

936 LAKE SHORE DRIVE  
CHICAGO

May 31. 31.

My dear Gertrude: -

I have been reading over your last letter which gives an account of your activities and so on.

I am still struggling with my great loss but will hope soon be able to shoulder my few responsibilities.

Robert's children and Miss Hunter with them are coming here this week on their way to Peterborough and will probably spend just one night here and I hope to be able to go East about the middle of the month.

Edith is I think planning to be in the Desert Camp at Lucerne this Summer if all goes well. She is

not quite as well owing to the shock of  
his death. Robert has not made any  
definite plans for the future yet.

You may be interested  
to know that Jack is contemplating a summer  
course in one of the public schools prepara-  
tory to taking up the subject of bacteriology  
at the U. of C. next Fall.

Sahul came out to stay  
a few days with me realizing how  
alone I was. I think Mrs. Edmonds  
sent for her.

Pukins B was in and  
spent an hour with me a few days  
ago.

Jack is expecting to be back  
with his wife and Baby in a day or two.  
from their Florida stay all Winter.

With love  
Mother.
