April 2, 1937.

Dear Mama,

Today I received a letter from Mabel saying that she was enjoying her work for you at the Museum & that you were planning to come east early in May. I am delighted to hear that, & shall be very glad to see you again.

Last Saturday I took Murray, two southern students of mine who had never seen snow & a Danish student

Late Wednesday afternoon
Melin & I drove up to get
Murray. We were pleased
to find that he had had a
good time & behaved himself
very well. We took back
with us a boy fifteen who
had been skiing with Murray.
I felt very proud of the
way Murray behaved on the
trip home, but as soon
as he got back he had a
relapse which has prevented
me from becoming too
complacent.

to Mc Kenzie's Hotel, Franconia,
New Hampshire. We all
skied Saturday afternoon &
Sunday morning. I was
surprised how quickly the
southerners learned to ski,
especially Prof. Ireland who
is about my age. Sunday
afternoon we all came home
except Murray. I left
Murray up there by himself
to have a quiet outdoor occa-
sion.

Monday we had our last faculty meeting on the report of the Curriculum Committee on which we had been working all year. I expect that now our tremendously strenuous half-day faculty meetings are over. Everything considered I think that our changes are pretty good.

This noon I had a golf lesson. It is the first time I have had a golf club in my hands since early last fall. I did as badly as was to be expected, but

want to practice up a little during the next week & a half, because our vacation comes the middle of April. Helen & I are going to motor to Charlottesville, Virginia, with Charles & Helen Rolfe to have five days of golf at the Farmington Country Club. We went there last year & enjoyed it very much.

Now that April has come I think it is safe to assume that the chance of a snow storm is over. Theo

is the first winter on record
without any appreciable amount
of snow in Boston. It was
also the warmest, I think.

Banley has already started
working in his garden & I am
waiting for a few warm days
& bring out the buds. The
frost is already out of the
ground.

With lots of love
from Sam.

P.S. Take it easy in Eugene
& don't get all tired out before
you come east.
