Sid:

At my instance, the Audio-Visual Dept. made accurate and full tape-recordings of 3 of Harada's lectures - "Some aspects....", "Ideals of Japanese Ceremonial Tea", and "... Japanese Gardens". I have already played the recordings through to my classes and found them so good that I have asked them to be put in our library as permanent reference material. Here is the bill for the recordings. I didn't know that there was to be a charge. Can AAA pay it?
