

Miss Mabel Klockars

Herewith two copies of all the catalogue material done so far. I am keeping the third copy in the notebook you have provided, and am taking them to Berkeley.

Would you please have the pictures I am to take with me placed on my typewriter. Mrs. Warner has consented to my having a photograph of the Death of the Buddha which she says is already prepared in detail, and that even if there is only one copy to be had, I could take that with me and return it in the fall. Would you leave that also on my machine, or leave directions with Mrs. Perkins so she can find it for me, please.

I shall be writing you from time to time, and Mrs. Warner. Though I've not seen much of you, it will feel as if my last friend had left when you are gone. I hope the blizzard holds you up in the middle west so that you'll be driven (out of boredom if not natural inclination) to drop a line before very long. I had thought of course I would see you again this morning and gather up a few stray ends. Good luck to you.

Frances Noble.

I found this with the copies mentioned  
when I came to the Museum this afternoon -

She has not been here working today - must  
have left this with Mr. Curtis for she is not  
expected in today -

Love and good wish

Lucey Perkins

Put copies mentioned in the office -

*I found this with the copy machine  
I can't seem to be the machine the operator  
she has not been here working today - must  
have left this with the letter of the 10th  
I would be happy -*
