PEKING.

October 10 1928

My dearest Aunt Gertrude,

I am enclosing herewith a copy of invoice for two more cups that I was able to find for you. This is not a long letter for you will have just received my last one but as these two cups turned up around the "Lantern Feast" I decided to get them and add them to your list. These are also \$30.00 each. The postage etc. is \$4.70. This turned to gold equals approximately \$32.35, plus the last amount of \$66.20 makes a total of \$98.55 due me. I hope this parcel reaches you safely and that you will be pleased with all the cups.

I am still planning to leave Japan October 30 and will hope to hear from you soon after my arrival in the United States.

We are having a very dusty October and quite cold. Eric and I are planning to go out to the Temple this coming weekend as a sort of a final celebration before I leave. It is going to be very hard to leave him but as the doctors all feel I should have an ocean trip right away to completely cure the dysentery which I have had, we both feel we must follow their judgment. And then it won't be long before Eric, himself, will be coming home and we can have our six months in the United States together.

Eric joins me in loving greetings to you, dear Aunt Gertrude.

From your loving niece,

*Ruthie*

The invoice I am sending is a copy of the one in the parcel and is for Customs purposes. As before we lowered the price so as to avoid all the unnecessary excessive charges on things now existing out here.
