

August 21, 1933.

Dr Harold J. Noble  
University of Oregon  
Eugene, Oregon.

My dear Dr Noble:

Before long you will be returning to Eugene and I am reminded of our conversation about the Essay contest and that it might be well for me to write you a letter about it.

This year I am willing to put \$400.00 into the Contest on "How to improve our relations with the Orient" and I wish the members of the committee would talk it over and decide just how much money is to be put into each prize. I feel that the American group should get the greater part because they turn in so much better work than the Foreigners do. Please have the posters made as soon as you conveniently can and have them send me the bill.

I think it would be helpful to have a notice of the Essay contest on the bulletin board of the University library and any other place that you think would attract the attention of the students before they decide what courses they will take.

I hope that you and Mrs Noble have had a pleasant summer and I will see you when I return to Eugene.

Very cordially yours,

Gertrude Bass Warner.
