My dear Perkins -

Your letter of June 14<sup>th</sup> is received. I am sorry that I put you to so much trouble.

Speaking of his trip to Europe in 1920, when he went with the Olympic revolver squad: -

Among my papers I should have a letter from George, with the request for a certain sum of money, and a list of the things that he wanted to do with it. This list included

Murray was right. I did not receive any acknowledgement of the receipt of that money. Some time later I heard indirectly that he was in Europe.

Speaking of the Cashier's check that you sent him at El Paso Texas, on May 3<sup>rd</sup> 1935. I have no means of knowing as to whether George knows anything about it or not. We will give him the benefit of the doubt, but I have no intention of duplicating the check.

While George was here, I had Sam take him to a mind

another course on the eye or ear. The rest of it probably included his expenses in New York while he was taking this course, as well as certain instruments which he named. I remember it seemed rather a large sum of money, but as he explained it was to get the where with to establish himself as a specialist, in Chicago. I recall that Murray was quite strongly opposed to my sending him that money "knowing jolly". However I couldn't see any reason why he should not be able to stand \$1200. dollars.

specialist here, and I am going to do what he said to do. So please do not send George any more money until after you have heard from me again on the subject.

George is in New York. His plan is to study drawing. I think the becoming a doctor was a mistake - a square peg in a round hole - so to speak. He was probably pushed in that direction by his father.
