My dear Dr. Mez:

Approximately a week ago you called me up on the phone with regard to the Murray Warner contest. According to your statement there was an "error in printing" of the catalog. Dean Gilbert has authoritatively stated that my name as a member of that committee was authorized by Mr. Pallett, Dean Gilbert, and further verified by the President.

It was a great surprise to notice the other day in the Emerald that without the consultation of the third member the Murray Warner prize was awarded to Mr. Southwell. Personally I do not know how to explain the whole situation.

May I hear from you as to the reasons for the kind of action undertaken in this matter?

Yours cordially,

Samuel H. Jameson
