Re: Murray Warner Essay Contest.

My dear Dr Noble:

I think this last year that the prizes worked out very nicely as it was planned and I suggest that you make the prizes of the same value for this next year.

I think it will be desirable to have the posters up before the opening of the University, so that they can be distributed in places where the students will see them before they decide upon their courses. My idea in regard to this is: that we should get as many students as possible interested in Oriental affairs and they will be much more likely to work for the Essay contest if they have had some classroom background already prepared for this work.

As I remember it the posters cost five dollars and I am herewith enclosing a check for that amount. If they should be more then I will settle it with you later. I wonder if it would be desirable to place a notice on the bulletin board at the entrance to the University library telling where the notices are to be found or else place a notice on the board. I think it will be of interest to you to know that I am slowly but steadily building up the Museum library with books in English, in French, in German, in Chinese, in Japanese, and in Russian and I am hoping that before long students who are doing research work in the lines provided for by our Museum library will come to us for this purpose.

With kindest regards, I am

Very sincerely yours,
