

CUNARD  
WHITE STAR

ON BOARD  
"SCYTHIA"

June<sup>u.</sup> 26<sup>u.</sup> 1937

Dear dear Gertrude. We were  
so thankful you did not  
come to the Boat to see us off.  
It was pandemonium! We  
felt discouraged when we  
saw such masses of howling,  
shrieking people & had great  
difficulty in getting on board!  
But when the smoke of  
battle cleared away, we  
found a charming set of

people - The masses of people  
were the lower decks, with all  
their friends to see them  
off. It was really terrible.  
But we have had a most  
delightful trip. Quite  
exceptionally calm, with  
a translucent sea all along  
the way. A fog for 24 hours  
was unpleasant, but apart  
from that - it has been  
so lovely. We have a nice  
English Colonel & his wife

on board - both C.S.'s & we hear  
of others, but have not met  
them yet.

I love the Ross Lecture, & send

you my grateful thanks for  
it. I know, if I do my  
work as he shows me,  
the way will open up for  
me. I cannot see my  
way at all - a long time  
away from my house  
means much to oversee -

Indeed I feel I should  
sell it, & be free - but  
no human planning!
