for re-use
C. BOWLER, S.H. GREEN Process design of a 3 for Jeddah, Saudi Arabia
H. KOHLI, D. EMMERMAN Hybrid desalting technology
O.O. HART and R.C. SQU The role of membrane wastewater management
M.R. BREWSTER and O.K. The use of non-conventional short areas
J.C. SCHIPPERS, H.C. Reverse osmosis for treatment
H. ZHANG, X. ZHENG and The application of membrane
C. BOWLER and S. GREEN Water reclamation from large scale examples
K. IMASU Wastewater recycle in reverse osmosis elements

ants	247	S.A. KRESHMAN Seawater intakes for desalination plants in Libyan	493
osmosis	261	L. LIBERTI, R. PASSINO, M. SANTORI and G. BOARI Technical and economic trends of seawater desalting in the 90's	503
ies of	281	T.J. RABAS The effect of tubeside maldistribution on the thermal performance of condensers used in MSF distillation plants	515
ter exposed	283	F.E. STONE and A.N. ROGERS A projected world market for seawater desalination equipment	529
damage	297	H. BOEHMER and F.J. GLAZE Debris separators and filters for different desalination systems	559
mic aspects	307	C.D. HORNBERG Analysis of desalination alternates for phosphoric acid plant in Tunisia	571
		B. TEISLEV Small on-shore desalination plants	589
VOL. 3 PROCEEDINGS (VOL. 56 DESALINATION)			
VII WATER RE-USE			
s	319	H.H. SEPHTON Process sequence for using saline water as power plant coolant	1
A.	343	P.S. CARTWRIGHT Membranes separations technology for industrial effluent treatment	17
AWADA hase II	357	A review	
in dual	373	N. HASBANI Basic design and economic evaluation of brine recycling by vapor compression and of wastewater reclamation by RO and vapor compression for re-use	37
means of	387	C. BOWLER, S.H. GREENHALGH and M.S. BRENJI Process design of a 30,000 m ³ /d advanced water re-use facility for Jeddah, Saudi Arabia	47
ons into or the	397	H. KOHLI, D. EMMERMANN, R. KADAJ and H. SAID Hybrid desalting technology maximizes recovery	61
debris	429	O.O. HART and R.C. SQUIRES The role of membrane technology in industrial water and wastewater management	69
Middle	441	M.R. BREWSTER and O.K. BUROS The use of non-conventional water resource alternatives in water short areas	89
	461	J.C. SCHIPPERS, H.C. FOLMER, J. VERDOUW and H.J. SCHEERMAN Reverse osmosis for the treatment of surface water	109
on-line	469	H. ZHANG, X. ZHENG and J. LIN The application of MEMS flash in re-use of alkaline waste water	121
	481	C. BOWLER and S. GREENHALGH Water reclamation from sewage using traditional techniques - some large scale examples	131
		K. IMASU Wastewater recycle in the plating industry using brackish water reverse osmosis elements	137

K. WANGNICK The production of boiler feedwater from field formation water in enhanced oil recovery (EOR) systems	143
G. WIŚNIEWSKA and T. WINNICKI Removal of nitrate ions acidic wastewater by Donnan dialysis involving tabular exchange membranes	161
D. BLACKSON, B.W.REYES, J.W. KLUESENER and E.H. HOULE Water reclamation for power plant cooling	175

VIII RESEARCH

C. HE and X. ZU The development of cyanoethyl CA membrane for reverse osmosis	191
W.J. CONLON Pilot field test data for prototype ultra low pressure reverse osmosis elements	203
R.C. HARRIES A field trial of seeded reverse osmosis for the desalination of a scaling-type mine water	227
A.-S. JÖNSSON, R. WIMMERSTEDT, and A.-C. HARRYSSON Membrane distillation - a theoretical study of evaporation through microporous membranes	237
M. KURIHARA, W. PUSCH and T. TANAKA Transport properties of Toray's asymmetric cellulose acetate membranes	251
R. RAUTENBACH and B. ARZT The development of high-performance distillation plants	261
G.C. SARTI, C. GOSTOLI and S. MATULLI Low energy cost desalination processes using hydrophobic membranes	277
W.T. HANBURY and T. HODGKIESS Membrane distillation - an assessment	287
V. BRANDANI, G. DEL RE and G. DI GIACOMO A new model for predicting thermodynamic properties of sea salt solutions	299
F. YAO et al. Study on electrodialysis reversal (EDR) process	315
G. FAN, C. ZHANG and L. ZHENG The study of action of organic additives in polysulfonamide UF membranes	325
J. HU, D. KANG and C. CHEN The preliminary probe about effects of organic solvent in membranes casting solution - effects of poor solution	333
S.-I. ANDERSSON, N. KJELLANDER and B. RODESJÖ Design and field tests of a new membrane distillation desalination process	345
F. MIAO, X. LI and Y. ZHANG The mathematical modeling of the removal of phenol with emulsified liquid membranes	355
K. OHTA, H. KANEDA, M. HIRAI, K. KIKUCHI, Y. MURAYAMA, S. YAMADA, N. SATO, S. MASUMI and E. NISHIYAMA Experiments on reverse osmosis process for production of boiler make-up water from seawater	367
