

November 10th, 1883.

Mr E.C. Edmonds
205 South Dearborn Street
Chicago, Illinois.

My dear Mr Edmonds:

Your letter of November 3rd with reference to the finishing of Robert Smith's education has been received. I am heartily in favor of finishing this work that my mother was doing and will be glad to share with Robert in providing the \$ 400.00.

I suggest that if it needs to be taken over now that Robert starts it and that I begin to do my share after the first of the year, that is to say, after I receive some income from my mother's estate.

I am very glad that Mrs Edmonds likes the clock. I know from my mother's attitude whenever she spoke of her that she was very fond of Mrs Edmonds. I am sure that my mother would be very happy to know that the clock is in her loving hands.

Very cordially yours,

Gettrude Bass Warner
