OREGON STATLER

REMEMBER Pearl Harbor!

and

Remember Those Oregon Staters in Service!

Most of those former Beavers who are serving their country in the Armed forces have no contact with the campus and with their school-day friends and acquaintances. In most cases the only news they receive is from friends at home.

YOU CAN HELP THESE OREGON STATERS BY SENDING THEM A SUBSCRIPTION TO

The Oregon Stater

A special subscription rate is available for men in the ARMED FORCES OF THE UNITED STATES.

SEND \$1.00 for every subscription you want filled along with the name of the Beaver to whom you want the magazine sent. Or, if you have no choice but want to help in this effort simply return \$1. for each subscription you want, and the alumni office will do the rest.

DON'T PASS UP THIS OPPORTUNITY TO HELP THE OREGON STATE BOYS IN SERVICE. YOUR TROUBLE AND THOUGHTFULNESS WILL BE APPRECIATED.

OSC Alumni Association
Corvallis, Oregon

Of course I want to do my part toward helping OSC men in the nation's service. I en-

close for
subscription to THE OREGON
STATERS.

() You may choose the Beaver
alumnus to whom the maga-
zine will be sent.

In the Sunny South

"This is mainly to tell you of my new address and also to give you a line on a few Oregon Staters who are here at the same station. My wife (Mildred Almgren, '41) and I have been here since the middle of February basking in the southern sun.

"Also here at Columbia are Captain William (Red) MacDonald, '34, of the 1933 coast basketball championship team; Captain Ralph Hayes, '31; Captain Oliver Miller, '34; First Lieutenant Dave Bronson, '36; First Lieutenant Maynard Bell, and First Lieutenant Zed Barnes, '32. In addition, at Fort Jackson, also in Columbia, S.C., is Second Lieutenant Clarence Thompson, '30.

"I think the 'flash news' section recently added to THE OREGON STATERS is an excellent idea. Gives us distant alumni some up-to-date information on the campus highlights. Hope you can keep it going."

HOWARD B. HOLT, '41
First Lieutenant
Columbia Army Air Base
Columbia, S.C.

In Uniform Again

"I am writing to let you know that I have on the uniform again after 25 years. I was a lieutenant in World War I and met old 'Chief' Keck, '11, General U. G. McAlexander, 'Red' Carlson, '11, in France. I hope to see some of the old boys this time.

"I am sorry to learn of the passing of a very good friend of mine, 'Prof. Charley.' Most of my old instructors have passed on.

"I noticed Charley French, 11, and Harry Belknap, 12, both very good friends, are on duty back east.

There's Everything In a Good Name

That is why we've adhered to our policy of serving our clientel with known labeled merchandise. Their good name is your assurance that it is the best made.

"58 Years of Quality Service"

Corvallis

Oregon

"I get a great deal of pleasure out of the magazine and realize what I have missed for the past 30 years.

"With best wishes to the college and to the Class of 1942."

CAPTAIN WELLS OVIATT, 11
Sixth Coast Artillery
Fort Baker, California

More About the Army

"I am entering upon my third year of active duty since I left college in '39. At the present I am with the 'Hell on Wheels' Second Armored Division at Fort Benning, Ga., and am enjoying my work immensely. This is my second year in this outfit and I feel like a veteran already.

"Jim Tice, '39, is at Fort Belvoir, Va., instructing in maintenance for the Engineer Corps. He was formerly of this outfit too. As they say here, I reckon as how I gotta heap o' work to do. So long and my best regards to O. S. C.

RODERICK G. McCALLEY, '41
First Lieutenant, 17th Engineer
Battalion
Fort Benning, Georgia

With Uncle Sam'l Too

"I have not been home since early in the fall when I joined the navy as a hospital apprentice first class . . . I have had charge of the quiet rooms (serious cases) in the 'back and skull' section of the orthopedic ward here for a month and a half. I am now in charge of the whole ward from 9 o'clock in the evening until 7:30 in the morning. Rather long hours but not a lot of work."

WILLIAM G. HUTCHINSON, '40
Ortho II Ward
US Naval Hospital
San Diego, California

Home Again!

"At last school is over—except for a bit of unfinished business in the way of a thesis—and in a few weeks I shall be back home.

"Because of the call of the armed forces, Pauline Bidwell and I are the only Oregon State survivors. The fellows all took their exams last month. Bib Hirstel is awaiting a call to army service; Warren Maxwell is married to Bea Hotchkiss, '41, and is working for Penney's in Spokane until he begins his ensign's training in a few weeks, and Morrie Robertson is working for a Portland shipyard.

"Yesterday the prizes were awarded to the School of Retailing, and Oregon State was pretty well represented. Of the five new members initiated into Eta Mu Pi, national retailing honor society, Pauline and I were two of them. Pauline was also awarded the Samuel W. Reyburn \$25 prize for the highest rating in the course in fundamentals of executive leadership. Bob was given the prize for the highest ranking in sales promotion. And I received the \$25 prize in personnel management, as well as honorable mention (third place) for the school prize given the student ranking highest in class and store work during the year.

"I'll be looking forward to getting down to Corvallis next fall, as I've really missed being able to come down for the big events this year. I came home Christmas expecting to see the Rose Bowl game in Pasadena—but it seems the Japs had other plans."

JANE STEGALL, '41
53 Washington Square, South
New York City

Alumni Bull Session

with Warren Reid

Speaking before the last meeting of the Class of 1942, Dr. Earl Wells, professor of speech and senior class advisor, reminded his charges that without doubt 1942 would go down in Oregon State history as one of the most memorable in all of the 73 years of the institution's existence. He pointed out that the Beaver's Rose Bowl win, the United States' declaration of war on the axis and Oregon State's Northern Division basketball champions would forever remind Oregon Staters of 1942.

Not only do we agree with Dr. Wells' assertion, but we'll go him one or two better. For instance, who can forget that Oregon State's school of commerce, commercial business, industrial commerce, or what have you, was returned in 1942 after an absence of some ten years? Who will ever overlook the fact that in 1942 Oregon State had an active president instead of an executive committee administering the affairs of the institution? Who will forget that 1942 was the second in the school's history that a permanent president was a minus quantity? And then, of course, a limited number of persons will remember 1942 at Oregon State as the year in which they were eased out or given a leave because of necessary budget reduction. Likewise, another limited number—foresters, to be more exact—will remember 1942 as the year in which smolderings broke into flame.

Of somewhat lesser importance, and yet certainly important enough to deserve recognition is the record that OSC's speech department turned in this year. Oregon State's oratorical squad members took practically a clean sweep in Northwest championships and then went on to win a coast title. Of course the speech department and its various coaches have always made a fine record, but this year it was exceptionally good.

This year's commencement procession had a distinct wartime flavor when some 51 graduates of the advanced ROTC course were granted special permission to wear war uniforms in place of the traditional caps and gowns. Needless to say the sight was impressive . . . Ten Oregon State scholarships of \$100 each for the next

Donald Meyers, '15, LaGrande; Robert D. Barker, '30, Hood River; Ross Cady, '09, Boise, Idaho; Norman Oliphant, '31, Seattle, Wash.; Lindsey Spight, '25, San Francisco; Harold Wahlberg, '14, Santa Ana, Calif.

five years will be granted Oregon high school graduates by the Standard Oil Company of California . . . Degree work in business, organized to meet the particular needs of land-grant college students and which was granted Oregon State at the April meeting of the State Board of Higher Education, will be available starting next fall . . . All but one of Oregon's 36 counties, 21 other states, four foreign countries and Alaska were represented among the 743 students who received degrees at OSC two weeks ago. Of the total, 616 were from Oregon, 122 from other states and one each from Canada, Chile, China, England and Alaska. One-fourth of the graduates had transferred to OSC from 69 other institutions.

Captain Stanley R. Kelley, '38, who is stationed at Ft. Belvoir, Va., reports seeing **Phil Brownell**, **Fred Zitzer** and many other Oregon Staters. He reports as follows: "OSC has a firm hold on the Corps of Engineers

and seems to have far more officers in that branch than any other school." **Pvt. Derwood Smith**, '40, whose home is now Camp Roberts reports that **Lt. Dick Beech**, '41, is a morale officer of the 87th Battalion at Camp Roberts . . . **Owen P. Cramer**, '41, reports that he is connected with the United States Forest Service in a special war map making project . . . **Shirley Cronemiller**, '41, was a recent visitor at the Kappa Alpha Theta house. She is connected with radio Station KIRO in Seattle . . . **Captain J. Kenneth Munford**, '34, who received his captaincy just a few weeks ago, is attached to the 2nd Mapping squadron at Felts Field, Spokane, Washington . . . **Lt. Brooks Caldwell**, '25 must have his hands full at the Station Hospital, Minter, California, for he acts as the medical supply officer, utilities officer and detachment commander for the hospital . . . **Jack Kerr**, '39, former Barometer sports editor, has recently been promoted to Corporal in the personnel unit of an infantry company in Washington, D.C.

THE OREGON STATER is published monthly except July, August and September by the Oregon State College Alumni Association at 110 Memorial Union Building, Corvallis, Oregon. Entered as second-class matter at the Post Office at Corvallis, Oregon, October 1, 1940, under the Act of March 3, 1879. Annual dues of the Association are \$3 of which \$1.50 is for a subscription to THE OREGON STATER.

The Hanleys at Eagle, Alaska, where they stopped to re-fuel before flying on to Fort Yukon (three miles north of the Arctic circle), and to Fairbanks.

In Their Own Plane,

The Hanleys Fly Alaska Skyways

THE HANLEYS "crashed" Fairbanks, Alaska, literally. On a 6000-mile jaunt in their own plane last summer, William V. Hanley, '33, and Jo Barlow Hanley, '32, flying blind in a severe storm made a crash landing in the trees at 11 p. m. near Fairbanks.

On this trip also theirs was the second airplane to land at the new army field at Yakutat, Alaska, a few minutes after an army bomber had come to a halt on the field. The pilot of the bomber they found was Lieutenant H. J. Pardey, '39.

"We found that Oregon State alumni have practically taken over Alaska. This folder describing the Fairbanks broadcasting station KFAR shows Stanton Bennett, '38, chief engineer at KFAR, at work. Stan is doing some very important and interesting research work, including some experimental work for the army. He has a very powerful short wave transmitter over which Mrs. Hanley and I talked directly to the folks at home through another amateur station in the States.

"Another Oregon Stater who made our 10-day stay in Fairbanks very pleasant was Mrs. O. J. Reinseth (Violet Loydgren, '26), wife of the Standard Oil manager for northern Alaska..."

THE STANDARD OILER, monthly publication of the Standard Oil company,

recently featured the Hanley's Alaskan adventure in an issue of the magazine. One of their own organization, he is supervisor of fuel research and engine laboratory at Richmond, Calif., plant where he has been located since graduation from Oregon State.

For the benefit of other flyers and the rocking-chair aviators we quote direct from the story:

It took several months to get ready for this trip to the Far North. A number of letters, telegrams and long-distance calls to the Civil Aeronautics Authority in Washington, D. C., were necessary before the flight was approved. In the meantime first-hand information about landing fields, radio facilities, refueling conditions, etc., was obtained by writing to Pan American Airways, Yukon and Southern Airlines, White Pass and Yukon Airlines, Alaskan Civil Aeronautics Authority inspectors, and postmasters at each intended landing place.

Preparations included the purchase of the complete emergency equipment required by the Canadian and United States authorities — concentrated food sufficient for three weeks for the pilot and passenger, axe, hand compass, waterproof matchbox, mosquito netting, fishing tackle, and so on . . . The plane was equipped with a complete set of blind-flying (Continued on Back Cover)

Fulton's Chem Department "Grew and Grew"

AGAIN in the old chemistry laboratory in the setting many early students remember, Professor John Fulton continues to busy himself at college tasks. Now, just past the retirement age of 70, he is still conserving time and money for the college by teaching classes in glass-blowing and in salvaging and combining usable parts of expensive glass chemical equipment. He learned the art of glass-blowing, he says, from Dr. P. H. Irish, former faculty member.

Professor Fulton, retired head of the college chemistry department, has taken part in the complete metamorphosis of the chemistry department. He was a member of the earliest chemistry classes held in the old Administration building. He began his teaching career as an assistant in the chemistry department when a senior in 1891-92, and graduated in the first class to receive a science degree.

Since 1892 he has served with the department in all its stages of growth—in the old administration building, in the oldest chemistry building (later the Health Service) never completed because the bank containing the funds "went broke," in the old "Chem Shack" and in the new Chemistry hall. In fact he had saved from department funds \$40,000 toward the equipment of the new and ideal building-to-be when the Oregon State System of Higher Education took over in 1932 and absorbed all college balances into the general treasury. He still has the last official receipt showing the 40,000-dollar balance. In 1939 the new building was constructed, much to his satisfaction. He became head of the chemistry department in 1907 under President W. J. Kerr, and was retired in 1940 with the title of professor emeritus.

To witness and take part in the growth of a department housed first in one room equipped with one sink and a couple of desks, and 50 years later in a chemistry building equipped to accommodate several thousand students is something of an experience. In the

period from 1889 to 1939 Professor Fulton saw and helped to bring about this transition.

THE Scotch burr-r-ring of the professor is genuine. As an Edinburgh lad of 16 he joined the merchant marine for the same reason every young fellow has, to see the world. After three years on ship he chose to be released in Hongkong, and a bit later took a job in the East India Tea company's warehouse to look after the packing and storing of tea.

An acquaintance from the ship *Coloma*, bound for Portland, invited him to come along and see the United States. He did, and when traveling south through Oregon happened to alight from the train at Albany, supposing himself to be at a transfer point. He took the stage to Corvallis and decided, after learning of his mistake, to stay anyway.

Fulton didn't know a horse from a cow he told John Wyatt when offered a farm job. Nevertheless Wyatt taught him well enough that he also turned a good furrow by spring. In the meantime a neighbor, F. A. Horning, described range riding so vividly that the little Scotchman bought a horse and saddle which it took him the whole winter to pay for. Next spring the neighbor took him along to his Diamond Bar ranch in (continued on page 6)

From a trunk in the attic, Professor Fulton selected this picture of the first class in organic chemistry, in 1891. Then the laboratory was located in the Administration building at the north end of what is now the registrar's office. From the left, George Paul, '92, Fred Lockley, '93, Joe Alexander, '91, John Starr, '91, Dr. W. D. Bigelow, Milton Wilkins, '95, Lois Stewart, '92, and Professor Fulton.

O. S. C. Alumni Board Reviews

Accomplishments in 1941-42

HOPE that a permanent president for Oregon State college would be chosen before the beginning of next fall term, was expressed by directors of the Oregon State Alumni association whose annual meeting was held on the campus May 30 in connection with the 73rd annual Commencement weekend program.

Attending the board meetings were Charles Parker, '08, Portland; Lowell Stockman, '22, Pendleton; Ted Chambers, '16, Salem; Clyde Williamson, '08, Albany; Ralph Reynolds, '08, Portland; Emil Seibert, '20, Corvallis; and Ross Cady, '08, Boise, Idaho.

Reporting on the activities of the association for the past year Mr. Chambers, told alumni who attended the annual business meeting that the alumni board as a group and board members individually had done "considerable" work during the past year in an effort to have degrees in commerce restored to the college and to have the selection of a president settled. He explained, however, that the State Board of Higher Education had delayed action on the presidency until two more out-of-state candidates for the post had been interviewed.

Mr. Chambers indicated that he had been assured by various members of the state board that the presidency would be settled sometime this summer so that the new president, whoever he may be, will have ample opportunity before the beginning of fall term to become acquainted with the institution and its faculty members.

IN issuing the report on the year's activities of the association, Mr. Chambers pointed out that membership in the association had showed a steady and substantial increase; membership funds paid into the association during 1941-42 had shown an increase of \$887.15 over the previous year; that the income of the association had shown an increase of \$1697.44, and that the net income of the association has increased by \$351.69 over last year. He also reported that the routine activities of the association, including the alumni club program and many other activities had been expanded as far as possible and that generally speaking,

"the association has enjoyed one of its most successful years in a long time."

At the annual business meeting of the association held Saturday noon A. G. "Ade" Sieberts, '17, Portland, was elected to the board replacing Mr. Parker; Bob Barker, '30, Hood River, was elected to replace Mr. Stockman in the Eastern Oregon district; Bob Thompson, '25, was elected to replace Charles Mack, '31, and Ted Chambers was reelected to another term on the board.

New officers elected from the board membership are Mr. Reynolds, Portland, president; Mr. Seibert, Corvallis, vice-president; Matt Mathes, '23, Corvallis, treasurer; and Warren Reid, '34, Corvallis, manager.

As is also the custom the board elected new members on the Memorial Union Board of Directors and the Memorial Union Board of Governors. Jack Porter, '11, Corvallis, was re-elected to the Board of Directors, and R. E. "Earl" Riley, '12, Portland, and Mr. Chambers, Salem, were elected to three-year terms on the Board of Governors.

NEW LIFE MEMBERS

Five members of the OSC Alumni association have just completed payment of their life memberships. Certificates have but recently been mailed to

HAL BRACK, '37, Washington, D.C.
JACK PORTER, '11, Corvallis.
ROY KEENE, '21, Salem.
SAMUEL DAMON, '06, Portland.
E. L. GETZ, Corvallis.

Gail Spain Advanced To Vice-Presidency

Appointment of Gail E. Spain, '20, to the position of vice-president of the Caterpillar Tractor company, Peoria, Ill., was announced in early May. Spain, who has been general sales manager of the company since November, 1940, succeeds the late D. G. Sherwin and will move to "Caterpillar's" San Leandro, California, office to direct activities there and to coordinate operations with those in Peoria.

After graduation Spain joined the Willamette Iron and Steel Works at

Portland, spent nine years there in the sales and engineering departments, two years as sales manager. He joined the engineering staff of the Caterpillar Tractor company in San Leandro in 1929 and was transferred to Peoria the same year. He has held, progressively, the positions of logging representative, assistant manager of the merchandise department, assistant manager of the engine sales division, manager of sales development and general sales manager. He also served one year with the Sullivan Machinery company as general manager of the rock handling division.

Mrs. Spain will be remembered as Eula Miller, '19.

New OSC President Yet To Be Selected

The selection of a permanent president for Oregon State college has been delayed due to the inability of one of the men under consideration to come to Oregon for an interview with board members, Willard L. Marks, president of the State Board of Higher Education, announced following the regular June meeting of the board held in Portland June 9.

Mr. Marks added, however, that board members had been given assurance that the man under consideration could come soon and that the selection will probably be made in ample time for the new administrator to take over his duties at the beginning of fall term. Oregon men who are being considered for the post have already been interviewed, according to Mr. Marks.

Other matters decided upon by the board at the June meeting which affect the college are:

1. Granted the college the right to offer war emergency courses of Russian, economics of war reconstruction and safety education.

2. Renamed E. C. Sammons as board representative on OSC Memorial Union Board of Governors.

3. Provided for completion of women's dormitory annex project.

4. Increased the salary of A. T. "Slats" Gill, basketball coach to \$5000.

5. Provided for temporary staff increases to take the places of Harold Moe, James Dixon and William McKalip, assistant football coaches and Dr. R. G. Nebelung, hygiene professor, all of whom have gone into the service.

6. Made other personnel adjustments including the appointment of Colonel W. R. Scott to succeed Colonel S. J. Heidner as commandant.

Forensic Division Makes Best Record In Years

A REVIEW of accomplishments in the forensic division at Oregon State college shows a record which rivals that made by Coach Lon Stiner's grid-iron stars.

Of the nine trophies presented by the Pacific Forensic league contest held at the College of Puget Sound, Tacoma, Wash., four of these were won by Oregon State college. Eugene White, Corvallis senior in science, won two first-place trophies, one for the school and a personal award, and Ken Robinson, Malott, Wash., senior in agriculture, won a second-place trophy award. White also won another trophy award in a similar contest rating.

In the women's division Rodena Krebs, Pendleton, and Dorothy Watson, Marshfield, topped all previous records last fall in winning eight straight tilts at the Western States tournament held at Ogden, Utah. This contest was represented by 37 colleges and 13 states.

Hugh Bidlake Fleming, Milwaukie, and Robinson, Oregon State's No. 1 forensic team, won 12 contest tilts during the school year and lost only four decisions throughout this period. Fleming won an excellent rating at

the Pacific Forensic league meet, a second-place rating at the Linfield college tournament and a third-place award at the College of Puget Sound league meet.

Robinson placed second at the Linfield college tournament, second at the Pacific Forensic league meet and third in a state extemporaneous contest. He also placed with Fleming in the second-place debate award at the Linfield contest.

MOST outstanding record was made by White, who won first place in the oratory division at the Pacific Forensic tournament; first - place award in oratory at Linfield college and yet another first-place award in the state old line speech contest. In the after-dinner division he won a first at Linfield, and a second at both the Pacific Forensic league and the College of Puget Sound tournament.

A Medford youth, Harry Thurman, won first place in the state oratorical peace contest, first place in oratory at the College of Puget Sound tournament and a second-place award at the Linfield college meet.

IN ALL a total of 20 students out for debate participated in 107 debates having decisions and 34 non-decision tilts, according to Paul X. Knoll, debate coach. Despite the handicaps caused by the emergency period the

record made was one of the finest experienced in the history of the OSC speech department, Knoll said.

Oratory and after-dinner coaches were Earl W. Wells and Carlyn Winger. C. B. Mitchell, professor of speech and head of the department, directed the forensic activities.

Two Fraternities Merge On National Scale

Theta Chi and Beta Kappa fraternities merged May 24 when 12 active and approximately 35 alumni members of Beta Kappa, 25 of them from Portland, took part in mass initiation ceremonies at the Theta Chi house. The merger is taking place on a national scale, and by June Beta Kappa fraternity will be history. The combined organization is now known as Theta Chi fraternity.

Originally Beta Kappa was known as (old) Poling hall, later being organized into the Del Rey club and finally in 1926 was installed as Lambda chapter of Beta Kappa. One hundred seventy-three men have been initiated through the chapter since that time.

Since its installation on the Oregon State campus in 1916, Theta Chi's Sigma chapter has initiated three hundred twenty-three men, since its origin as the Amicus club 25 years ago. The present active chapter has a membership of 35.

Alumni and student members of Lambda Chi Alpha fraternity in April took part in the combined conclave and silver anniversary celebration at the chapter house in Corvallis. Three charter members of the chapter, originally the Umatilla club, were present—William L. Teutsch, '20, assistant director of the extension service; Lynn Sabin, '20, manager of the Mutual Life Insurance company at Portland, and Ted Cramer, '18, OSC business manager and acting executive secretary.

Among the alumni members present were, front row, from the left: Morton Fillmore, '41, William Roake, '41, Lawrence Page, '40, James Smart, '41, William Young, '24. Second row, Thomas Waring, '23, Herbert Willison, '33, Myrton Moore, '24, Sigurd Wallin, '39, Lynn Sabin, '20, Ted Cramer, '18, Bill Teutsch, '20, Orlo Bagley, '28, Frank Koehler, '25, James Hutchinson, '41, George Howie, '32. Back row, Adrian Moran, '29, Harold Finegan, '34, Marvel Allen, '24, Cedric Vanderpool, '25, Victor Goodnight, '27, Arthur Cramer, '24, Arthur Robinson, '24, Clement Sanders, '24, Allen Brown, '23, Otto Hermann, '22, Clifford Smith, '29, Joe Howard, '41, and Oliver Anderson, '23.

At a recent meeting of the Long-view (Wash.) alumni club, Dr. and Mrs. G. W. Peavy and Warren Reid, alumni manager, were guests. In the upper picture, conversing are Ruth Hann Ford, '27, Pearl Williams Davolt, '09, Mrs. Peavy, Mrs. Robert Conklin and Claud Davolt, '08. "Dean" Peavy holds forth in the lower picture — Harry Calbom, '18, Elbert Towne, '22, Robert Conklin, '23, Dick Ford, '28, Waldo Grenfell, '18, Leroy Guthrie, '18, and Dr. Peavy.

R.O.T.C.; promotion in rank for Henry Hartman to head of department of horticulture succeeding W. S. Brown, decreased; and accepted resignation of Dr. F. W. Parr, professor of secondary education to become secretary of the State Teachers' Association.

Professor Fulton

(Continued from Page 3)

Lake county to work all summer on the range. As a sort of graduation stunt Fulton says he drove some 25 head of stock back to Corvallis.

In Corvallis Dr. B. M. Arnold, president of the little Corvallis College downtown, suggested that Fulton come to college and helped him to get a \$50 scholarship from Lake county.

BECOMING a full-fledged instructor does not imply that Professor Fulton had more spare time after hours. In those days every faculty member filled in at the various extra-curricular college jobs and civic activities. After graduation he played college football and college baseball, assisted in physical culture, organized the Glee club and the Dramatic club, chaired the schedule committee for awhile, kept the college weather service for six years for which he took readings every day at 8, 12, 2, 4 and 8 o'clock, and led the Presbyterian choir for 14 years.

He managed the college football team in 1895-96 and in 1908, when the "big-time"

Coach Norcross was paid \$500 the first season and \$1000 the next. He was a member of the college discipline committee when it was composed of Captain (later Major General) McAlexander, Clyde Phillips, '96, and himself. They called the erring men and women students to McAlexander's office in the Old Armory (the Horner Museum) and conducted their cases in a military manner.

To use up their surplus energy after a long winter's work, Professor Fulton and three cronies, Edward Emmett, '94, W. Trine of the botany department, and F. L. Kent of the dairy department, bicycled to San Francisco to witness the commissioning of the battleship Oregon. To fight off dogs unaccustomed to bicyclists they took along water pistols filled with diluted ammonia. Very effective, too, Fulton declares.

They traveled fifty miles a day for 14 days to get to San Francisco. The battleship was commissioned, thereafter the boys saw the town, the University of California then practically nothing, and Stanford university which was organized only that year. Corvallis-bound they encountered a 117-degree temperature at Sacramento; Emmett demolished his bicycle at Dunsmuir and came home by train; Kent became ill and came home by train also.

PROFESSOR FULTON married his classmate, the pretty Mattie Avery from Chewaucan near Paisley, possessor of a marvelous yellow Stearns bicycle. Later the Fultons purchased a bicycle built for two.

The study of chemistry has interested both of their children. Helen, '24, now Mrs. Christian Tompkins, before her marriage took a master's degree from the University of Washington and later engaged in chemical research for the Goodyear Rubber company in Sumatra. Their son, Dr. Robert Fulton, '25, a chemist, is employed by the U. S. department of agriculture in the orange and lemon growing area of southern California.

OSC Alumni Nominated

Primary elections in Oregon last month brought the names of many Oregon State alumni to the fore, some for the first time.

Of particular interest to alumni was the contest in Eastern Oregon for representative to Congress. Lowell Stockman, '22, Pendleton wheat farmer who resigned from the state liquor control board recently and who finished his term on the OSC Alumni board of directors in May, was chosen Republican nominee. Charles Mack, '31, Klamath county assessor, contesting with the incumbent Walter M. Pierce for the Democratic nomination, came out second.

For the state senate, Republicans nominated Douglas McKay, '17, Salem auto dealer, and Howard Belton, '15, Canby farmer. Both served in the last legislature.

Oregon State alumni who are party nominees for Oregon's House of Representatives are: Republicans—Robert Duniway, '19, Portland insurance engineer; John "Hub" Hall, '23, Portland lawyer; Kenneth Martin, '31, Grants Pass insurance agent; Riddell Lage, '31, Hood River fruitgrower; Cecil Lieuallen, '23, Pendleton auto camp proprietor. Democrats — Ned Callaway, '12, Brownsville farmer. Martin, Callaway and Lage served at the last session.

When E. B. Lemon, '11, registrar at OSC, second from right, went to Chicago in mid-April to address the convention of the American Association of Collegiate Registrars he took time for a reunion with three Windy City alumni. With William North, '24, at left, he went to the general office of Swift & Company in Chicago's Packingtown to be the luncheon guest of Albert Bates, '29, second from left, and Myrton Westering, '22, at right.

Westering is the new head of Swift & Company's soap sales department; Al Bates is a member of the Public Relations department of the Swift organization, and Bill North is agency director of the New York Life Insurance company in Chicago. All three were active in campus affairs in their undergraduate years and were so eager for news of the college and Oregon in general that they made the registrar late for his speech at the Drake hotel while they plied him with questions.

By Al Wiener, '42

Grid, Hoop Championships Make Best OSC Sport Year

THE CLOSE of May, the "Apple Blossom month," brought to an end the most successful sports year that Oregon State college has ever had. It marked the last of the "pre-war" years and ended in a blaze of glory Oregon State's athletic prowess in normal times, as students, educators and the whole world tightened belts and settled down to the task of winning World War II.

The glory started last fall, when Lon Stiner's football team amazed the football world by winning the Pacific Coast conference championship and defeating Duke university in the Rose Bowl game. The athletic news bureau office in the Memorial Union building has three complete encyclopedia-sized volumes solid with nothing but selected newspaper clippings about that football season.

Slats Gill was not to be outdone in basketball, for his Orangemen after a mediocre start began clicking to win the northern division championship by the thickness of the proverbial camel's hair. The Beavers then did what their supporters say was narrowly missing the national championship in basketball, when they lost to Stanford in the Pacific Coast playoffs. Stanford won the first of those games, 41-28, but Oregon State came back to even the count, 42-33, only to lose the final game by 5 points, 40-35. The game had been tied at 35-all when John Mandic, Oregon State's mainstay at center, went out of the game on four personal fouls.

Stanford went on to win the national championships at Kansas City, and in none of its games was Stanford held to a margin as low as that 5 points by which Oregon State lost. Stanford beat Dartmouth in the finals by a score of 53-38, a margin of 15 points, and with Stanford Star Bob Pollard on the bench at that.

THE GODS, who had favored Oregon State teams all year, seem to have concluded that enough was enough at about the middle of the baseball season, much to the sorrow of Coach Ralph Coleman and his proteges. The Beavers started the season strong, winning the first six games without a single loss.

Veteran Southpaw Glenn Elliott started out in his old form, beating Oregon by the score of 2-1 in the season's opening game at Corvallis. He followed with an 11-0 shutout of Buck Bailey's Washington State college team and the march was on.

Warren Simas, who dabbles in sports the year round, as a quarterback on the football team and heavyweight boxer on the boxing team, took enough time off from his spring football duties to whitewash the Cougars, 4-0, and Coleman had his second pitcher lined up. A 16-3 walloping of Idaho, which managed to make 9 errors in the melee, made it four straight, and two more wins over the University of Washington by scores of 7-3 and 9-6 made it won 6, lost none, for the Beavers.

At about this point, however, the "change of luck" and taking to the road hit the Oregon Staters simultaneously, with disastrous results. Oregon started it by beating Coleman's men, 6-5 in ten innings. Oregon State, with Gene Williams pitching, had held the score to 5-5 in nine innings, aided by Don Durdan's home run with one man on and Elwin MacRae's triple with the bases loaded. Oregon's Bill Carney put the finishing touches to the game, though, by blasting a home run in the tenth to end the game.

Leaving for the Inland Empire still atop the league, Oregon State ran

| "BEAVERS" | | |
|-----------|-------------------|--------------|
| 1942 | Football Schedule | 1942 |
| Date | Opponent | Place |
| Sept. 26 | Idaho | Moscow |
| Oct 3 | California | Corvallis |
| Oct. 10 | U.C.L.A. | Los Angeles |
| Oct. 17 | Santa Clara | Portland |
| Oct. 24 | Wash. State | Corvallis |
| Oct. 31 | Washington | Seattle |
| Nov. 7 | Montana | Corvallis |
| Nov. 14 | Stanford | Palo Alto |
| Nov. 21 | Oregon | Corvallis |
| Nov. 28 | Mich. State | East Lansing |

into one bad break after another. Idaho started it by winning the first game, 6-4. Oregon State came back to post a footballish 13-7 victory over the Vandals on the following day, but that was ordained by the gods to be the last game that the Beavers would win in 1942. Washington State did it, 7-4 and 6-5; Washington did it, 10-2 and 3-2; and Oregon applied the last bitter pill by a 4-3 count at Eugene.

NO COACH likes to alibi in print, but in defense of Coach Coleman, the weather may be cited as one prime factor in the disastrous finish to the season. Although nothing about it appeared in print, this was probably the wettest spring in history so far as the baseball team is concerned. Practice after practice was rained out, and two games — the second Idaho game and the fourth Oregon game — were rained out. As a result, the Beavers played only 14 conference games instead of the regular 16, and lost many days of valuable practice.

THE BEAVER track season can be summarized as being fairly successful, considering the twelve members of the squad who were lost to the armed forces and judging by the showings made in the Northern Division and Pacific Coast Conference meets.

The season started with a win over the University of Oregon in the relays and a win from the University of Idaho in a dual meet. However, a bad blow was dealt the squad when Bob Stevens, outstanding prospect from last year's freshman team in the shot and discus developed scarlet fever during the Idaho meet. Stevens' loss was keenly felt in the two remaining dual meets which were lost to the University of Washington and the University of Oregon respectively. The Beavers came back, however, in the Northern Division meet at Seattle to take a fourth place with a score of 22¼ points, and sixth place in the Pacific Coast conference meet with 10½ points, which is the best showing Beavers have made in these meets for a number of years. Incidentally, the Orangemen beat Oregon twice.

The champion of the team, who is likewise the Northern Division and Pacific Coast broad jump champion, was Don Findlay. He consistently jumped over 22 and 23 feet all season and with one jump of 23 feet 11¾ inches in the Pacific Coast Conference meet beat the best that undominated U.S.C. could offer. Without doubt Findlay was the outstanding man on the squad, a stellar performer in every meet and without equal. As a sideline, he consistently high jumped over 6 feet in every meet. He should

(Continued on Back Cover)

TWENTY-NINE 1917 CLASS MEMBERS celebrated their Silver Jubilee anniversary in Corvallis May 30. Present at the Saturday luncheon, arranged by Faye Barzee Fegley, were (seated, from the left): Erma Stidd Sieberts, Esther Humphrey Tschanz, Beth Ketchum Stidd, Iva Howey, Mrs. Fegley, Bertha McHenry Mynatt, Nettie Fridley Jackson. Standing—Corney Meyers, Oliver Schrepel, David John, DeLoss Bullis, Joe Hawkins, Chuck Stidd, Evelyn Cathey, Olive Wilson, William Averill, Robert Reichart and Harry Patton. WHILE ON FURLOUGH from service with the Royal Canadian Air Force, Pilot Officer Richard Gilkey, '40, visited Corvallis this spring. HOME FROM THE NAVY to make final arrangements with Elaine Bowman, '41, Art Broten, '42, came to the campus in Navy togs. BROTHERS, Lieutenants Fred McMillan, Jr., '40, and Don McMillan, '42, called at the alumni office before Fred embarked with U. S. forces. Both are sons of Prof. Fred O. McMillan, '12. TO SEE THEIR SON, Kenneth Robinson, graduate. Charles Robinson, '14, and Elsie Caspar Robinson, '16, came from Yakima. THE GOLDEN JUBILEE LUNCHEON was arranged by Mrs. John Fulton (Martha Avery), '92, for her classmates, John Fulton and Richard Scott, and for others of previous Golden Jubilee classes on the campus for Reunion weekend. At the luncheon (from the left) were Mrs. Fulton, Bertha Davis, '89, Will Hall, '88, Ed Wilson, '89, Mrs. J. B. Horner, a guest, T. Leonard Charman, '81, Richard Scott, '92, Mrs. G. B. Hovenden (Hattie Hanna, '80), Professor Fulton. COMMISSIONED SECOND LIEUTENANTS the day before graduation, these '42 graduates wore army uniforms when receiving their diplomas from Registrar Lemon.

Alumni 'Round the World . . .

Decorations

Kenneth Jernstedt, son of Frederick Jernstedt, '13, of Yamhill, was decorated by the Chinese government for bravery in action. An A.V.G. flier, he shot down 15 Japanese planes over central Burma.

"For extraordinary heroism . . .", Lt. Elwyn L. Christman, '38, of Mt. Angel, Oregon, now a flight instructor at the Jacksonville Naval Air station, recently received the coveted Navy Cross from Capt. John D. Price, commandant, before a general assembly of the station personnel.

In command of a huge navy patrol bomber during a furious attack on a strong Japanese naval force consisting of a cruiser, destroyers and transports in the Philippines area, the Mt. Angel naval flight officer and his crew performed heroically.

Diving the patrol bomber at the enemy ships, he released a load of bombs causing considerable damage. Immediately attacked by enemy fighter planes, Christman's plane was set afire and forced to land in the sea.

For thirty hours, he and three of his crew members, aided only by life belts, swam in the perilous waters of the southwest Pacific, finally reaching the shore of a small island. Then started an arduous 11-day trek. Traveling from island to island with the aid of native canoe men, Lt. Christman lead his men into the U. S. Naval Headquarters at Sourabaya, Java, N.E.I.

Receiving the high honor modestly, Lt. Christman said, "It was something any flier would have done under the same circumstances. I can't help but think of the marvelous work that was done by the boys who didn't come back. The spirit out there was superb. Everyone wanted his chance to take a crack at 'em and you can bet that we'll get them yet."

Killed in Action

Ray F. Weber, '37, first lieutenant in the U. S. Air Corps, was killed in action in Australia early this spring, according to word received by his mother, Mrs. Golden Weber of Burbank, Calif. He is also survived by five brothers, Charles, '29, Vincent, '37, Clarence "Tass", '35, Phil, '35, and Martin, '37. He was a member of Sigma Nu fraternity.

Lt. Weber had been employed in San Francisco before entering the gulf coast air corps training center at Brooks field, Tex., where he graduated September 16, 1941.

Thomas H. Moriarty, '41, seaman on the USS Marblehead, U. S. Navy, was killed in action in the Pacific Area according to word received by his parents early this spring. Survivors are his parents, Mr. and Mrs. T. J. Moriarty, Portland, and his brother, Jack, '43.

Mr. Moriarty, a member of Pi Kappa Phi, joined the navy soon after leaving college in 1938.

Jack Lyons, '36, second lieutenant in the U. S. Air Corps, was killed when his army observation plane crashed during a practice flight near Watertown, N. Y. He received his

wings a year ago last April, after having been stationed at Fort Lewis, Randolph and Moffatt fields.

Surviving him are his widow, Agnes King, an army nurse; also his parents, Mr. and Mrs. J. A. Lyons of Portland, and his brother, James Lyons, Jr. He was a member of Beta Theta Pi fraternity.

Harold E. Hammers, '38, captain in the U. S. Air Corps, was killed in an army bomber crash at Baker May 4. Captain Hammers had been ferrying planes across western states, and it is believed he encountered a storm in the Baker area which caused the plane to crash.

Captain Hammers is survived by his widow, the former Maude Long, and a year-old daughter; also his parents, Mr. and Mrs. Arthur Hammers of Hood River, two sisters and one brother, Roy Hammers, '35, Salem. He was a member of Kappa Sigma fraternity.

Chester P. Toler, '43, second lieutenant in the U. S. Air Corps, died in a bomber collision at Oklahoma City, Okla., May 12. He was piloting one of three bombers flying in formation about 15 miles from Will Rogers field when his plane and another collided and fell in flames.

Survivors are his father, Perry Toler of Grants Pass, and his brother, Lester Toler, '43, now in the naval air corps at Corpus Christi, Tex. He was a member of Kupon club.

Listed Among the Missing

Reported among the missing fighters with the U. S. forces in the Philippines are Captain Roderick Hendry, '39, Lieutenant Merle Christensen, '41, of the U. S. army, and Lieutenant (jg) Cecil Espy, '36 MS, of the U. S. Navy. Reported missing after an air accident on the Hawaiian coast is Lieutenant Charles Fisher, '38, brother of Lieutenant John Fisher, '38, killed last year in an air crash in Panama.

Not an official list from the war department, the following people were in the Philippines at the beginning of the war according to the alumni lists. None of the persons named have been accounted for in other lists in this magazine:

Paul Brown, '31, U. S. Army, Lieutenants Howard Amos, '40, Burton Black, '40, George Howe, '40, Robert Broadwater, '41; Captains Weldon Kirk, '32, Charles Samson, '38; Majors Harold Stevenson, '19, and Claude Thorp, '24, and Lieutenant Commander Herbert Taylor, '19.

Gaudencio Aguirre, '28, Dr. Marcos Alicante, '20, Cipriano Areola, '29, Jose Buccat, '33, Hermogenes Carbonell, '22, George Chan, '28, Juan Chioco, '17, Mrs. Fred Comings (Sybil Jenkyn, '36), John "Octy" Enberg, '11, Felix Espino, '26, George Frey, '31, Calixto Gragasin, '23, William Hanson, '32, Manuel Llabres, '25, Felipe Logan, '32 MS, Horace Matlock, '20, Guillermo Quibilan, '23, Vincente Quibilan, '28, Guillermo Ponce, '39, Jose Ramos, '33, Ramon Villalon, '31, Mrs. Franz Weissblatt (Vivian Shriver, '29), Royce Wendover, '15.

Rescued From the Islands

Lieutenant John Wienert, '41, was among the 40 airmen taken from Bataan peninsula to Australia by American bomber crews April 14, according to radio dispatch received from the war zone in late April. Lieutenant Wienert had been in the Philippines since November 20.

Headlines in the News

After two days of hard fighting against the Japanese at Midway island, Lieutenant Darwin "Bud" Carpenter, '41, returned safely to base. Lieutenant Carpenter, with Lieutenant Edward Steedman of Sherman, Texas, in a flying fortress to which they were assigned bombed a transport and an aircraft carrier and shot down a fighting plane. Lieutenant Carpenter is a member of Sigma Nu.

Lieutenant Everett Holstrom, '40, piloted one of the 16 planes which bombed Tokyo, according to news reports. Lieutenant Holstrom, a member of Kappa Delta Rho, received his wings at Kelly Field, Texas, in June, 1940.

A fraternity brother, Lieutenant Alfred Allen, '39, with Corporal Dinius of Miles City, Mont., saved the lives of 10 passengers of a Northwest Airlines transport in May when the plane crashed near Miles City, Mont. Corporal Dinius battered through a window to open the jammed door of the plane, and Lieutenant Allen with Stewardess Lois Hallan helped out all the passengers.

Max A. Hinrichs, '07, of General Electric's San Francisco office, has received from that company the Charles A. Coffin Foundation award for outstanding achievement during 1941.

The Coffin award is the highest honor which the General Electric company bestows on its outstanding employees. The total number of those who have received the awards in the 19 years since the foundation was instituted is now 592.

His citation is given below: "For his ingenuity in developing a supporting and centering arrangement for an elastic-fluid-turbine diaphragm."

News of the Classes

1892

Rose Horton, now Mrs. George Sheldon, wrote college friends that she moved about a year ago from her country home near Wenatchee, Wash., to 330 Ferry street, Wenatchee. She had been living in the community since 1925.

1896

G. M. Palmer, district ranger with the U. S. forest service, recently requested the alumni office to change his address from Unity to Burns where he is now in service.

1901

Cora Cumming and her husband, E. E. DeArmond, sold their farm in the Suver area to make way for the new cantonment, Camp Adair. Now they have purchased a large acreage near Hubbard which Mr. DeArmond and their sons, **Ivan DeArmond**, '28, and **Tom DeArmond**, '32, will farm.

1902

At reunion time, **Ralph Billings**, his wife, **Myrtle Herbert**, '01, of Ashland, came to the campus for the reunion festivities. Here at the same time was Mrs. Billings' sister, **Georgia Herbert**, '05, wife of **Albert Bower**, '05, of Crescent City, Calif.

1908

Flying west to spend several days with relatives in Corvallis, **Dr. Renton K. Brodie** and Mrs. Brodie (**Caroline Buchanan**) arrived in Corvallis in May to attend the 90th birthday anniversary of Mrs. Ruth Buchanan, Mrs. Brodie's mother.

Dr. Brodie is a vice-president of Procter & Gamble company in Cincinnati, Ohio.

1914

Hunter Gooding wrote that "we celebrated our silver anniversary the 16th of April with a cocktail party and a dinner afterwards. Time seems to roll around very rapidly, and I suppose there will be a number of other '14ers celebrating their silver anniversaries

1917

Clara Post, now Mrs. W. S. Horn, is employed in one of the offices on the Washington State college campus according to relatives. Her address in Pullman is 2008 Monroe street.

Walker Tilley moved back to Oregon recently to become forest manager for the Willamette Valley Tree Farms, with offices in the Osburn Hotel building, Eugene. Before making the change he was a representative of the Western Pine Association with headquarters in San Francisco.

Harvey Miller, eastern Oregon wheat grower and legislator, has been appointed field man in the eastern Oregon district for the AAA. His farm is located at Heppner.

Harry Patton now manages the affairs of both the Hammond Lumber company (northwest manager) and the Greenmont Logging company. His headquarters are at 627 Terminal Sales building, Portland.

1919

While in Oregon to visit her mother, **Eva Dye**, now Mrs. R. E. Hutchinson, came to Corvallis for the reunion weekend. She and her husband and their three children reside at 8121 Madison avenue, South Gate, Calif.

Ruth Miller, wife of **Calvin Cooper**, '23, escorted her two daughters and a group of Portland 4-H club children to the campus for the two-weeks' session in June. The Coopers live at 5606 Northeast 34th avenue.

1920

When passing through Corvallis on Alumni Day, **Marvin Thomas**, **Helen Haley Thomas**, '19, and their daughter visited with friends on the campus. After a number of years farming at Powell Butte, near Redmond, the Thomas family moved to Tulelake, Calif., where Thomas has a ranch and a warehouse.

1922

Lieutenant Commander Madison Nichols, with the U. S. Naval Reserve, is resident officer-in-charge of construction at the U. S. Marine Barracks, New River, N. C. He and Mrs. Nichols (**Della Ferguson**, '25) receive their mail at P. O. Box 361, Jacksonville, N. C.

Commander Nichols had an engineering position with the U. S. Engineers before accepting the naval appointment.

Henry Fisher is still in the employ of the Norton company at Worcester, Mass., where he is engaged in research work. He lives at 50 Coventry road.

Wilson Cummings heads the commercial department in the Orange union high school, Orange, Calif., a position he has held for the last 15 years. He received a master of science degree in education from USC in 1941.

1923

Conrad Swanson, salesman for the Tide Water Associated Oil company at Burbank, Calif., works out of the Burbank office, with adjoining territory of Glendale, Eagle Rock and part of Pasadena. He lives at 610 East Providencia, Burbank.

He has been in the Pasadena area most of the time since graduation.

Ralph Masterson notes that he is manager of the soap department of Swift & Company's branch in Portland. He and Mrs. Masterson (**Ruth McCulloch**, U. of O. '26) and their town sons and daughter reside at 5742 North Commercial, Portland.

Head of the commercial department of the

union high school at Escondido, Calif., **Edna Geiberger** (Mrs. Lee G. Coutts) teaches a goodly portion of the 625 students of the school. She has been teaching at Escondido since graduation from OSC. Recently she and Mr. Coutts built a home in San Diego where they live at 1041 West Walnut avenue.

Hazel Bursell, wife of **Chris Lindberg**, '23, visited the campus in April while on a business trip to Coos county. Aside from her stenographic duties in the offices of the Acme Engineering Service of which her husband is the head, Mrs. Lindberg supervises their home and two children and does a bit of journalistic writing on the side.

Recently the Lindbergs purchased the Portland home of **Robert Chrisman**, '14, at 7205 Southeast 35th avenue.

Floyd Gist, not heard from directly since graduation, lists his occupation as plastering contractor, 3634 Tuller avenue, Los Angeles.

1924

Wilfred Mandley went to Longview, Wash., recently to become superintendent of the Cowlitz County PUD district. He had formerly been a member of the staff of the Mountain States Power company at Tillamook.

He and Mrs. Mandley (Lois Mandley, '23) reside at 1428 25th street.

Gus Rosenboom, mayor of Kalama, Wash., for nine years, resigned his office in March. He planned to be out of the city most of the time for several months. He is owner of a Kalama apartment house.

Fred Novinger holds the position of air carrier inspector for the Civil Aeronautics Authority in Chicago. His residence is at 8211 Clyde street.

Isaac Tatam, a mechanic working for the Pacific Plywood corporation in Willamina, writes that he still lives in Sheridan. His family includes a wife and two daughters, 5 and 7. He keeps up-to-date on OSC athletics.

Chileans who are now enthusiastic Oregonians, judging from their expressions, are the members of the Beaty family — **William Beaty**, '05, the Chilean Mrs. Beaty and their two little sons, also the two De La Maters, Mrs. Beaty's son and daughter. They came to Oregon in February to locate on a farm at Mulino near Oregon City.

Beaty says he first went to South Amer-

ica in 1920, as an electrical engineer at the Cerra de Pasco mine some 13,000 feet up in the Peruvian Andes. Two years later he went to the Pachachaca mines in northern Chile, returned to the U. S. in 1923 to buy a farm near Oregon City and to mine at Ajo, Arizona. When the Chile Exploration Company offered him a year's contract he went back for two years, returned to California to build a house there and in Globe, Ariz., then back in Chile again in 1929 he worked for the Chile Exploration company at Chuquicamata ever since.

Americans make a lot of money in South America, Beaty avers, but he knows that few bring back their cash. He says it is a very poor place, too, for a man to start in business for himself. The laws make it difficult for a foreigner to do business, and because a man starting a little enterprise has difficulty in getting equipment, financial connections, and must compete with big corporations.

The animated Mrs. Beaty is a young, rosy-cheeked French-born Chilean. Enthusiastic about the United States since visiting her sister in 1938, she has learned to cook American style, and is a very good one, Beaty attests.

Wendell Howe teaches classes in the Taft junior college, Taft, Calif., in winter and is a ranger-naturalist in the Sequoia national park in summer. His residence is at 611 A street, Taft.

Howe received a master of science degree from Stanford in June 1930.

1925

Again in the newspaper business, **Don Wilson** put out his first issue of the CAMP ADAIR SENTRY in Corvallis April 23. It is a weekly 8-page publication edited and managed by Wilson, with advertising from Corvallis, Salem, Independence and Albany.

Wilson owned the BENTON COUNTY HERALD for some years after leaving college and has since been an insurance representative in Corvallis.

Gerald Park holds the position of vice-president and sales engineer for the Refrigerating Equipment and Supply company in San Bernardino, Calif. His company supplies equipment for air conditioning, commercial refrigeration and industrial heating.

He lives at 3048 Serrano road in San Bernardino.

In his graduation year, **Reg Hillyard** organized the Hillyard Motor company, and has been busy managing his business ever since.

Caryl Heslin notes that he is plant staff assistant in the building maintenance and operation department of the Pacific Telephone and Telegraph company at San Francisco. He and Mrs. Heslin reside at 6170 Acacia avenue, Oakland. He has been working for the company since 1925 and in the same area.

Ralph Lunt, in the technical department of the California and Hawaiian Sugar Refining corporation at Crockett, Calif., says he finds sugar refining a most interesting business.

Ruth Lyon and her husband, Dan Pattison, reside at 2638 Highland avenue, Altadena, Calif. Aside from her home work, Mrs. Pattison spends her time at Red Cross work, helps in the British Relief tea room, leads a Girl Scout group.

Edna Merritt, now Mrs. LeRoy Book, and her brother, **John Merritt**, on a vacation trip through western Oregon, signed the register on Alumni Day. The Books, with their two daughters, are now residing at Bly where they operate a grocery and manage one by remote control at Sprague River. Merritt is employed in the notes department of the Klamath Falls branch of the United States National Bank of Portland.

Dr. Roland Marks has the interesting position of flight surgeon for Pan-American Airways in San Francisco. His address is 450 Sutter street.

Dr. Marks, a graduate of the University of Oregon medical school, enrolled for post graduate courses in New York City. In the intervening time he, an eye, ear, nose and throat specialist, has practiced at the Currence Clinic in New York city, in Logan, Utah, and San Francisco.

1926

Dr. Fred "Duke" Diwoky, a reserve officer since graduation from OSC, has been commissioned a first lieutenant in the chemical warfare division of the U. S. army, on special assignment at Massachusetts Institute of Technology, Cambridge, Mass. Duke has been a research chemist for Standard Oil Company of Indiana since receiving a Ph.D. degree from the University of Wisconsin in 1931. He was transferred from the Whiting, Ind., refinery to Standard's plant at Wood River, Ill., more than a year ago.

His wife and their two daughters made their home at Alton, Ill., until April 16, when they moved to Cambridge. The second daughter was born shortly before they left Alton.

William Vermilye has the position of sales representative for the Selrodo company in St. Louis, Mo. He and his wife, Anne Mox of WSC, and their two sons reside at 6041 Enright in St. Louis.

Introducing Davy Reid, four-months-old member of the Warren Reid family, who took up his abode at the Reid's last month.

Lois McCool, wife of **Walter Worthy**, '25, has asked that her magazine be sent to their new address in San Fernando, Calif., to 522 Newton street. The Worthys have built a new home and are busy with the usual tasks of settling in a new location. Worthy is field entomologist for Los Angeles county.

George Brabham, **Anna Davis Brabham** and their family are now residents of Susanville, Calif., where they are living at 108 Russell avenue. Newest member of the family is **Edward Davis Brabham**, born April 7, 1941.

Read Greenwood informs us that he is operating his own farm in connection with his father's at Forest Grove (Route 1, Box 331). He and Mrs. Greenwood expect their daughter to be attending OSC in 1957.

1927

Byron Warner is now a first pilot for the American Airlines on the Los Angeles-El Paso, Texas, run, according to a note in the Oregon State TECH RECORD. Soon after graduation Warner enlisted in the U. S. Army Air Corps at Kelly Field, Texas, later graduating with a pilot's rating and a reserve officer's commission. He has since been employed by Stout Airlines, National Air Transport, and American Airlines. To date he has 10,000 hours flying time and one and a half million miles in the air to his credit.

Newest assignment of **Julius Williams** is the superintendency of the construction work on the San Vicente dam 30 miles from San Diego, Calif., a job contracted by the L. E. Dixon company.

After graduation Williams worked for the Los Angeles county road commission and for the Metropolitan Water district. For the last three years he has been engineer for the Dixon company which had the contract for the Upper Narrows dam near Marysville, Calif., and for the Salinas water project for Camp Luis Obispo.

He and Mrs. Williams (Marian Robinson, '30), Betty, 11, and Alan, 8, are living at Ramona, Calif.

Howard Hughey, engaged in research and development relating to equipment for use of industrial gases, works for the air Reduction company at Jersey City, N. J. He resides at 125 Hunter avenue, Fanwood, N. J.

Thomas Maginnis records that he is district agent of the Northwestern Mutual Life Insurance company, Marshfield; that he and **Thalia Larson**, '35, have a daughter, Thalia Antonia, aged 5, and that they all live at 881 North Tenth street, Marshfield.

Stanley Galka holds the position of collection teller for the Seattle Trust and Savings bank. He lives at 928 North 25th street, Seattle.

Elizabeth Currie noted on her information card that she is a rural missionary touring the villages of Jullundur district of the Punjab, India. She should be addressed at the American Presbyterian Mission, Jullundur City, India. She has been in the Orient since 1933.

Information from Mrs. J. A. Jones, mother of **Maxwell Murray Jones**, tells of his sudden death December 12, 1940, at his home near Newberg.

Kermit Brandeberry, with the U. S. forest service at Reno, Nev., and **Cedric Brandeberry**, '34, with the Ivory Pine company at Klamath Falls, were on the Oregon State campus for their sister's graduation May 30.

Dallas Ward, freshman football coach at the University of Minnesota, has been granted leave of absence to take a commission as lieutenant, senior grade, in the U. S. Naval Air Service. He is taking special training at Annapolis preliminary to becoming assistant to Major Bernie Bierman of the naval air school at the University of Iowa, Iowa City, Iowa. He had been freshman coach at the University of Minnesota since 1936.

1928

William Ketchum and **Lucile Porter Ketchum**, '30, left their sheep ranch at The Dalles long enough to come to Corvallis May 30 to witness the graduation of Ketchum's sister, with the '42 class.

The Ketchums and their three children are kept busy on their sheep ranch on the east slopes of the Cascades.

Dean McCluskey is still in South America. His parents informed the alumni office that he is a tractor and implement dealer and rancher in Mendoza, Argentina (Calle Espejo 80). When heard from in 1937 he was broadcasting from the Alveras Hotel in Buenos Aires.

Ivan DeArmond, extension soils specialist at the college, with his father has purchased a large farm near Hubbard. He has resigned his extension position to attend to his farm duties.

Lee Barnum, principal of the Court street elementary school in The Dalles, resigned his position in April to become assistant superintendent of the operating department of the Pacific Pulp & Paper company at Salem.

An account of the occupation and activities of **Alexander Sturges** is interesting—he is assistant to the chief statistician, Bureau of Labor Statistics, Department of Labor, Washington, D. C., also instructor in statistics in the Department of Agriculture's graduate school.

He and Mrs. Sturges, **Rynthia Oldham**, '28, and their two children live at Prospect Hill, Vienna, Va.

Mildred Thomas, now Mrs. Farwell C. Webb, teaches personality and foods classes

Dick Richards, '16, soothed the blackface while William E. Wilkins, '18, did the auctioning. Richards, Eastern Oregon branch Union experiment station superintendent, and Wilkins, La Grande realtor, put on the act for the Oregon Woolgrowers meeting held in La Grande recently.

While in Oregon a year ago friends "snapped" the Francis Smiths—Mrs. Smith (Gertrude Manary, '18), Smith, '13, their younger daughter, Joanne, now a high school graduate, and Carolyn, who entered OSC last fall as a junior. Smith, an engineer with the Public Roads Administration, has been stationed in Ogden, Utah, for more than twenty years.

in the union high school at Grand Rapids, Mich., as well as maintaining supervision of her six-year old daughter and year-old son. Her husband is special representative of the Standard Oil company.

The Webbs live at 2017 College, Southeast, Grand Rapids.

Dorwin Pillars, member of the patent law firm of Henninger and Pillars, has his offices in the National Press building, Washington, D.C.

Margaret Purves declares that her husband, Glenn Kerrihard, though a graduate of the University of Iowa, enjoys OSC get-togethers in Seattle to the extent that he is quite an Oregon State booster. The Kerrihards and their son Jack reside at 17110 Hablin road.

Frank Delphey designs oil refinery equipment for C. F. Braun and Company at San Gabriel, Calif., where he and his family are living at 421 North Del Mar avenue.

1929

While **Thyrsa Buell's** husband, Francis C.

West, is at sea as second engineer on the motorship, Cape Flattery, of the American Mail line. Mrs. West is father and mother to their three children — boys 6 and 2 years, and a girl 4.

Beatrice Scheurman, her husband, Richard K. Gillson, and their 8-months-old son reside at 6302 Southeast 92nd avenue, Portland. They hope to build their own home this year.

A note from **Henry Perrott** gives the information that he and **Blanche Hendricksen Perrott** are still on their stock ranch near Loleta, Calif. Their family now includes four children.

Harold Conklin has been bay region representative of the Andrew Jergens company of Burbank, Calif., since 1933. He and his wife, the former Henrietta Boselly of Glendale, and their children, Bill, 6, and Ruth Ann, 10 months, live at 915 Portal avenue, Oakland, Calif.

He notes that his sister, **Marian Conklin**,

her husband, Ernest Behr, and son live at Visalia, Calif.

Thomas Van Alstyne manages the affairs of the West Coast Paper Products company in Portland, only manufacturer of milk bottle caps north of Los Angeles. He lives at 3007 Northeast 32nd avenue, Portland.

Philip Johnson, forest entomologist, has been associated with the U. S. Bureau of Entomology and Plant Quarantine on the University of California campus since 1931, according to alumni records. A year ago July 9 he and Mrs. Johnson (Pauline Asper, '35) announced the arrival of their second son, Ronald George.

1930

Appointment of **Dr. Albert Stout**, '30, as research chemist for the Western Pine association, Portland, was announced in early April. After earning a Ph.D. degree from the University of Wisconsin in 1934, Dr. Stout joined the staff at Linfield college where he became assistant professor of chemistry.

Max Harnden holds the position of district manager of Safeway Stores, Inc., in the area surrounding Scotts Bluff, Nebr., according to a recent communication from Nebraska.

Carolyn Merrill, wife of Dr. William L. Cover, herself completed a course at Johns Hopkins and received her R. N. Now she and Dr. Cover and their children, boys 4 and 2, live at 224 24th street, San Bernardino, Calif.

Albert Hamlin, aside from his insurance business in Riverside, Calif., is kept busy as joint owner of the Camp Haan-March Field transportation system. He lives at 3822 Orange street, Riverside.

George York is "just plodding along" as junior entomologist with the U. S. D. A., he wrote the alumni office not long ago. He works on sugar beet insects.

York's home address is 425 Santa Rita, Modesto.

William R. Laidlaw recently became manager of the Air Cleaner Service company, Portland firm now occupying a new building

at 4624 Southwest Bertha street, on the Beaverton highway. His concern is the only manufacturer of oil filter packs for tractors, trucks and automobiles west of the Mississippi river. Laidlaw was formerly chief real estate appraiser for the First National bank of Portland.

An article written by **Walter Schreiber**, "The Prodigious Brazil Nut," was printed in the April number of AGRICULTURE OF THE AMERICAS, friends have noted.

Schreiber has been in China, European countries and other stations for the Office of Foreign Agricultural Relations, U. S. Department of Agriculture, of which he is a staff member.

1931

Alyce Nantz hurried to Oregon in late May while gas rationing and tire shortages would not prevent her vacationing in the Northwest. When at work she is employed in the Kern County Free Library, Bakersfield, Calif., where she lives at 227-A Truxtun.

Marjorie Elliott, wife of Lee F. Chaney of Boulder, Colo., writes that she has two sons, 5 and 2 years old, and that her husband is chief chemist for the public utility company serving much of Colorado and Wyoming. She hopes some day to visit Oregon again and O. S. C. Her mailing address is 493 Marine street, Boulder.

Clarence Parsons indicates that he is owner of C. B. Parsons & Company (manufacturers' agents of electrical lines), 1615 Second avenue, Seattle.

Howard Tong finished his second year last month as principal of the union high school at Yamhill. Some of his last year's students are Beavers this year, he notes.

Wayne Howard Tong, the first son in the family of three children, arrived a year ago May 22.

Dr. Jim Kimmey was transferred by the U. S. forest service from Portland to San Francisco a year ago. A forest pathologist who received a Ph.D. from Yale in 1940, Dr. Kimmey is a forest pathologist in the division of forest pathology, 446 Phelan building, San Francisco.

William Vinacke has the position of district forest ranger, Tensleep district, Big-horn national forest, according to the information card he returned recently. His headquarters are at Tensleep, Wyo.

1933

Selwyn "Bud" Nock, appraiser and construction expert who has been in charge of FHA loans for the Pacific First Federal Savings and Loan association in Portland, in February became associate land appraiser for the U. S. army engineers at Anchorage, Alaska. He will serve for a year.

W. Norwood Parke recently became inspector in the airplane warning service at the regional office of the U. S. forest service, Portland. He had been connected with the department of lands in the forest service in Alaska prior to the appointment.

Dwight Baldrige, junior engineer with the U. S. Bureau of Reclamation, is engaged in investigations at the Boise office. His mailing address is P. O. Box 2298, Boise.

Taylor Reedy now is executive secretary of the Southeast Y. M. C. A. in Huntington Park, Calif., and resides there at 2919 Flower street. He and Mrs. Reedy have two sons, Bill, 7, and Warren, 3.

Don Sherwood, at the Umatilla branch experiment station since 1934, is engaged in livestock research there. The station is located at Hermiston.

1934

Marianne Palmiter, wife of Maxon Pendleton, is working for her tenth year with the Farmers' Automobile Inter-Insurance Exchange. Beginning in the Portland office when the company began operations in Oregon, she later transferred to the Los Angeles office where she has been secretary to the executive vice-president for the last eight years. She and Mr. Pendleton were married in 1935, and now reside in the Westwood Village district—1900 South Pentley avenue, West Los Angeles.

Maxwell Carr, painter in the Tacoma shipyards, has a half ownership in the Broadway Malt shop, a small restaurant at 11th and Broadway, Tacoma. Mr. and Mrs. Carr, married May 3, 1941, are residing at 210 North Tacoma avenue.

Dale Campbell, co-owner and manager of two weekly newspapers, the LeGrand Advocate and the Mariposa Gazette, has been in the newspaper business nine years. The Campbells and their two-year-old son live in Mariposa.

Winifred Carlson is the wife of Gordon K. Junge, chief of police in Juneau, Alaska. She herself is clerk of one of the local selective service boards as well as homemaker for her family which includes Beverly, 7, and Sandra, 3.

Robert Lange, when heard from last fall, was employed in the tread die division of the tire development department, U. S. Rubber company, Eau Claire, Wis. He was engaged

It's Dr. Walther Ott now. He, a '34, received a Ph.D. in biochemistry May 10 from Penn State college and the next day moved Maxine Peterson Ott, '34, and their daughter to 2089 Church street, Rahway, N. J., where he is now research biochemist for Merck Institute of Therapeutic Research.

in technical work on new tires, new brands, sizes, and the like.

George Burnett holds the position of district forest ranger in the Gunnison national forest, Crested Butte, Colo. His principal activity is the solution of grazing problems.

Burnett and his Colorado wife have three children, twin girls and a boy.

Drs. Charles and Ewald Rohrmann both are engaged in research work, according to word from **Major Frederick Rohrman**, '26, with the 6th Corps Area in Chicago. Charles is a chemical engineer in the research laboratory of the E. I. DuPont company at Cleveland, Ohio, while Ewald is a research biochemist for the Eli Lilly company at Indianapolis, Ind.

1935

Judy Hyslop, her husband, William Belton, and their year-old daughter, Barbara, came to Corvallis and Portland for their two-months vacation period. Belton is first vice-consul at the American legation in Ciudad Trujillo, Dominican Republic.

Harmon Traver and Mrs. Traver left Corvallis in late April for Boston, Mass., where Traver will be engaged in laboratory and research work at the Massachusetts Institute of Technology. They have since located at 6 Crawford street, Suite 5, Cambridge.

Traver has been engineer at the Memorial Union building for more than a year.

Santiago, Chile: "Learning Spanish and getting acquainted with South America." He graduated from Stanford university in 1936, later was budget director of Hull House in Chicago.

George Borkowski holds the position of junior mechanical engineer in the mechanics section of the U. S. Bureau of Standard.

Last summer Dorothy Lamb Bishop, '28 ('37 graduate) visited in Cleveland Heights, Ohio, with Crystal Wilcox Sowersby, '28 (left) and Philip Sowersby, '27. They stand in front of Sowersby's home.

Mrs. Bishop, widow of Lionel Bishop, '26, is home demonstration agent in Coos county. The Sowersby's have been residents of Ohio since Sowersby was made head of the advertising for the lamp department of the General Electric company. Previously he had been at the home plant in Schenectady.

Washington, D. C. His mailing address is 3753 Jenifer street, Northwest.

Mary Goss has a secretarial position at the University of Oregon medical school, Portland, according to a recent information card. She lives at 1514 Northeast 21st avenue.

Wilbur Travis, rural service agent for the Puget Sound Power and Light company at Everett, Wash., has been with the utility company for the last six years.

Letha Smith, her husband, Maurice I. Smith, and their three daughters returned to the States from Juneau, Alaska, where they had been for several years. Mr. Smith is now employed in Seattle where the family is residing at 10208 First street, Southwest.

Nicola Diane, youngest of the three daughters, was born January 2.

1936

Samuel Seal was awarded the degree of doctor of medicine at the 208th convocation of the University of Chicago last March. He attended the University of Oregon after leaving Oregon State.

Rhoda Cougill lists her occupation as nutritionist for the Spokane County board of health, Spokane, Wash. She enrolled as a student dietitian at Harborview Hall, Seattle, after graduation then became dietitian at the Utah Valley hospital in Provo, Utah.

Jean Dutton, wife of J. H. Carver, has not much to say, except that she's busy taking care of the husband (U. of C., 1934) and wee Judith Lue, born a year and a half ago. The Carvers reside at 180 Avenida drive, Berkeley, Calif.

Virginia Fendall notes that her husband, Edwin K. Dole, is an instructor in political science at Stanford university. They live at 506 Hanover street, Palo Alto, Calif.

Doris Fulkerson has a secretarial position in the office of the Corvallis Lumber company. She and her mother, Mrs. Gertrude Fulkerson, make their home at 340 North 21st street in Corvallis.

Ned Myall is a member of the sales staff of the American Radiator and Sanitary corporation in San Francisco, and lives nearby at 1882 34th avenue, Oakland.

Laura Breck and her husband, Richard Orr, are residing at 544 South Normandie, Los Angeles. Mrs. Orr was employed in Honolulu before her marriage.

1937

John Denison holds the position of agronomist with the U. S. Army Engineers, being located in the Philadelphia district. His mailing address is P. O. Box 66, Chesapeake City, Md.

Betty Barnes and her husband, C. E. Henning, have a year-old daughter, Mirene Jean. Mrs. Henning wrote recently. Her husband is principal and coach at the high school in Ketchikan, Alaska.

Thomas Henry Fraser, IV, joined the family circle of First Lt. Thomas Henry Fraser, III, recently, according to a letter from his grandmother. Lt. Fraser and Mrs. Fraser, the former Edith Johnston of the University of Arizona, and their son are at Jackson, Miss., where Fraser is stationed at the Jackson air base.

1938

Wesley Richardson writes group efficiency reports for the Iron Fireman Manufacturing company in Portland, and had the graveyard shift he reported recently. He has been with

in other words

by JOHN CLINTON

It's been a long empty while since *Rags* departed this world. We had the house painted and there aren't even any paw marks left. Even the old divan where *Rags* slept out on the porch is gone. Yet—it hasn't been a year!

* * *

Time has suddenly gone crazy like the world. You can't measure it with clocks any more, but in ships, guns, tanks and the probable length of your automobile's life. And today lubrication of the family car is almost as important as Junior's vitamins.

* * *

Now I've never kidded anyone in these columns. They may have been dull here and there, but they've been sincere. And I was never more sincere than I am now when I recommend Stop-Wear Lubrication at Union Oil stations.

* * *

Stop-Wear, first of all, is guaranteed in writing for 1000 miles against faulty chassis lubrication — a guarantee good anywhere in the West. Moreover Stop-Wear is done with special tools and a minimum of 9 exclusive lubricants developed by Union Oil engineers.

* * *

The Minute Men have to graduate from a lubrication school before they can perform any Stop-Wear service. They follow factory specification charts, and they give you written reports on the condition of your car.

* * *

When you get it back you can see the difference in how it looks—you can hear the difference in the quiet-as-a-mouse way it runs, and you can feel the difference in the way it handles. Try guaranteed Stop-Wear, today.

Safety First . . . Safety Always

the company since last June. He lives at 8030 Northeast Glisan street.

John Boner holds the position of plant engineer at the Norphlet refinery of the MacMillan Petroleum corporation, Norphlet, Ark., according to relatives.

1939

William Snyder has joined the American Field Service and will sail shortly to take up his duties as a volunteer ambulance driver in the Middle East. The American Field Service is now engaged in fulfilling its commitment to the British Middle East Command to send men and ambulances to serve the United Nations in the Middle East. The men are volunteers and pay for their own uniforms and equipment. The ambulances are bought through donations.

Ruth Beckman, as dietitian at the Hahne-mann hospital, Portland, purchases the food supplies, plans the menus, writes diets, supervises the janitorial service and various other duties. Miss Beckman had her dietetics training at the King County and Swedish hospitals in Seattle.

Her Portland address is 1132 Northeast Second avenue.

Betty MacDaniels recently came west to become a member of the dietetics staff at Barnes General hospital, Vancouver, Wash. After graduation she enrolled as a student dietitian at Johns-Hopkins hospital in Baltimore, and later was dietitian-housekeeper at the Marjorie Webster schools in Washington, D. C.

Elmer Kolberg, after completion of his season of professional football, came to Portland to work for the Oregon Shipbuilding corporation. He and Mrs. Kolberg are resid-

ing at Scappoose.

William Barclay held the position of acting assistant professor in electrical engineering at Stanford University this year. He has been a graduate student at the university since 1939.

Mail should be addressed to him at 129 Emerson street, Palo Alto, Calif.

Nancy Cox lists her position as central buyer for the lamp and lighting departments of the Hale Brothers stores in San Francisco, Oakland, Sacramento and San Jose. She resides at 1855 Pacific street, San Francisco.

1940

Edward Elliott, graduate of the Eastern Oregon College of Education, teaches the seventh and eighth grades in the Condon schools and coaches the athletic teams. This year he is president of the alumni association of the Eastern Oregon College of Education.

Irma Van Galder was transferred not long ago from a civil service position in Washington, D. C., to one in the offices of the U. S. Maritime commission in Portland. Her Portland address is 2125 Northwest Hoyt street.

Walter Spillman is now at work at the Puget Sound Navy yard. He lives at 1800 Thompson street, Bremerton, Wash.

Roberta Beer, a student dietitian at the Harborview hospital, Seattle, last year, now is a dietitian at the Good Samaritan hospital, Portland. Her mailing address is 2282 Northwest Northup street.

Fred Gustafson, an engineer for the Nevada-Massachusetts company, is working in the company's Golconda division, Golconda, Nev.

Ellen Miller, trainee at the Scripps Metabolic clinic, LaJolla, Calif., last year, is a dietitian at St. Peter's hospital, Olympia, Wash.

Jim Harper received a master of science degree in poultry husbandry at the Commencement exercises at Pennsylvania State college in May. He had been a teaching fellow at the college since graduation.

1941

Owen Cramer writes that he is now working with the U. S. forest service on a war mapping project. His address is Sixth Floor, 46 Kearney street, San Francisco, Calif.

Quentin Zielinski, who received a master of science degree in horticulture at Ohio State university June 15, has been named horticulturist in the department of horticulture, Virginia Polytechnic Institute, Blacksburg, Va.

William Roake was awarded the Weston fellowship in electrochemistry for 1942-43, according to an announcement made recently by Dr. Colin Garfield Fink, secretary of the Electrochemical Society. This is an international competitive fellowship founded by Dr. Edward Weston of Newark, N. J., inventor of the well known Weston cell.

Charles Watson, test engineer at the plant of the Westinghouse Electric and Manufacturing company's plant at Pittsburg, has been

sent to Harvard university as a member of the U. S. Signal corps to take special courses at the university.

Emmaline Wilson, now Mrs. Melvin Fitzpatrick, has the experience of living on a 5000-acre ranch. Her husband is foreman for the land company at Malin, south of Klamath Falls.

The Fitzpatricks have a daughter, born a year ago July 11, their first child.

John Gates, Jr., holds the position of assistant supervisor of production engineers at the yards of the Oregon Shipbuilding corporation, Portland. He and Shirley Hovind, graduate of Stephens college, were married September 14 and are now making their home at 9620 Northeast Skidmore.

Jo Schwab came to the campus from Astoria in March to say "hello" to campus friends. She is employed at Utzinger's book store in Astoria.

Robert DePrez is employed as junior clerk in the CCC motor repair division at Salem. Previously he had been employed by Sears, Roebuck and company. His mailing address is 451 North Winter street, Salem.

Edward Miers tells us that he is an engineer trainee at the Lockheed Aircraft plant in southern California. Also that he was married in December, 1941, and now lives at 1424 Workman Mill road, Whittier, Calif.

William Klein can be reached only by air mail at his present location in Alaska, with the Fish and Wildlife Service, via Woodley Airways, Anchorage, Alaska. He expects to return to his home in Denver in October.

Marvin Runyan works in the drafting department of Stevens & Koon, consulting engineers, Portland. He receives his mail at P. O. Box 301, Mulino.

George Saunders, living at Route 2, Eugene, has a large contract for truck garden produce with the Eugene Fruitgrowers association.

New general service manager at the plant of the Caterpillar Tractor company, Peoria, Ill., is Donald O. Nash, '31. After leaving Oregon State college he spent seven years in the service shop of Cousins Tractor company, Caterpillar distributor at Hanford, Calif. He then became a field service engineer for "Caterpillar," then parts and service manager for Peterson Tractor and Equipment company. In 1940 he returned to "Caterpillar" and has successively been in charge of field service, service development and service engineering.

Beaver Sports

(Continued from Page 7)

have another great year next year.

Bob Fischer, a promising sophomore miler, placed in the Pacific Coast Conference meet, also, and he and Findlay are on their way east now with "Gloomy Doc" Swan, to represent Oregon State in the N.C.A.A. and Pacific Coast-Big Ten meets.

There were others who performed well for the Beavers throughout the season—Tom Blair, captain and quarter miler, who completed his eligibility; Dick Finch, sophomore hurdler; Sherwood Frakes, sophomore pole vaulter, who was undefeated in the northwest; Gene Gray, senior and sprinter, who graduated; John Man-

dic, junior, high jumper, who should be back for another good year; Harvey Muskrat, sophomore middle distance runner, who was lost to the service before the close of the season; Bill Shinn, sophomore and middle distance runner; Bill Waterman, junior, and distance runner; and Len Moyer, junior, and sprinter.

Oregon State's contribution to the war effort includes the loss of three of its football coaches to the navy. Jim Dixon and Hal Moe, Lon Stiner's line and backfield coaches, respectively, are now Lieutenant Jim Dixon and Lieutenant (j.g.) Hal Moe, respectively. Bill McKalip, freshman football and basketball coach, is also Lieutenant Bill McKalip at Annapolis.

Hanleys' Alaska Trip

(Continued from Page 2)

instruments; two-way radio (three-bank receiver which tuned from 200 to 4000 kilocycles and a special long-range transmitter); a direction-finding loop antenna, built by Hanley, in addition to the fixed antenna and the 40-foot trailing antenna . . .

Almost everything about the little Aeronca is smaller than we realized. Its total weight is 700 pounds—only about one-fifth the weight of a motor car. It is equipped with a 65-horse-power engine which cruises the plane at 100 miles an hour. With its extra fuel tank, its total gasoline capacity is 25 gallons. The engine gets 23 miles to gallon, or an average consumption of 4.3 gallons an hour . . . (It took them five days, each way.)

Radio communication was absolutely essential for the Alaskan adventure; on several occasions a safe landing would have been impossible without it. The weather was bad most of the trip (rain every day but three),

which made navigation over the rough, broken country difficult. There were few landmarks, and outline maps only were available for some of the vast area that has not been surveyed. One time it was necessary to fly at an altitude of 12,000 feet on instruments for two hours in the overcast, during which time the wings iced so that the ailerons froze solid.

On the longest hop, 585 miles from Prince George to Telegraph creek, during which no signs of any inhabitants were seen, continuous communication was maintained with a Pan American Lodestar flying the same route; the pilot, Captain Jerry Jones, took drift sights and radioed the wind correction and weather to the Hanleys from his position ahead and also described landmarks.

THE HANLEYS had planned to fly to Panama this summer, the OILER notes. "But if they have to take to the highway or a more prosaic vacation (and how about that, now?) they'll still have their 1941 vacation trip by air stored away in memory and on some 800 feet of film and many stills—from Oakland airport to the Arctic Circle in their snug little Aeronca two-place cabin monoplane." The previous summer they made a vacation flight to Mexico City.

At home Hanley's aviation interests have brought him the presidency of the Oakland section of the Aircraft Owners' and Pilots' association and his appointment as deputy sheriff of Contra Costa county in charge of the sheriff's air posse.

EDWARDS' PATRIOTIC POSTERS APPROVED BY "ADE" SIEBERTS AND PALMER HOYT

A. G. "Ade" Sieberts, member of board of directors of the Oregon State Alumni Association and president and general manager of Edwards Furniture Company, inspects one of his company's latest outdoor bulletin boards with Palmer "Ep" Hoyt, state chairman of War Bond activities in Oregon, and publisher of the Oregonian.

A series of these boards have been located in strategic points in Portland, as an effort on the part of this popular furniture store to further the sale of war bonds. Knowing "Ade" as you do, you can bet he would be in there pitching with his employees on the big job confronting our nation today.
