Jan 8th 1948

Dear Mrs Jarner,

I am so glad to hear from Mrs Warner that you are looking after her affairs at the museum. She tells me she sent on the two water colours to you which appeared in the C. S. Monitor. I am enclosing you now the notes I made about them in the C. S. M. as they may need some explanation?

How are you all this long time? I hope happy & well & your husband also?

I had hoped to be back in U. S. A. long ere

Please find my greeting to any who may remember me at the museum.

This but Hitler & his gang arranged otherwise!
I am so glad to hear from Mrs Warner quite
often these last two or three months - as
before these latter months I hadn't heard
for quite a long time.

I wonder if you have seen of book 'Old Korea'
is it in the library of your University? I should
like to know - it has not been properly handled
in the U. S. A. The Philosophical Library of
New York bought 1000 copies; but so few people
have been able to get a hold of it!

With very kind regards & all good wishes
for 1948
Yours sincerely
Elizabeth Keith
