Dear Mrs. Warner:

I appreciate very fully your letter of April 11th outlining the care with which you have chosen your assistants in the museum in Eugene. It occurs to me that if the same amount of personal attention and care could be given to all appointments, that a very much higher degree of efficiency would be obtained than is generally found in such cases.

I think your results fully justify your care and I assure you that I am extremely appreciative of your thoughtfulness in keeping me informed.

With kindest regards, I remain

Most cordially yours,

Burt Brown Barker
