

Eugene, Oregon, December 16, 1930.

Mr. Herbert Bailey,

Boston, Mass.

Dear Herbert:- In thinking over your last letter to me, something has occurred to me with reference to your statement that you like to go back to Peterboro often.

If you were working your way, paying your own expenses, do you think you would pay the money, or take the time, to go back to Peterboro week ends? And don't you think you should be more conscientious when I am providing your funds than if you were providing your own?

You say that the people in Peterboro are gossiping because the young lady to whom you are engaged is in the same house with you when you go back there, and that it distresses your mother. In my opinion no young man who is worth his salt does something voluntarily after he has found out that it is hurting a girl's good name.

The schools, high-schools and Universities all provide suitable periods for home going, which are considered to be quite sufficient for people whose main object is to get an education should like you to think this over carefully.

With kindest regards,

Yours sincerely,

Madame, Oregon, December 18, 1930.

Mr. Herbert-Jolley,

Boston, Mass.

Dear Herbert: - In thinking over your last letter to me, something has occurred to me with reference to your statement that you like to go back to Jefferson often.

If you were working your way, paying your own expenses, do you think you would pay the money, or take the time, to go back to Jefferson each week? And don't you think you should be more conscientious when I am providing your funds than if you were providing your own?

You say that the people in Jefferson are longing to know the young lady to whom you are engaged in the same house with you when you go back there, and that is different from your mother. In my opinion no young man who is worth his salt does something voluntarily after he has found out that it is hurting a girl's good name.

The schools, high schools and Universities all provide suitable periods for home going, which are considered to be quite excellent for people whose main object is to get an educationally like you to think this over carefully.

With kindest regards,

Yours sincerely,
