

The sum of \$75.00 was received from Mr. Lyman, the University Cashier, on July 1, 1934. The additional amount of \$25.00 was received from Mr. Lyman on July 1, 1934. The total amount received is \$100.00.

University of Oregon,
Eugene, Oregon,
June 4, 1934.

Mrs. Gertrude Bass Warner,
Hotel Roosevelt,
New York City, New York.

Dear Mrs. Warner:

I received from Mr. Lyman, the University Cashier, a check for seventy-five dollars today, the additional amount which you sent me. The checks for the liberal prizes you offered in your essay contest are now in the mails. I understand it is needless for me to try to express even a small portion of my gratitude to you, Mrs. Warner, for I fear that any expression of my sentiment would be grossly lacking and inadequate. Your generosity is unsurpassed; your thoughtfulness of our comfort and health while in the Orient is most kind. For myself, and for the rest of the boys, let me say that we are deeply grateful to you.

Dr. Noble and Dean Hoyt have been very kind in explaining to us a great many of the details with which we should be acquainted. Dr. Noble has laid special emphasis on fresh vegetables and drinking water, so you can rest assured that we will carefully follow your instructions which he carefully supplemented.

We plan to leave Seattle on the MS Hiyé Maru on the 29th of this month, and will probably arrive back about the 1st of September. You will be interested to know that Mrs. MacDuff and Betty Anne, as well as Mrs. Blair of the Alpha Chi Omega house, will also be in Japan during the conference session. Betty Anne is going with our delegation while Mrs. MacDuff is leaving earlier in order to attend a Dean's conference. With five students representing Reed College, four from Oregon State, and seven from the University of Oregon will be well represented in Japan this summer.

I think it a wonderful tribute to your work on our campus that there were thirty-two applications for appointment to the Tokyo conference. Mr. Tabata and Mr. Kudo both told me that no other place that they had visited showed such intense interest in their project. There can be no question

that the keen interest evidenced on our campus in Oriental affairs is a direct result of your fine work among the students.

I am looking forward to my visit to Japan with high anticipation, for I do not doubt but that we will have a wonderful time. But I do not expect entertainment to be of nearly as much interest as living with the Japanese, talking with them, and trying to understand their outlook on life. Personally I anticipate a complete change in my own outlook on life, for I do not believe that one can live among people of another nationality for any length of time without acquiring a broader personal outlook.

Dear Mrs. Warner:

You have made this trip possible for me, Mrs. Warner, and let me say that from the bottom of my heart I am eternally grateful to you.

Very sincerely yours,

Jay P. Wilson

Dr. Noble and Dean Hoyt have been very kind in explaining to us a great many of the details with which we should be acquainted. Dr. Noble has laid special emphasis on fresh vegetables and drinking water, so you can rest assured that we will carefully follow your instructions which he carefully supplemented.

We plan to leave Seattle on the MS Niye Maru on the 29th of this month, and will probably arrive back about the 1st of September. You will be interested to know that Mrs. MacDuff and Betty Anne, as well as Mrs. Blair of the Alpha Chi Omega house, will also be in Japan during the conference session. Betty Anne is going with our delegation, while Mrs. MacDuff is leaving earlier in order to attend a Dean's conference. With five students representing Reed College, four from Oregon State, and seven from the University, Oregon will be well represented in Japan this summer.

I think it a wonderful tribute to your work on our campus that there were thirty-two applications for appointment to the Tokyo conference. Mr. Tabata and Mr. Sado both told me that no other place that they had visited showed such intense interest in their project. There can be no question

that the keen interest evidenced on our campus in Oriental
affairs is a direct result of your fine work among the
students.

I am looking forward to my visit to Japan with high
anticipation, for I do not doubt but that we will have a
wonderful time. But I do not expect entertainment to be
of nearly as much interest as living with the Japanese,
talking with them, and trying to understand their outlook
on life. Personally I anticipate a complete change in my
own outlook on life, for I do not believe that one can
live among people of another nationality for any length
of time without acquiring a broader personal outlook.

You have made this trip possible for me, Mrs. Warner,
and let me say that from the bottom of my heart I am
eternally grateful to you.

Very sincerely yours,
