

ASIATIC SOCIETY OF JAPAN

FROM THE
CORRESPONDING SECRETARY.

KEIO UNIVERSITY, TOKYO.

.....20th.....Oct.....19.20.....

Mrs Murray Warner, The Fairmont, S.F.

Dear Mrs Warner,

Since getting back to Tokyo I have tried to find out in what way I could best serve you. Mr Struthers has told me what he sent you in the years 1916, '7 and we dont quite understand in what way we can supplement that information.

Specifically you ask for two things

1. A perpetual moon calendar.
2. A book which would explain it.

During the summer I happened to get hold of a couple of calendars which I now enclose. So far as I understand they are intended to help rather in fixing days of good luck than days of festival. You know of course all about the two papers in our Volume XXXVII by Prof. Clement and Mr Bramsen.

Let me know of anything further I can do.

Yours very truly,

F. P. Purvis

FROM THE
CORRESPONDING SECRETARY.

1930 Oct. 30

Mrs Murray Warner, The Belmont, S.F.

Dear Mrs Warner,

Since getting back to Tokyo I have tried to find out in what way I could best serve you. Mr Stephens has told me what he sent you in the years 1918, '19 and we don't quite understand in what way we can supplement that information.

Specifically you ask for two things

- 1. A perpetual moon calendar.
- 2. A book which would explain it.

During the summer I happened to get hold of a couple of enclosures which I now enclose. So far as I understand they are intended to help rather in fixing days of good luck than days of festival. You know of course all about the two papers in our Volume XXXVII by Prof. Clement and Mr. Hansen. Let me know of anything further I can do.

Yours very truly,

F. P. Hansen
