AIR MAIL

Mr. M. Nemazee  
Commercial Attache  
Iranian Embassy  
3003 Massachusetts Ave., N.W.  
Washington, D. C.

Dear Mr. Nemazee:

Mr. Dunn informs me that you told him you had requested data from us on Iranian lands irrigated from the Hirmand River, and had received no answer. I am sorry if we have been remiss, but I can find no one in this office who remembers such a request nor can we find any record of one.

We have no data other than given in 1.4208 (pages 106 to 108), Part IV, of our Report. Our men visited the place, and estimated the area under cultivation as best they could and saw what conditions were. But, there were no good maps and, even if there had been, a carefully detailed survey would have been beyond our time limitation. You will note that we recommended a careful survey as one of the necessary first steps for improving conditions in this vicinity.

Yours very truly,

INTERNATIONAL ENGINEERING  
COMPANY, INC.
