Mr Henry H. Hart,

San Francisco, California.

Dear Mr Hart:

You will recall that while visiting your store on Tuesday November 29th with Miss Bourn and Mrs Kent, that you showed me a Chinese fresco, of which you had one section, another section having been sold to the Louvre Museum in Paris, and still another section to one of our museums in the United States.

I should like some further information about that fresco: How many sections were there in the original group? What did the other sections represent? That is were they pictures of angels in clouds or Buddhist gods and if the latter which gods were they? To what period did this fresco belong? Who is the authority for this information? From what section of the country and what town did the fresco come? Did you take it off the wall yourself? Did you see it on the wall before it was taken down? If you did not take it down yourself, did you buy it in China or U.S.? Has some expert other than yourself passed on it and did he give you a written opinion?

I am interested in this section of this fresco, representing Buddhist angels in their flowing garments, and I should like to know all that you know about it.

We had a very pleasant afternoon in your store and I was very much interested in your museum things.

With kindest regards to you and Mrs Hart,

Sincerely yours,

Gertrude Bass Warner
