Norito of Festival on January 1st.

On this beginning day of the beginning month of the beginning year I the Guji stand before the great kami of this Jinja, who are regarded as the kami of the Kamado, (kami who protect the fire place), therefore on this day we observe the festival of Itsu. We offer sacred food, and sake which we request the kami to taste with an easy and happy mind.

Now we request the kami to give his blessing to the sacred fire which was drilled out new and fresh so that it will burn with great vigor strength and power throughout the year so that all may be protected under the divine blessing.
