My dear Mrs. Mallory:

I reached Eugene two weeks ago and have been attending to all sorts of things that have been waiting for me and that have come up since my return. The Museum building has its walls up and roof on. The outside wall of brick has not been put on.

Mrs. Perkins is in Berkeley visiting with her daughter and grandchildren. She will be back here soon.

I suppose one of these days when we want to go to Yokohama we will get into a flying machine of some sort or other and visit ourselves there and there we will be like the wishing carpet of the story book.

I am so glad that we had such a lovely visit together in Yokohama and I hope it will not be long before we have another. The headquarters that you left me to see after the steamer started is very lovely and I am very happy to have it. We had three hours in the Cook Museum with the director in Honolulu, studying the exhibits, their arrangement, and the business section of the museum, which is quite elaborate. I had three days in San Francisco with my old friends there. You will remember that I used to live in San Francisco. I then came up here to Eugene to settle some points with regard to the Museum building before it was too late.

When you go into a Museum in any city where you may be please remember that the housing of a museum is a very difficult and strenuous proposition and while in some ways it seems very good fun there is a lot of it that is something but fun because it is so difficult and you realize that when it is finished the whole world, so to speak, is going to criticize your efforts.

I have had a letter from Mrs. Richardson within the last day or two. Of course when I do to Los Angeles I shall have some good visits with her and I shall tell her of our fine times together. Please write me when you can and keep me posted as to how things are going with you because I love to hear and to feel that I know about you.

Very lovingly,
