Dear Sir:

As a member of our National Council, will you kindly mark the subjects on the enclosed referendum which you think it is necessary to consider in connection with the present crisis?

These subjects, with a few corrections and eliminations suggested by the Special Committee, are the same as those which the Committee voted on, the result of which is enclosed in chart form.

We are also sending you a ballot for the election of eleven members for our Executive Council, to serve until January 1st, 1934. Will you please return this to us with your vote?

Sincerely yours,

J. W. BEATSON

Secretary.

To the Members of the National Council
of The National Economic League.
