My dear Friend I have just
sent you a wire telling
you that as your wire &
letter only reached me
here after I had left Milton
I have not been able
to ship the picture

altho' poor Mags in
the midst of getting off
to Squam did her best
to send it — I accept
your offer of \$300.⁰⁰

In my Place work-
+ hope to get it by her
before August — Its length
made her fear the Ex. Co—

might expose us to the
rain - so when their
truck arrived & she saw
how far it came ~~with the~~
protection, she decided not
to give it to them! —
I am disappointed you will
not be here in August but
will look forward to October

as I plan to be here there
and later too if possible
I love it here at all
seasons - and you cannot
imagine how happy I am
to breathe the mountain
air and enjoy the inspiration
of the mountains - I have
cut off some of the tree tops
so my view is finer than before

I will certainly carry out the
plan you suggest when
telephoning baby friends
at a hotel - For I too, have
always found it difficult
& unsatisfactory and never
consequently they are not -
Did you read the Byrd,
when he received the Gold

medal - announced he
would henceforth devote
his time to Peace —
after 2 more years of exploring.
He must send 17 million
^{signatures}
to Geneva next September
The 50 million signatures being
gathered in Europe make
our share seem small &
it is a tribute to Jane
Addams on Saint's Day.

Is Oregon doing her
share to get signatures?
With love & hoping all goes
well with you dear friends
