Dear Harry:

I am enclosing the signed receipt for \$1,000 from my mother's estate. I thank you very much.

We are having a Japanese professor of art here from the Society for International Cultural Relations in Japan. Our Vice-President, Mr Kurt Brown Barker, went to Japan a year ago last summer to make the request for him. This man speaks English very well and has written a number of books in English. He has an office in the Museum and lectures twice a week in the University auditorium. We find him a very pleasant addition to our little circle in the Museum. I was quite pleased to hear that both he and his wife are Christians. This was probably taken into account when they decided to send him.

I am very glad to hear that Betty is such a good cook. Please give her my love.

Very sincerely yours,

Gertrude Bass Warner
