**Oregon State University** serves the people of Oregon, the nation, and the world through education, research, and service.

## OSU MISSION

---

*Oregon State University serves the people of Oregon, the nation, and the world through education, research, and service.*

---

Oregon State University has a long, proud tradition of instruction, research, and service to Oregon and the local community. Because we are the state's Land Grant, Sea Grant, and Space Grant (designated in early 1991) university, our programs are tightly woven into the social and economic fabric of the state.

As the symbols on the front cover map of Oregon portrays, Oregon State University's mission radiates in all directions from the campus located in Corvallis. With the goal of providing the best possible educational opportunities, research efforts that meet social, intellectual and aesthetic needs, and a wide variety of extension services, Oregon State University is continuously reaching out to the citizens of Oregon.

Today, Oregon State University manages or operates 40 Extension Service Offices (one in each county), 10 Agricultural Experiment Stations, two Forests (McDonald and Dunn), the Hatfield Marine Science Center and Aquarium (in Newport), the Seafoods Laboratory (in Astoria), and the OSU Portland Center Office. Through the Office of Continuing Higher Education, in cooperation with the Communication Media Center, the university offers credit and non-credit courses that are delivered via instructional television to students throughout the state.

Today, Oregon State University's tradition of excellence in instruction, research, and service extends far beyond county and state boundaries. As a nationally ranked and internationally respected research institution, Oregon State University is committed to providing a wide array of high quality educational programs in the sciences, liberal arts, and selected professions. These academic programs are complimented by the wealth of information contributed to world knowledge through the efforts of pure and applied research, as well as the many contributions the university provides in the area of public service--the results of which benefit not only the citizens of Oregon and the United States, but other nations of the world as well.

## MISSION OF OREGON STATE UNIVERSITY

**OREGON STATE UNIVERSITY** serves the people of Oregon, the nation, and the world through education, research, and service.

Oregon State extends its programs throughout the world, and is committed to providing access and educational opportunities to minorities and to disabled and disadvantaged persons.

Oregon State has an inherent commitment to provide a comprehensive array of high-quality educational programs in the sciences, liberal arts, and selected professions. The University encourages students, both on and off campus, to develop an enriched awareness of themselves and their global environment.

Through research, Oregon State extends the frontiers of knowledge in the sciences, liberal arts, and in all aspects of natural, human, and economic resources. Oregon State contributes to the intellectual development and the economic and technological advancement of humankind.

As a Land Grant, Sea Grant, and Space Grant university, Oregon State has a special responsibility for education and research enabling the people of Oregon and the world to develop and utilize human, land, atmospheric, and oceanic resources. Unique programs of public service throughout Oregon supplement campus-based university teaching and research.

### OUR VALUES AND GUIDING PRINCIPLES

*Oregon State University is among the leading comprehensive teaching and research universities in the nation. Our mission as a land grant university is to serve the people of Oregon, the nation, and the world through education, research, and service. Through our dedicated teaching, through our pursuit of knowledge, and through our extended relationships to the broader society, we seek continually to improve our contributions to the general welfare.*

#### Values

How we accomplish our mission is as important as the mission itself. The following values are fundamental to our success:

*People*--Our people - students, faculty, staff, and alumni - are our strength. They are the source of our creativity, they determine our reputation, and they provide our vitality.

*Respect*--All our people are important contributors. Respect, humanity, and integrity are required in our treatment of each other.

*Openness*--In the classrooms, laboratories, studios, and field stations, our efforts are open to challenge and debate.

*Truth and Truths*--We seek truths in our pursuit of knowledge. But we know that there is no such thing as "the truth." Understandings in the sciences, arts, and humanities change. We challenge dogma when we encounter it in our classrooms, in our laboratories and studios, and in our role of serving the broader society.

#### Guiding Principles

- o Students are our most important clients. The quality and completeness of their education is our top priority.
- o We have a responsibility to society to contribute to its social, aesthetic, and economic well-being.
- o Our social responsibility extends to offering informed criticism even when that criticism may not be well received. We maintain an internal environment that will nurture this important contribution.
- o Flexibility, change, and constant improvement are essential to our continued success.
- o In instruction, research, and service activities, we honor and impart principles of academic honesty, freedom, and integrity.
- o Diversity is a key to our success. Not only are our doors open to men and women alike without regard to race, ethnicity, personal belief, disability, or sexual preference, but we also have a moral obligation to open the doors wider for any groups that are under-represented or that have suffered from discrimination.

## CHARTER DAY DOCUMENTS OF OREGON STATE UNIVERSITY

### Oregon Legislative Act

AN ACT to secure the Location of the Lands Donated by Congress to the State for an Agricultural College, and to establish such College.

*Be it enacted by Legislative Assembly of the State of Oregon:*

Section 1. That J. F. Miller, J. H. Douthit, and J. C. Avery are hereby constituted a Board of Commissioners, with power--

1. To locate all the lands to which this State is entitled by act of Congress, for the purpose of establishing an Agricultural College; and, as soon as such locations are made, to report the same to the Secretary of State;
2. To take into consideration the further organization and perfecting of a plan for the permanent establishment of such College, in accordance with the requirements of the Act of Congress making such donation, and report the same to the Governor by the first day of August, 1870.
3. To fill all vacancies in the College by appointment, that may occur in any Senatorial district under the provision of this Act.

Section 2. That, until other provisions are made, the CORVALLIS COLLEGE is hereby designated and adopted as the Agricultural College, in which all students sent under the provisions of this Act shall be instructed in all the arts, sciences, and other studies, in accordance with the requirements of the Act of Congress making such donation.

Section 3. Each State Senator is hereby authorized and empowered to select one student, not less than sixteen years of age, who shall be received by the Faculty of said College, and instructed by them in the manner provided in this Act, for the space of two years, unless such student shall be discharged for misconduct; *Provided, however,* That this Act shall not be binding until the Trustees of said College shall adopt a resolution, and file a certified copy thereof with the Secretary of State, assenting to and agreeing on their part to faithfully carry out the provisions of this act.

Section 4. Upon the certificate of the President of the Corvallis College that any student so appointed is in attendance at school, it shall be the duty of the Secretary of State, at the middle of each quarter, to draw his warrant upon the State Treasurer in favor of the said College for the sum of \$11.25 for each student so attending. And it shall be the duty of the State Treasurer to pay such warrants out of any funds in his hands not otherwise appropriated, and a separate account of such funds shall be kept, and designated the "agricultural college funds."

Section 5. All funds paid out in accordance with the provisions of the foregoing sections, with interest thereon at ten per cent, per annum, shall be refunded to the State Treasurer from the first interest that shall accrue from the proceeds of the sale of any lands located for said College.

Section 6. The Board of Commissioners hereby created shall make all the reports required by law, and shall each receive a salary of five dollars per day for the number of days actually employed, to be paid upon the sworn statement of such Commissioner.

WHEREAS, It appears that, unless an agricultural college is provided by law at this session of the Legislature, the grant by Congress will be lost, therefore this Act shall take effect from the date of its passage.

Approved October 27, A.D., 1868

### Corvallis College Board of Trustees Acceptance

WHEREAS, The Legislative Assembly of the State of Oregon did on the twenty-fifth day of October A.D. 1868 pass an Act entitled an "Act to secure the location of the lands donated to the State for an Agricultural College and to establish such College" the same having been approved October 27th.

And WHEREAS, Said Legislative Assembly did designated and adopt Corvallis College as the Agricultural College in which all students sent under the provisions of said Act should be instructed in all the arts, sciences, and other studies in accordance with the requirements of the Act of Congress making such donation.

THEREFORE, Be it resolved by the Trustees of Corvallis College that said Act with all its privileges and requirements is hereby accepted; and we promise on our part to faithfully carry out the provisions of said Act.

Approved October 31, 1868

**OSU OFF-CAMPUS IN OREGON (Continued)****OSU Extension Service**

The OSU Extension Service is the university's off-campus, informal education link with the people of Oregon. Extension Service programs help people solve problems and improve skills in the areas of agriculture, forestry, marine resources, energy, community development, home economics, and youth development (4-H).

Some 170 Extension faculty are located in 40 offices around the state, including at least one office in each Oregon county. Another 90 or so are in 9 OSU colleges where they work side-by-side with their laboratory and classroom colleagues. These professionals are the eyes and ears of the university, working closely with Oregonians in all walks of life. They listen to what Oregonians are saying, and provide feedback to the university for determining research needs.

Extension programs assist Oregon's economy by helping to keep the natural resource base strong and viable. Extension faculty help farmers, foresters, and fishers realize their potentials while operating safely and without harming the environment. They help families to reach health, nutrition, and financial goals; and they conduct programs that address family issues, such as child abuse and teenage pregnancy. They help youth master new skills and develop their leadership potential. And they help communities by building leadership and providing information used in solving complex issues.

Extension and the nearly 75,000 volunteers they recruit and train reach out to Oregonians to the tune of some 700,000 personal contacts each year via telephone, meetings, workshops, demonstrations, tours, and short courses. Oregonians benefit from the information contained in the nearly 700,000 Extension publications distributed each year. And they learn from the hundreds of slide sets, videotapes, satellite uplinks, radio programs, and news releases developed by Extension faculty.

OSU Extension has been a part of the university for more than 75 years. It was officially created in 1911 by action of the Oregon Legislature, and recognized nationally in 1914 with the Smith-Lever Act. Funding for Extension programs comes from federal, state, and county government, and from fees, grants and contracts.

**Endnotes**

- <sup>1</sup> The Ed.M. degree is granted through the College of Education.
- <sup>2</sup> The Departments of Animal Science and Poultry Science will merge to become the Department of Animal Science, effective July 1, 1991.
- <sup>3</sup> Degrees are granted through the College of Science.
- <sup>4</sup> Effective Fall Term 1991, the undergraduate degree program (B.S.) in Poultry Science will become an option under Animal Science. The M.S. and Ph.D. degree programs will retain the title Poultry Science.
- <sup>5</sup> Diplomas are entitled Business Administration.
- <sup>6</sup> The B.A. and B.S. programs for all but Technology Education will terminate in June 1991 for Elementary and Secondary Education. Only those undergraduate students currently enrolled who can complete their degree program by the June, 1991 remain at the undergraduate level.
- <sup>7</sup> Degrees are in individual majors listed below.
- <sup>8</sup> Diplomas for the masters degree programs are entitled Business Education.
- <sup>9</sup> The doctorate programs and diploma are entitled Education.
- <sup>10</sup> The major and diplomas are entitled Education.
- <sup>11</sup> The Ph.D. program was approved by OSBHE in January, 1991 and becomes effective September, 1991.
- <sup>12</sup> The M.A./M.S. and Ph.D. degrees are part of a joint program (with the Colleges of Agriculture and Forestry) in applied economics.
- <sup>13</sup> The M.A. and M.S. degrees in Scientific and Technical Communication are awarded through a joint program of the departments of English, Journalism, and Speech Communication.
- <sup>14</sup> Diplomas are entitled Speech Communication.

## OREGON STATE UNIVERSITY ATHLETIC FACTS

- ▶ Oregon State's 15 sports are recognized at the Division I level of the National Collegiate Athletic Association (NCAA).
- ▶ In 1915, OSU became a charter member of the Pacific Coast (Athletic) Conference, now the Pacific-10 Conference. The "Pac-10" added women's sports to its organization in 1986.
- ▶ Oregon State's cumulative grade point average for student-athletes in all sports is 2.75 and has exceeded the general student body grade point average in recent years.
- ▶ The work done in compliance and academic services within OSU athletics has provided a model by which the NCAA is establishing computer software to handle these facets of athletic administration.
- ▶ The NCAA has also recognized the research done jointly by the OSU School of Health and Human Performance and the Athletic Department's training staff with regards to drug testing and drug education programs. OSU was one of two schools in the country awarded a substantial grant to continue this work.
- ▶ Former **baseball** pitcher Knute Buehler (1983-84) of Roseburg, OR was the first student from Oregon State to study as a Rhodes Scholar. He went on to Oxford University. **Crew** lays claim to the only other OSU graduate to earn a Rhodes Scholarship--Wes Sand.
- ▶ OSU has one of the richest collegiate **men's basketball** traditions in the nation with the fifth winningest program of all-time amongst Division I teams. Two Basketball Hall of Fame coaches, Amory "Slats" Gill and Ralph Miller, have produced the vast majority of the more than 1,400 victories.
- ▶ OSU **football** tradition has more winning seasons than losing ones and now boasts an outstanding first-year coach in Jerry Pettibone, dubbed the Best College Recruiter in America by *Sports Illustrated* in 1984. The football program has to its credit 20 former All-Americans and, in Terry Baker, a rare west coast Heisman Trophy winner and *Sports Illustrated's* 1962 Sportsman of the Year. He played for coach Tommy Prothro, who led the Beavers to three bowl games, two of them Rose Bowl appearances.
- ▶ **Women's gymnastics** drew over 16,000 fans at home during the 1990 NCAA Women's Gymnastics National Championships, and Joy Selig won two national titles at the event. The 1991 senior is a three-time national champion, five-time All-American, Academic All-American, NCAA record-holder and owns a monopoly on most OSU gymnastics standards.

1989-90

✓ 3,842 eligible  
students during  
summer 1989

The Student Health Center (SHC) functions to provide medical and health education services to registered students. The SHC has the capability to meet most health care needs of the students. Services provided include Outpatient Clinic, X-ray, Physical Therapy, Health Education, Mental Health Clinic, Gynecology, Immunization and Travel Clinic, Sexual Health Clinic, a Pharmacy, and an Infirmary. During the academic year 1989-90, 9,902 (66.3%) of eligible students used the health center for a total of 40,542 visits and 31,718 other direct services. During the summer of 1989, 674 students (17.5% of those eligible) used the facilities for a total of 1,362 visits.

Outpatient visits to the Infirmary (a 24-hour a day operation) totaled 2,107 (down 5.8% from 1988-89). Students admitted as inpatients totaled 163 during 1989-90. A small percentage, 6.7%, were admitted for mental health reasons. The average infirmary stay was 1.45 days overall.

# Department of Public Safety

## 1990

The Department of Public Safety provides security and traffic services to the Oregon State University Campus. The Security Division provides safety escorts, after hours motorist assists, medical transports and many other services for the campus community, visitors and guests. The traffic Division provides a comprehensive parking program for the university, enforces parking regulations and is responsible for the maintenance and efficient use of available parking areas on campus.

The Oregon State Police/University Patrol Office is responsible for the law enforcement function on campus. The University Police are responsible for all crime prevention, criminal investigations, traffic enforcement and many other services for the campus community, visitors and guests.

During the year 1990 the Oregon State Police/University Patrol Office responded to 909 criminal calls.

# Educational Opportunities Program Fall Term 1990

Oregon State University's Educational Opportunity Program (EOP) is designed to provide special assistance to those who have traditionally been denied equal access to education. EOP serves students who meet the standard University admission requirements as well as those not meeting the requirements who are recognized as having the potential to complete college successfully.

Services EOP offers include information about: financial aid, academic placement testing, tutoring, counseling, EOP classes, academic advising, and academic achievement awards. The full scope of the applicant's opportunities and responsibilities is clarified to prevent misunderstanding and to provide students with as much self-assurance as possible after official admission and acceptance into the program.

After arrival on campus, the particular needs of the individual student are identified from placement tests, academic records, and information obtained from the student. An academic plan of tutoring, counseling, and advising is developed to determine the nature of the student's participation in EOP. The plan is subject to continual reexamination and may be revised at any time by the student and staff together.

Headquarters of the Educational Opportunities Program are located in Waldo Hall 337. The Director is Lawrence Griggs.

## Counseling Center

The Counseling Center provides educational-vocational and personal counseling. Students may secure help in selecting a college major or vocational goal or in deciding on a new major. Personal counseling assists students in focusing on solutions to developmental or situational problems. Help with such matters as stress management, alcohol or drug related troubles, depression and anxiety, identity difficulties, or loss and/or separation is provided.

The Counseling Center also maintains a library of information about numerous occupations and maintains a number of college catalogs. At various times throughout the academic year, counselors conduct small group sessions on topics such as bulimia and stress management. Consultation with on-campus living groups is also available on request.

Personality and interest inventory testing to help in educational and career planning is offered at a nominal cost. Several national tests such as the ACT, SAT, GRE, MCAT, TOEFL, GMAT, NET, VAT, CBEST, and PCAT are also administered. During the 89-90 academic year, the Counseling Center administered over 4,200 tests.

The University Exploratory Studies Program (UESP) is coordinated by the Counseling Center. UESP is a non-degree granting program for lower division students who are undecided about their major field of study. Exploring several areas through a variety of classes and taking advantage of special counseling may help undecided students to make major career choices.

## University Computing Services

University Computing Services (UCS) provides computational services, systems planning and development, consulting, training, facilities management, installation and maintenance services for computers ranging from microcomputers to supercomputers.

UCS operates a Control Data Corporation Cyber 960, a Digital Equipment Corporation VAX 11/780, an IBM 4381 and two Floating Point supercomputers. Three laboratories, arranged for classroom use, are available for faculty, staff, and student use. Each contain 21 systems and are connected to the campus broadband network. One is IBM AT compatible based, one is IBM PS/2 based, and one is Apple Macintosh SE based. University Computing Services also operates a Faculty Development Laboratory containing state-of-the-art equipment for faculty development purposes. UCS provides facilities management services for two student microcomputer facilities. One in Kerr Library provides 24 hour per day, seven days per week accessibility. The Kerr facility contains 66 Apple Macintosh systems, 33 IBM PS/2 systems and ten laser printers. Another in Sackett Residence Hall provides microcomputer access to residence hall students ten hours per day, seven days per week. Both facilities are networked.

University Computing Services operates the campuswide broadband network permitting direct communication between campus computing facilities and workstations. The network supports connections to external networks providing access to national facilities and distribution of electronic mail. University Computing Services is a member of NorthWestNet which provides terrestrial based, high-speed network services between Pacific Northwest research institutions and also NSFnet.

Workshops are conducted by UCS on a variety of software products. Technical consulting services are provided for the formulation and analysis of problems, and consideration of new computing systems and services.

## OSU PORTLAND CENTER

The **OSU Portland Center** is the home for Oregon State University services in the Portland metropolitan area. In carrying out this role it provides services to both the public and to OSU faculty and staff.

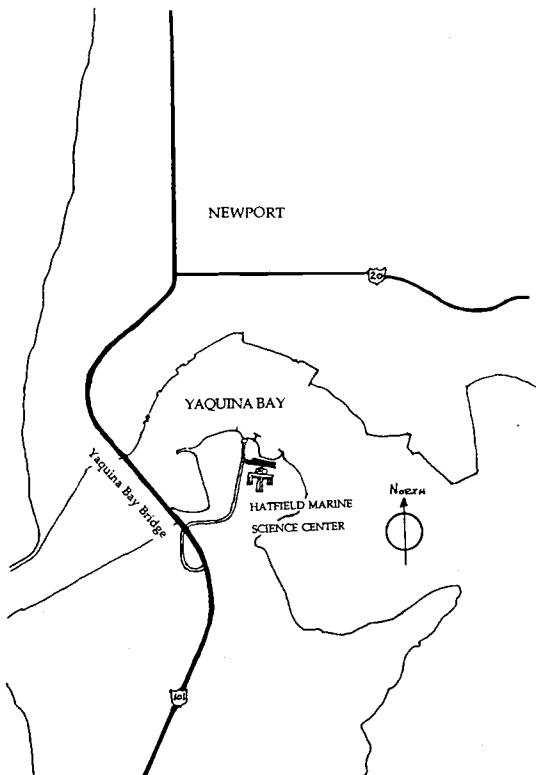

For Oregon State's faculty and staff, the OSU Portland Center functions as a home base for their activities in the Portland area. Faculty are constantly visiting Portland to maintain OSU's close working relationships with the state's agricultural, forestry, and high-technology industries, and to strengthen its leadership in international trade and development. The OSU Portland Center serves as a home-away-from-home for such faculty, providing them with an office and rooms for meetings and small conferences.

For the public, the OSU Portland Center serves as an information center for prospective students and for citizens seeking Extension Service publications. It also provides a headquarter and activities center for OSU's 22,000 Portland-area alumni. The Center's meeting rooms support externally-focused activities of OSU's Alumni Association, Development Office, Beaver Club, and Continuing Higher Education specialists.

## OSU HATFIELD MARINE SCIENCE CENTER

The Hatfield Marine Science Center the hub of Oregon State University's coastal research, teaching and marine extension activities. The public aquarium is a window to the ocean for over 400,000 visitors each year. Newport is home post for the National Science Foundation's 180-foot WECOMA, operated by the College of Oceanography.

The Center houses marine-related research projects of Oregon State University, the Coastal Oregon Marine Experiment Station, the Coastal Oregon Productivity Enhancement Program, National Oceanic and Atmospheric Administration, National Marine Fisheries Service, the Environmental Protection Agency, Oregon Department of Fish and Wildlife, and other state and federal agencies.

The instructional program focuses on aquaculture and marine biological aspects of tidal, estuarine and nearshore marine environments. Extension work concentrates on programs of interest to the general public and to the coastal fishing industry. Much of the research and extension work of the OSU Sea Grant College Program is conducted at the Center.

## OREGON STATE UNIVERSITY PRESS

The Oregon State University Press -- one of only four university presses in the Pacific Northwest -- is a publisher of scholarly books. The Press, founded in 1961, publishes books on subjects ranging from aquaculture to zoology, with a special emphasis on books of particular importance to Oregon and the Pacific Northwest.

# OSU Foundation Highlights

## Fiscal Year 1989-90

The OSU Foundation was incorporated as a nonprofit corporation on October 11, 1947. Its purpose is to meet the need for a legally sound, inclusive, charitable agency apart from -- but working in close coordination with -- the university.

The Foundation receives gifts of cash, securities, and real and personal property, as well as deferred gifts such as bequests, life insurance, and life income agreements, to support the university's many programs.

The Office of Development builds relationships with individuals, corporations, and foundations to encourage them to support the university with contributions of both time and financial resources. The staff works with the campus community to develop fund-raising programs to maximize private financial support for the university.

### Significant Events of 1989-90

- The Wayne and Gladys Valley Foundation completed funding a \$1.5 million endowment for the Wayne and Gladys Valley Professorship in Marine Biology. The fund will be used for salaries, new equipment, and laboratory renovation.
- OSU will be fundraising to expand Kerr Library's central library which is currently too small to adequately handle the volume of use by faculty, staff, and students.
- The College of Home Economics has seen the beginning construction of the Mercedes A. Bates Family Study Center. Ground breaking ceremonies were January 25, 1991 and construction is expected to be completed June, 1991.
- Several donors contributed \$1.75 million to support the construction of a new football locker room and weight training facility at the north end of Parker Stadium. The End Zone Facility will help to alleviate extremely overcrowded conditions in Gill Coliseum.

## OREGON STATE UNIVERSITY DISTINGUISHED SERVICE AWARD

Upon recommendation of the Faculty Recognition and Awards Committee, the Faculty Senate of Oregon State University has selected the following recipients for the Oregon State University Distinguished Service Award. This award is given to persons, and in some cases organizations, who have made exceptional contributions, or who have rendered unusual service, to society. Contributions beyond OSU, to the state, the nation, and the world are critical. Traditionally, this is the highest recognition award given by the University. The award is presented during Commencement in June.

**OREGON STATE UNIVERSITY  
ELIZABETH P. RITCHIE  
DISTINGUISHED PROFESSOR AWARD**

This award is to encourage outstanding undergraduate teaching and is supported by a gift to the OSU Foundation from Elizabeth P. Ritchie, OSU Kerr Library staff member from 1920-1944. Nominations are reviewed by a student-faculty committee. This is a campus-wide recognition, including fixed-term and part-time faculty. The award provides \$2,500 to the faculty member for continued development as a teacher and scholar, and \$500 to the recipient's department to support improvement of undergraduate education. Recipient of the Elizabeth P. Ritchie award is automatically nominated for the Professor of the Year award sponsored by the Council for Advancement and Support of Education (C.A.S.E.).

## OREGON STATE UNIVERSITY DISTINGUISHED PROFESSOR AWARD

Recognition is given to those individuals who have achieved national/international stature as a result of their contributions to scholarship and research and whose work has been notably influential in their fields of specialization. Recognition may also be based on truly outstanding performance in teaching, e.g. accomplishments as a "master teacher" along with the publication of research on instruction, publication of particularly notable textbooks, or other scholarly activity which contributes substantially to instruction. The title brings with it a permanent increase in the recipient's base salary of \$3,000 and the title of "Distinguished Professor" for as long as the recipient is employed by Oregon State University.

## OREGON STATE UNIVERSITY BURLINGTON RESOURCES FOUNDATION FACULTY ACHIEVEMENT AWARD

The Burlington Resources Foundation Faculty Achievement Award recognizes unusually significant and meritorious achievement in teaching or in scholarship which enhances the effectiveness of instruction. The emphasis is on actual classroom instruction. The award is for full-time faculty who devote a substantial amount of their time to teaching. This includes tenured, tenure-track, and fixed-term faculty. Selection of the recipients is based only on achievements during the previous academic year. The awards of \$2,500 each are supported by a grant from the Burlington Resources Foundation.

## OREGON STATE UNIVERSITY DAR REESE EXCELLENCE IN ADVISING AWARD

The Dar Reese Excellence in Advising Award was established to recognize outstanding advising on the OSU campus, as exemplified by H. Darwin "Dar" Reese. Dr. Reese, a long-time Department of Chemistry faculty member, was well known at Oregon State University for his thoughtful and caring advising of undergraduate students and for his enthusiasm and concern for undergraduate instruction. His dedication to students establishes an ideal to which others might strive. The award provides \$1,000 to the faculty member.

**QUARTER**

An academic calendar term which typically has a 10 week period of instruction.

**ROOM TYPES**

Classroom Facilities: Classroom facilities are those types of spaces that are subject to regular assignment by the Registrar and are a necessary part of the instructional facilities. Included in this category are classrooms, seminar rooms, and areas directly serving a classroom, such as projection booths, closets, prep rooms, and stockrooms.

**ROOM TYPES (continued)**

**Laboratory Facilities:** Laboratory facilities are those types of spaces that are equipped for a special purpose such that they are not normally used for regular classrooms. Included in this category are class laboratories, special class laboratories, studios, individual study labs, student practice rooms, non-class laboratories, and service areas, such as photo darkrooms, animal quarter, prep rooms, refrigeration rooms, and stockrooms.

**Office Facilities:** Office facilities are those types of spaces that consist of rooms or suites of rooms with office type equipment that are assigned to one or more persons primarily for the performance of administrative, clerical, or faculty duties other than the meeting of classes. Included are administrative offices, faculty offices, staff offices, graduate student offices, office-laboratories and related areas, such as conference rooms, workrooms, file rooms, and waiting-reception areas.

**Study Facilities:** Study facilities are those types of spaces used for the collection, storage, circulation, and use of books, periodicals, manuscripts, and other reading or reference materials. Examples of this type of space include study rooms, listening rooms, reading rooms, library stacks, library processing rooms, and card catalogue areas.

**Special Use Facilities:** Special use facilities are those types of spaces that are generally thought of and referred to as instructional related space. Their main function is to support the instructional programs of an institution. These types of spaces include athletic-physical education facilities, audio-visual, radio, TV facilities, clinic facilities - non-medical (speech, hearing, reading rooms), agriculture field buildings, and greenhouses.

**General Use Facilities:** General use facilities are those types of spaces generally associated with student-related activities. These general use facilities are the supporting services for the general student body. Typical spaces include auditoriums, theaters, cafeterias, snack bars, lounges, bookstore space, recreation facilities, and meeting rooms.

**Support Facilities:** Support facilities are those types of spaces that generally support the entire institution by providing the necessary services and facilities for the day-to-day operation of the institution. Types of space generally include computer facilities, shop facilities, warehouse storage, and vehicle storage.

**Health Care Facilities:** Health care facilities are those types of spaces that are associated with student health facilities and veterinary facilities. Typical spaces include patient rooms, surgical rooms, examining rooms, and diagnostic rooms.

**Residential Facilities:** Residential facilities are those spaces used to house undergraduate students and occasionally faculty or staff members. This category does not include residences that are occupied by non-institutional personnel. Included in this category are sleep-study rooms, guest rooms, food service facilities in residence facilities, and resident lounges.

**Nonassignable Areas:** Non-assigned areas are those types of spaces that are necessary for the general use and operation of a building but are not assigned to any organizational unit. These include custodial areas, circulation areas (halls, elevators, lobbies, stairs), mechanical-electrical rooms, and restrooms.

## METHODOLOGY

### Faculty

Source of data - mid-fiscal year operational file. The individual records are identical to those used to generate the annual Academic Staff Statistic reports. All data is taken from the OSSHE Honeywell Personnel Database files which were downloaded in December, 1990.

Age - calculated by subtracting the birth date from December 31, 1990.

Degree groupings (as reported in OSBHE Financial Administration Standard Operating Manual) -

Doctorate: PHD, DED, DSC, MD, MD-PHD, DMD/DDS, DMD/DDS - MS,  
DMD/DDS - PHD, doctoral - other.

Master: MA, MS, MS-RN, master - other.

Baccalaureate: BA, BS, bachelor - other.

Other degree: certificate or diploma, no degree, unknown - other.

Salary rates - 12 month base annual salary rates have been converted to 9-month by dividing salary rate by 1.222222.

Tenured - those faculty holding indefinite tenure.

Years of service - calculated by subtracting the service anniversary date year from December 31, 1990.

### Students

Course enrollment by class level - number of seniors includes post-baccalaureates. Undergraduate specials and graduate specials are excluded from graphs. A special student status is given to those students who are not planning to complete degree requirements or who do not meet regular admission requirements.

#### Class standings

<b>Freshman</b>	students with fewer than 45 hours of credit.
<b>Sophomore</b>	students with at least 45 hours of credit and fewer than 90 hours of credit.
<b>Junior</b>	students with at least 90 hours credit and fewer than 135 hours of credit or students with 135 or more credits and a grade point average of less than 2.0.
<b>Senior</b>	students with at least 135 hours of credit and a grade point average of at least 2.0.

FTE - Student FTE is calculated by dividing total student credit hours for a given class level by a constant. These constants by class level are:

▶ Undergraduate	15 credit hours
▶ Post-baccalaureate Non-graduate	15 credit hours
▶ Master	12 credit hours
▶ Doctoral	9 credit hours
▶ Post-baccalaureate Graduate	12 credit hours
▶ Doctor of Veterinary Medicine	1 headcount = 1 FTE
▶ Non-admitted Undergraduate	15 credit hours
▶ Non-admitted Graduate	12 credit hours

## OSU SEAL

The **Oregon State University Seal** was adopted by the State Agricultural College of Oregon Board of Regents on June 21, 1888. The seal is basically the same as the State of Oregon seal except that the legend which encircles the escutcheon, or shield, has been changed to "OREGON STATE UNIVERSITY...1868". In addition, the OSU seal uses a wreath of Oregon holly (Oregon grape) rather than the 33 stars used in the State of Oregon seal.

Originally, the seal was to be used to affix ownership and/or receipt of all official deeds, papers, and documents directed by the Board; and only in the presence of and signed by the President and Secretary of the Board of Regents (Article VIII, Board of Regents By-Laws).

The elements in common with the State of Oregon seal include the following:

- ▶ a central escutcheon that is divided by an ordinary, or ribbon, with the inscription "The Union";
- ▶ above the legend there are represented; mountains, the seashore, pine trees (forests), an elk with branching antlers, and a covered emigrant wagon being pulled westward by two oxen;
- ▶ the Pacific Ocean, with a British man-of-war departing signifying the departure of British influence in the region, an American merchant steamer arriving signifying the rise of American power and commerce, and the setting sun in the distant horizon (a westward view toward the Pacific Basin);
- ▶ below the ordinary there is a quartering with a sheaf of grain (wheat), a plow, and a pickax which represent Oregon's mining and agricultural resources;
- ▶ the crest is the American (Bald) Eagle.
