Dear Craig,

Please find enclosed copies of some of the papers you requested. However there are some problems with providing all the papers. There does not seem to be a set of papers available from the "Security issues in the Mediterranean" seminar, also the workshop entitled "Large-scale irrigation projects in Sudano-Sahelian Africa", is quite a large publication so I have sent you a copy of the contents list so that you can see if there are any papers that you specifically desire. I hope this helps.

yours sincerely
