FINLEY TALKS TO ROTARY ON CONSERVATION

Conservation of land and water resources, being depleted for rapid accumulation of wealth by private individuals without regard to the future, was advocated by W. L. Finley, Oregon naturalist, in a talk before the Rotary club Wednesday noon. An example was cited in connection with the Klamath and Tule lake district of southern Oregon and northern California, drained for reclamation purposes and left a biological desert alkaline in character. Similar work in other portions of the nation has destroyed natural breeding grounds for wild life and greatly reduced the water table.

Rivers, which form the only spawning ground for salmon, are being utilized for power, without proper protection through fishways, and irrigation without screened ditches, Finley said. The salmon, which spawns but once and then dies, is being denied access to these native haunts. Renewal resources, such as forests and wild life, should be conserved for the welfare of the greatest number of people. Power, the speaker said, can be developed in other than salmon streams, and unless this is done, the great industry will be destroyed in the future.

Public waters are being turned into sewers throughout America today, with the oxygen eliminated and fish life destroyed, Finley declared. Commercial fishing in the Columbia river has been on a steady decline for the last two decades, he pointed out. Those advocating an intensified industrial development are heading for a tremendous loss in future assets. Inland water ways as "cheap" were also scored by the speaker who said that all are heavily subsidized by the government and are costly to the general public.

Finley was accompanied by a large delegation from the Oregon City-West Linn Rotary club, which featured the Oregon City high school boys' quartet in several numbers.

Finley to Speak—William L. Finley, naturalist and lecturer, will speak at the Kiwanis inter-club luncheon meeting Tuesday noon at the Columbia-Edgewater Country club. Kiwanians of Beaverton, Clatskanie, Gresham, Montavilla, Peninsula and Vancouver will be guests of the Portland club. The meeting is sponsored by the inter-club and golf committees. Transportation will be provided from the Multnomah hotel.

AT LAKEHURST—on the field to see the ill-fated Hindenburg dock—Mr. and Mrs. Arthur Newton Pack. . . . Phoebe, in a letter home to her parents, Mr. and Mrs. William Finley, describes her experience. . . . Motored to the field by their friend, Bill Savage, the Packs waited around in the rain for the big ship. "It was pitch black directly above us and raining steadily. Away out in the distance in the sunlight floated the dirigible. We watched it cruise along the shore and wait for the storm to let up over the field.

Several big Douglas planes were waiting to carry the in-coming passengers to Newark," she writes and explained that then, because of the delay they thought they could return to the house for dinner, and it was while they were at dinner they heard the explosion which spelled the doom of the ship. . . . Soon afterward, a telephone call and they were told that the dirigible was a mass of flames.

Calendar of Meetings

Held by the

OREGON AUDUBON SOCIETY

from
SEPTEMBER 25, 1936
to
MAY 7, 1937, INCLUSIVE

Meetings held at

W. M. RUSH, U. S. Biological Survey

FEBRUARY

- 5 Birds from Here and There
ANDRESEN HUBBARD, Pacific University
- 12 Seeing Oregon First
W. S. RAKER
- 19 Fishes, Their Journeys and Migrations
ED F. AVERILL
- 26 Feathers and Flight of Birds
H. M. DUBOIS

MARCH

- 5 Wild Life Along the Mountain Trail
LEO F. SIMON
- 12 Warblers, Vireos and Kinglets
W. A. ELIOT
- 19 Insect Antics
BUD CROWELL
- 26 Game Conservation in Oregon
FRANK B. WIRE, State Game Supervisor

APRIL

- 2 Wading Birds
RUFUS COMSTOCK
- 9 Some of Our Mountain Flowers
EARL A. MARSHALL
- 16 Bird Migrations in the Carlton Area
GRACE McCORMAC FRENCH
- 23 Plant Life in a Sphagnum Bog
RUTH RUSSELL DUBOIS
- 30 The Training of a Professional Wild Life Conservationist
DR. R. E. DIMICK, Oregon State College

MAY

- 7 A Bird Medley
W. A. ELIOT

The Oregon Audubon Society is a corporation, organized under the laws of the State of Oregon. The object, business and pursuit of this corporation is as follows:

1. To use any and all lawful means for the protection of the wild birds and animals of the State of Oregon and elsewhere; and by literature, lectures and by all other available methods to disseminate knowledge and appreciation of the economic and esthetic value of wild birds and animals.

2. To acquire, own, hold, use, sell and otherwise dispose of, and convey, real and personal property; to accept and receive gifts, devises and legacies; and to borrow money and execute therefor its promissory notes, mortgages and other assurances.

3. To do any and all other acts and things which may be necessary, advisable or convenient for the purpose of more effectually accomplishing the purposes aforesaid, or any of them.

Membership in the Society is of three classes, as follows:

Active membership dues.....\$1.00 per annum
Sustaining membership dues..... 5.00 per annum
Life members.....25.00

FORM OF GENERAL BEQUEST

I give and bequeath to "Oregon Audubon Society," a corporation organized under the laws of the State of Oregon, the sum ofdollars."

BIRD WALKS

Bird walks will be conducted at least once a week, beginning in March, usually starting at 7 a. m. Announcements will be made at the evening meetings, as well as in the press. These walks are for the benefit of members and friends who wish to become acquainted with the songs, habits and foods of birds.

Pittock Bird Sanctuary, Reed College Lake, Washington, Mt. Tabor and Columbia Parks are visited, as well as Tualatin Valley and the lowlands of the rivers. Leave your dogs at home.
