

May 25th, 1934.

My dear Dr Noble:

Your letter of May 22nd reached me yester-

day and I thank you for sending it. I am glad under these very unusual conditions to give Jay R Wilson the fifty dollars which is required for his expenses.

I am also glad that you agree with Mrs Lucy Perkins that "Jay is a very fine chap and will make a creditable showing as a University delegate and as Warner prize delegate".

I am sending the check and a copy of this letter to you in regular mail. I feel that these boys of ours need some older person along who understand the conditions of Orient to superintend their food and water. Please coach them on what they should drink and what they should and should not eat, so that they will not run any risk of being laid up during any part of the trip.

Yesterday was our first day here, I had written the man at Brentano's book store who has charge of the Oriental Art section that I was coming and he had some very choice books which he had collected for me to see. I selected a few of them to add to our Museum library. If there are any special books which your courses on the Orient would need, please let me know.

Please let me know and

I greatly enjoy visiting the book stores

here and picking up a book here and there that is out of

print.

Very sincerely yours,
Gertrude Bass Warner.

I am also glad that you agree with Mrs Gertrude Bass Warner.

a creditable showing as a University delegate and as Warner prize delegate."
