Dear Gertrude:

I am very much of the impression that I sent you a power of attorney of which the enclosed is a duplicate and that you executed and returned it to me but I shall have to confess that I can not find it among my papers. It might possibly have been misplaced as you can imagine the mass of papers I have when I tell you that between Federal and State I have 27 schedules to make out. So will you please sign and return the copy which I enclose herewith.

I don't know of any particular news to send you. Robert writes me that things are going well in Tucson. Abba writes me from Orlando that she intends to linger on as long as the weather reports from Chicago continue as they have for the past five weeks. We have had a real old fashioned winter. There is about three feet of snow in the country and the temperature runs from ten below to ten above.

I hear every few days from Sam as we correspond constantly on business matters.

Sincerely yours,

HCE:F

Dear Sir/Madam:

I am very much of the impression that I send you
a power of attorney of which the enclosed is a duplicate
and that you received and returned it to me but I shall
have to confess that I can not find it among my papers.
It might possibly have been misplaced as you can imagine
the mass of papers I have when I call you that between
Federal and State I have 27 schedules to make out. So
will you please sign and return the copy which I enclose
herewith.

I don't know of any particular news to send you.
Robert writes me that things are going well in Tucson.
Abe writes me from Orland that the insects are larger
on as long as the weather reports from Chicago continue
as they have for the past five weeks. We have had a real
old fashioned winter. There is about three feet of snow
in the country and the temperature runs from ten below
to ten above.

I hear every few days from Sam as we correspond
