Robert A. Koellermeier

(Application missing)

July 14, 1986

Mr. Robert Koellermeier
2995 S.W. Advance Road
Wilsonville, Oregon 97070

Dear Mr. Koellermeier:

We are sorry to learn of the possibility that a landfill site is being considered directly adjacent to your farm in Wilsonville. A check of our records indicates that your farm was awarded Century Farm Status and a certificate in 1980.

While a Century Farm certificate does not confer tax or other legal benefits to the property, it does clearly indicate that your farm is of historic and cultural importance in the state. The Koellermeier farm has been worked continuously within your family for over 100 years, in the face of every imaginable obstacle, both natural and manmade. Your house, which we understand is located just across the road from the proposed landfill site, has similarly withstood over a century of use and exposure.

I have enclosed a brief description of the Century Farm program which you are free to use as you wish. Please let me know if I can provide further assistance or information.

Sincerely,

Charles F. Wellman
Coordinator, Century Farm Program
