

May 19th, 1936

My dear Mr Harada:

I have thought of you so many times during the period of the Museum conference and I have thought what a pity it was that you were not here to address the Conference on some phase of Japanese art. Everyone would have been keen to have heard about it.

I am sending you the program, which I thought you would enjoy having.

It will soon be time for Commencement at the University of Oregon and though I shall be a long way off, I shall be thinking of you and of the exercises that will be going on at that time.

Mrs Garner and I are having a very pleasant time here in N.Y. and we are finding many interesting things to do. I think that you would have enjoyed seeing the Pierpont Morgan Library and Library Building. The Library certainly has a very beautiful setting.

We are looking forward to our happy time in August and September, when you will be again in the Museum, and helping us so kindly in the cataloguing of the Japanese exhibit.

I am feeling considerably better and though I am not
a mountain of strength I can notquite a little more than I could do
last winter.

With kindest regards,

Very sincerely yours,

Mrs Gertrude Bass Warner
