Dear Gertrude,

I have been
meaning to write to you
for ages. It does seem
a long time since we
left Eugene - we did
enjoy our stay with
you, in that dear old
fashioned hotel.

We are looking forward
so much to meeting
you again.

we are seeing a lot of
Mrs Jaques, what a
fine woman she is!

(She has had published
written by her years ago)

a very unusually
well written book

"A country quest" which
I want to buy & send

to you; but she says she
doesn't sell - I think

she will allow me to
do something about it -

as she said "we shall
send it from us both."

So you will understand
if it arrives!

I have an exhibit
on at the O'Brien gallery

I asked Florence Aycoough
(McNair) to open it with
a little talk - we had
quite a gathering &
every body seemed to like
it. The pessimism
of the gallery people
about sales is so
great that one must
be very persistent in
holding to the truth.

I don't think the
depression has quite

lifted. mortal mind
says people are afraid
to buy. It is all fear
the anchor enemy.

We are going on to
Washington tomorrow
to the Fairfax Hotel

there is an exhibition
of my prints at the
Corcoran gallery
which is a very great
honor. I wonder if
they will look as well
as they did in your
gallery - I doubt it.
Hoping to see you soon
again & with much
love from us both
Yours affectionately
Elizabeth
