My dear Dr. Noble:

If you go to Korea will you be so kind as to find out in Seoul what was the Imperial color before Japan took Korea over. There is an American firm there - two brothers. I am not at all sure of the name, but I think it is Taylor. They sell automobiles and also art things. If you find them they will remember me. I should like to have them send me two yards of ancient brocade of the Imperial color, with which to cover the seat of the Imperial Chair they sold me. They will send me a bill ---

I have been wanting to have a piece of old brocade for a long time. If they have not two yards, one yard could do.

Hoping you are having a very nice time, and looking forward to seeing you in the Fall.

Very sincerely yours
