# HAPPENINGS on the HILL

Breaks OSC Enrollment

A NEW ALL-TIME ENROLLMENT record was set during registration week when Irene Nelson, a 17-year-old Portland freshman, became enrollee number 7677. Miss Nelson is a graduate of Beaverton high school. With her in the above picture is Pat Mitchell, assistant in the registrar's office. OSC's total enrollment almost reached the 8000 mark. Estimates by the administration had indicated 8400 would enroll but something happened and 7979 was the final count.

DR. R. E. FORE, professor of farm crops, is now in Thailand on a two-year assignment as a member of the OSC technical assistance team to Kasetsart university. He will work with agriculture leaders in expansion of agronomy teaching and research program.

OSC has provided technical assistance to Kasetsart university since 1954. Under the program, OSC maintains a technical aid team at the university and brings members of the Kasetsart staff to this country for training.

Three other staff members are at the Thai school. They are Godfrey Hoerner, plant pathologist and chief of party; H. Darwin Reese, chemist; and C. V. Plath, agricultural economist.

Three staff members returned in September after completing assignments. They are Ray Yoder, forestry; Agnes Kolshorn, home economics; and E. E. Easton, business administration.

OREGON STATE'S long-standing "no fussing" tradition for athletic events was discontinued on a trial basis for the OSC-California football game. The decision was made by the ASOSC senate with the hope that a mixed section of men and women wearing white shirts and blouses will bring about better quality card stunts at the football games.

The mixed seating arrangement was intended to give married students an opportunity to participate in the card section. The student heading the card stunts wanted to fill up the large stadium sections with enough students to do a good job with the cards.

The "fussing" at athletic events is now

being studied and if it is deemed satisfactory during this football season there will undoubtedly be more pressure to abolish the "no fussing" tradition.

EZRA BENSON, U.S. secretary of agriculture, visited the campus in early October while on a westward tour of the country. He visited research laboratories of the department of food and dairy technology and saw exhibits of the new "spreadable" butter, irradiated seafoods, dehydrated cherries and green beans that may be stored for extended periods at room temperatures; freeze-dried ham; and new filbert products.

Secretary Benson said at OSC that research and teaching in agriculture have done more to improve farming in America during the past 75 years than anything else. He said that "*freedom farmers have had to make their own decisions about their farms and crops*" has been a contributing factor to the advancement of agriculture.

THE CAMPUS has been well visited by other notables during this election season. Oregon's senator, Wayne Morse spoke in the home economics auditorium in October and so did Attorney General Robert Y. Thornton, who is campaigning for a seat in the U.S. house of representatives.

Governor Robert Holmes addresses the college community at a convocation in the coliseum as did Secretary of State Mark Hatfield, who is desirous of taking over the governorship in Oregon in the coming election.

SIX OSC MEN have been placed on last-chance conduct probation for the remainder of this year for distributing off-college leaflets on the University of Oregon campus during the first week in October. The group includes five freshmen and one sophomore. The six students were picked up by Eugene police on an after-hours charge

Dr. Paul Ritcher, head of the entomology department, is now in New Delhi, India. He's in India under a Rockefeller grant with his wife and daughter, Susan.

at 2 a.m. They offered an excuse for their presence in Eugene during that hour so were released.

Shortly after 3 a.m. they were picked up, this time after they had distributed the leaflets. The OSC students had apparently retaliated for the distribution of yellow and green leaflets distributed on the OSC campus prior to the OSC-UCLA game.

OSC's carillon bell fund drive, aimed at getting \$32,000 for the installation of the bells on campus, has acquired \$9000 in cash and pledges from alumni, students, and friends of the college. The drive has been moving slowly and the installation date of next June will probably not be realized. Alumni in Portland are working on a program to solicit money from firms in Portland and the OSC Mother's club is also planning to help with the project.

REMEMBER reading about an old 1885 Oregon law that was uncovered recently which would allow state legislators to nominate students for a scholarship to Oregon State? Well at first the OSC administration didn't think there would be too much done with the old law but the state's law makers have had a field day by nominating and getting awarded 105 state scholarships out of a possible 126. The scholarships are worth \$138 to each student. No one knows if the old law will be amended in the next legislative session since the legislators have apparently enjoyed their part in making these scholarships available. The 1885 law is restrictive in that it allows a scholarship only to OSC and to no other state school and if nothing else is changed this is one aspect of the law which will probably receive attention.

HOMEcoming, November 21-22, has been tabbed with the theme of "Beaver Tales" to honor OSC alumni who will be returning to the campus to meet friends and to see the Oregon-OSC football game. Another special event during Homecoming will be the 30th anniversary of the Memorial Union building.

This year house signs are again returning to favor in place of the float parade of the past two years. The student talent show held on November 21 will be around two hours long and 15 top acts have been selected for showing. A noise parade and bonfire will be held also on Friday night. A tentative schedule for the weekend is: Friday—registration, noise parade, rally at coliseum, Rook bonfire, Midnight show, house sign judging. Saturday—house sign judging, alumni barbecue, OSC-UO football game, Homecoming dance with Hal McIntyre's band.

A TOTAL OF 565 MEN were pledged to fraternities at the climax of two weeks of rushing during fall term. There were 652 men rushing. The number of resident rushees jumped this fall to 531 from 507 a year ago. Of these, 76 percent pledged the house at which they stayed, 18 percent pledged other houses and six percent did not pledge. Ten percent of the pledges are living at dormitories and two percent residing at coop houses or at home.

Potpouri: OSC will construct a timber bridge across Oak creek to prevent traffic problems during athletic events. Oak creek runs just behind Parker stadium and the bridge will be an extension of the Mall on

the south and will connect with Philomath road.

The senior section of the 1959 Beaver year-book will be in natural color. Oregon State will be the second university in the nation to have seniors photographed in color. Each senior sitting will cost \$2.85.

Adin Hester, '62, has been elected national president of the Future Farmers of America. The 19-year-old Hester is majoring in agricultural education and hails from Aurora. He is the 1957 FFA public speaking champion and will drop out of school winter term to travel over the country as the FFA's top officer.

A cut away Oldsmobile chassis valued at \$20,000 has been given to the department of mechanical engineering by the General Motors Corp. The special display chassis is a 1957 model. All parts are chrome plated. It is also animated with an electric motor to turn the cams and valves. It is one of four display chassis which the GM company has placed in universities throughout the nation.

OSC's humor magazine, the Beaver Dam, returned to the news stands in October for the first time since last spring.

Alpha Chi Omega sorority sponsored a street dance October 23 to welcome Chi Omega sorority into their new neighborhood and to build spirit for the Washington football game. Chi Omega sorority just finished construction of its new house.

Oregon State's 7979 enrollment is made up of 5847 men and 2132 women this term. The freshman class is the largest with 2129. Sophomores had 2056, the juniors 1631, and seniors 1477. Graduates totaled 679. The School of Engineering leads all schools with 1770 students enrolled. Other schools follow in this order. Science, 1347; business and technology, 1055; education, 1050; agriculture, 836; lower division, 745; home economics, 509; forestry, 370; pharmacy, 244, unclassified, 47.

Students trying to learn the Russian language are hindered by the shortage of beginning Russian textbooks, according to Mrs. A. Jurgenson, assistant professor of modern language. An unusually large enrollment in the classes has caused a critical book shortage.

**B**ASIC RESEARCH that may link an individual's vitamin requirements to inherited function of key body glands has been launched by a team of Oregon State college agricultural experiment station scientists.

The three-year study into relationships between nutrition, inheritance, and glands that regulate body chemistry will be financed with annual grants of \$16,000 from the U.S. department of health, education, and welfare.

At present, little is known of the complex body activities that apparently cause wide variation in individual vitamin requirements.

OSC scientists cooperating in the trials are Robert W. Mason and Hugo Krueger, physiologists; Ralph Bogart, geneticist; and J. E. Oldfield, nutritionist.

Basic research with white mice will focus primarily on vitamin requirements as affected by thyroid gland activity. Inherited behavior of other endocrine glands and possible effects on vitamin needs also will be studied.

**A** PROGRAM of basic research on variations in Douglas fir grown in different sections of the Northwest has been launched at OSC with the long-range objective being de-

A serene lower campus basks in the late afternoon sun of a warm autumn day in western Oregon. Hidden behind the trees is old Benton Hall. The goal post is for intramural play and is new this year.

velopment of better fir trees for the future.

Douglas fir was simply Douglas fir 50 years ago but that is no longer true, Dr. Helge Irgens-Moller, forest geneticist and research leader, points out. Today, it is recognized that there are great variations within the species and that seed from one region may not be suited for use in another depending on climate, and other environmental factors.

Looking ahead, forest geneticists see tremendous potential for improvement of trees, he continued. Rate of survival, growth rate, and wood quality all can likely be made better by applying the principles of plant breeding that have brought such spectacular advances in farm crops, Irgens-Moller believes.

Before such a program of "applied research" can get underway, however, a vast amount of basic research must be done on Douglas fir and other species. The new study on variation in Douglas fir is designed to provide some of that information. The project is supported by a \$12,400 three-year grant from the National Science Foundation.

## Faculty News

**T**WO OSC PROFESSORS, Dr. J. Granville Jensen and Dr. Richard Highsmith Jr., are authors of a new college textbook, "Geography of Commodity Production." The 450 page book was published by the Lippincott company as the second in its new college geography series. The book provides a practical appraisal of all world commodities, viewed in terms of world significance and trends, factors of production, world production, world trade, and quantity by nations and regions.

Five new faculty members were added this year to the geography staff. They are Paul Tschirley, James T. Jack, Neil Wyatt, Kenneth Hammond, and Ronald Mercer.

## Another Book

Dr. J. G. Knudsen, professor chemical engineering, and Dr. D. L. Katz, of the department of chemical engineering at the University of Michigan, have written a book on "Fluid Dynamics and Heat Transfer."

The book, published by McGraw-Hill is part of an engineering series and is a graduate text covering both the theoretical and practical aspects of fluid dynamics and of heat transfer.

## Awarded Grant

Dr. Chih Wang, professor of chemistry, and Dr. C. M. Gilmour, professor of bacteriology, were awarded a five-year extension on a grant given them by the National Institute of Health, public health service, in 1956. They are studying the comparative carbohydrate metabolism of micro-organisms. The extension, which will begin in 1960 and end in 1965, is \$60,000. Two years ago \$30,000 was awarded to them for three years.

Dr. J. C. Miller, new head of the animal husbandry department, was honored at a banquet sponsored by the cattle industry at the Texas state fair. He received the first distinguished service awards ever presented by the Texas and Southwestern Cattle Raisers association.

New professor of German this year is Dr. Maria Uher. Dr. Uher is at OSC on a Fulbright fellowship from Vienna, Austria.

# INSIDE

THE ALUMNI OFFICE has always encouraged communication of ideas and thoughts from among OSC's vast alumni body. And recent letters, both signed and anonymous, have been interesting in the range of topics from what is the matter with football, to liberal arts, state system of higher education, and other assorted topics.

We get quite a few clippings from Southern California newspapers sent in by alums. So we're pretty well informed on what goes on down there. One alumnus wanted to know why OSC is so fat headed that the football team came down to Los Angeles to play USC in an over-confident frame of mind. He sent newspaper clippings to show that even L.A. sports writers thought OSC would walk over Southern Cal.

OSC, of course, took a 21-0 whipping. But the fact remains that for once our football reputation has been so enormous that we've actually overwhelmed the usually cynical L.A. sporting fraternity.

Of course, here at OSC we must admit

that we didn't treat UCLA very well when that member of the "Big Four" came to play us in Parker stadium. OSC students carried a banner around the stadium indicating that UCLA would take home its ball and wouldn't play with us if they couldn't dominate the football scene.

Our sister university at Eugene plastered a satisfying 25-0 defeat on Southern California too in the final season of PCC play. We love you, members of the Big Four, but if our athletic association is to stop this year we want you to know that the Northwest can have some pretty good athletic teams.

OSC'S ENROLLMENT went up only about four percent this year with a total of 7979 students enrolled. This might come as a surprise, but Oregon State's freshman class had the lowest percentage of increase of any college in the state system of higher education.

Even though our enrollment didn't zoom up as much as predicted, the 7979 students

constitute a new record in the college's history. People concerned with these things on the campus, feel that nobody at OSC did much to encourage enrollment this year. There are a number of incidents reported (some from alumni) that prospective students attempting to enroll didn't hear from OSC for a long period of time to see if they were accepted.

The registrar's office says that because of an error somewhere along the line, that perhaps one percent of the prospective students don't actually hear from OSC within at least two weeks. This is bad, naturally, but the registrar's office tries to do the best job it can to process the thousands of applications for entrance in a quick and efficient manner.

This year there were 894 rejections of students to Oregon State. This compares with a total of 450 rejected last year. There were 335 freshmen, 289 transfer students and 270 graduate students rejected this year. A little less than half of the rejections were from out-of-state students.

A NICE LETTER from Mrs. John Trollman, Jr. (Winifred Vold, '36) of Menlo Park, Calif. asks why OSC wasn't represented at the Menlo-Atherton high school College Day when representatives of 50 or more universities met with parents and students. For the past two years there has been no OSC representative (usually an alumnus of out-of-state universities) at that particular College Day.

The registrar's office and the alumni office usually cooperates in digging up an alumnus who will act as our representative for that area. OSC should do everything in its power to attract the good student both in and out of the state. We know for a fact that if there were a particularly outstanding athlete somewhere that OSC would try its best to attract that young man to Corvallis. There is no coordinated effort as yet to do the best job of getting the best student. Oh yes, we get lots of students here but there are far too many of the brilliant students going somewhere else for their education.

If alumni know of excellent students or programs designed to acquaint students with universities such as the one at Menlo-Atherton high school they should contact our office. We'll see to it that the proper officer or person on campus is contacted.

A prospective Nobel prize winner should be able to give a university as much prestige as a prospective swivel-hipped halfback. If this isn't the case then we are indeed in a sorry predicament.

## The Cover

Our inquisitive photographer poked his lens in a number of places in the Memorial Union and came up with what you see in this issue. The main cover photograph is of the M.U. lounge. The three supporting photos help show just what goes on in and around the student union.

## San Francisco

There's a big alumni gathering Friday, November 14, at the Marine Memorial ballroom, 609 Sutter street in San Francisco. The party will begin at 7 p.m. and last until 1 a.m. Jimmie Blass and his orchestra will be on hand to provide music for dancing. Coach Prothro will give a preview of Saturday's game with Stanford.

# the OREGON STATER

SERVING 70,000 FORMER STUDENTS

Vol. XIX No. 3

The Oregon Stater is published monthly except June and August by the OSC Alumni Association at 104 Memorial Union Building, Corvallis. Entered as second-class matter at the Post Office at Corvallis, October 1, 1940, under the Act of March 2, 1879. Subscription price, \$4.50 a year.

## Warm Springs Project Underway. Joe Says No to Name Change

Dear Oregon Stater:

BEFORE I COULD GET MY LETTER into an envelope last month the postman came by, picked up the mail, and I "missed the mail boat" completely. But I console myself with the philosophy of the small boy who, on the departure of one of his playmates, remarked: "Don't go away thinking you'll be missed."

As most of you know, I have been working on the campus in a dual capacity, as Executive Secretary of the Foundation and as assistant to the President. The major part of my time and efforts have been expended on the work of the Foundation. However, in September a change came about which has reversed the emphasis of my duties. For about a year-and-a-half a faculty committee from the campus, and the Tribal Council of the Confederated Tribes of the Warm Springs Indian reservation had been working on a project which the Tribal Council desired the College to undertake. The recent termination of the Bureau of Indian Affairs supervision of the Klamath Falls Indian reservation points up dramatically the problem confronting the Indian population in the United States. It apparently is the policy of the Department of the Interior to look forward to the day when the various reservations will be released from the supervision of the department and the Indian population placed "on their own." The Warm Springs Indians, desiring to prepare themselves for this eventuality have entered into an agreement with the college in which OSC will undertake a two-year resource study of the reservation. This resource study will embrace both the human and physical resources of the reservation looking to the formulation of a long-range plan for the development and use of the resources of the reservation and including opportunities for the tribal members to improve their personal and financial status. This agreement became effective on the first of September, 1958.

### Project Coordinator

In my capacity as assistant to the President I was a member of the original committee which developed the agreement and then, after a considerable amount of searching, both on and off campus, Dr. Strand assigned me the task of acting as the project coordinator for the resource study. The study will pull in a representative cross section of all of the departments on campus and will bring into it various specialists from our faculty and from off campus.

My assignment to this project came after the first of September; it has taken up the major portion of my time since then and will occupy the major portion of my time for some time to come. I will, of necessity, spend a great deal of my time at the agency in Warm Springs getting acquainted with the Indian population, "the lay of the land,"

and in gathering the information we must have for this particular study.

This resource study presents a very definite challenge to the college and the outcome of it is of maximum importance to Oregon State and to the Warm Springs Tribe. We are going to need all of the best help that we can get in discharging this duty.

I mentioned in my last letter that my daughter Barbara was expecting on September 12. It is now a matter of record that at 3:30 a.m. on September 11 a baby daughter, Nancy Caroline Mona, weighing eight pounds and one ounce, arrived in Seattle to fill Barbara's waking hours with the customary routine of bottles, baths, and laundry. As I write this I have not as yet seen my granddaughter as my projected trip to Seattle to see them is also a casualty of the beginning of the Warm Springs Indian project.

### Alumnus Found

In view of the fact that about 80,000 people have attended Oregon State, it should not be surprising to me, although it usually is, to find Oregon Staters in a situation where my connection with the college has nothing to do with what I am doing at that particular moment. Returning from a trip to Portland a short time ago, I stopped in an antique store in Milwaukie. It is difficult for me to get by an antique store without stopping to look around and see what is available. I made several purchases, mostly China and glass, and when it came time to put the things in the car the lady who owned the shop asked her husband to bring in some packing materials. As we wrapped the articles we talked about where I was from and what I did and where he was from and what he did. It developed then that his name was M. H. Gunderson and that he was a member of the class of 1908. As is the case with a number of our former students, the alumni office had lost track of him through the years and for that reason he had not received any of the material on the fiftieth reunion of his class last June. Upon returning to the campus I called Mrs. E. B. Lemon and told her about my meeting Mr. Gunderson. She remembered him very well and said that she would get in touch with him. If there are others in the class of 1908 who would like to write him his address is Mr. M. H. Gunderson, 14211 McLoughlin Boulevard, Milwaukie 22, Oregon.

From time to time in my letters I have made reference to the aspirations and desires of the Oregon State family for the acquisition of a liberal arts degree and a change in the name of the institution. As time goes on more and more is being said and written about each of these topics. However, I for one would like to raise a faint and feeble voice in defense of our name as it is now.

Until recent years we were justifiably proud of the name Oregon State College. Now we feel that the "up-grading" of the names of some of our sister institutions is leaving us behind. Furthermore, the change in names of other institutions has, in a sense, placed us in an unenviable position where we are innocently and inadvertently catalogued with these other new colleges. In our own State System of Higher Education we have seen the change in name of the Normal School at Monmouth to Oregon College of Education and, even more pointed, the one at Ashland has become Southern Oregon College. The granting of authority by the State System to the Colleges of Education to grant liberal arts degrees places them in the same category as many of the smaller private schools in the United States and, without much stretch of imagination, they could, without much justification, become universities.

### No Name Change?

So it is throughout the United States, the smaller schools which have recently up-graded their name to college will in all probability not be satisfied until they too have up-graded to university. At the moment we are in the "middle," so to speak, and until the situation jells there is bound to be some confusion. As Dr. Strand has so aptly put it, Oregon State has become a great institution because of the obstacles it has had to overcome during its existence. It had an honored name, one in which we can take justifiable pride, and a change in that name will only be evidence that we are following the trend in educational institutions during the past few years. Names do make a difference. In business and industry literally millions of dollars are spent each year to keep the name of the company or product before the country. Once a name is established, and carries with it the prestige and honor that a good name has, the value of that name is carefully guarded. In fact, it is a matter of record that TIME, Incorporated, spent a considerable amount of money to purchase a nearly defunct magazine from which purchase only the name was salvaged. Oregon State College has established itself in the forefront of the land grant institutions in the United States and it appears to me that we would be in the same boat as California Institute of Technology would be if it changed its honored name to California University at Pasadena. Perhaps I am being entirely reactionary in my thinking but to me Oregon State College is a descriptive, honored, and time-tested name for the institution it represents and I, perhaps alone, feel that it should stay that way.

Sincerely yours,

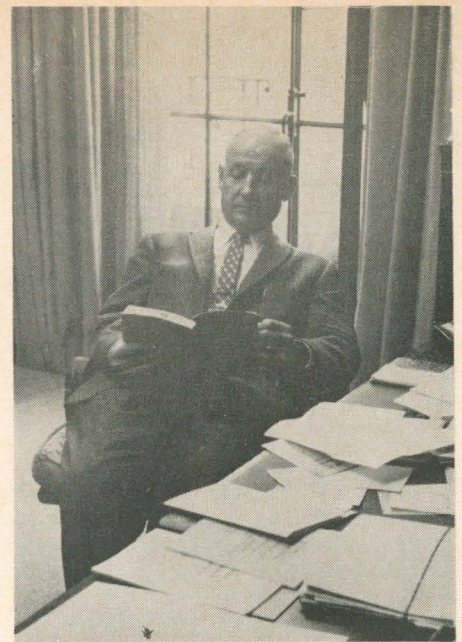

Joseph H. Berry'29  
Executive Secretary

# Memorial Union Has Many Faces

(right) Ed Allworth, '19, known to thousands of alumni and students as "Major" has been the manager and guiding hand of the M.U. since the building was constructed.

(left) Sleeping, studying, and eating are part of the life around the Memorial Union. Coed is snoozing in the M.U. lounge; the young man is studying in the alumni office; another coed relaxes on M.U. Patio.

## Memorial Union

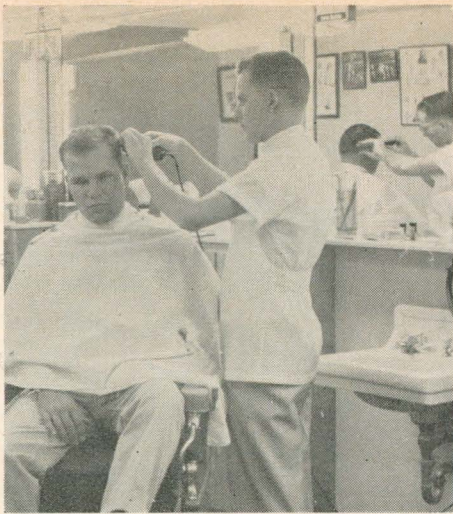

This snowy dome reflects her distant peaks,  
 This columned grandeur hints of forest aisles,  
 And all these clean proportions of the Greeks  
 Tell of her massed immensity of miles.  
 So Oregon commemorates her dead,  
 Her regimented youths who fought and fell  
 In the bewildered holocaust that sped  
 The war-to-end-war through a writhing hell  
 For them, the loved and loving lads we knew  
 White columns gleam against the green  
 Cascades;  
 Because of them, slim knights whose glory grew  
 From trench to crater in their grim crusades,  
 Through the new El Dorado, Oregon,  
 Thrills the old beauty of the Parthenon.  
 E. T. Reed

THE MEMORIAL UNION will celebrate its 30th birthday at Homecoming, November 22. The idea of a student union building at OSC began after World War I. In 1921 the first organizational step was taken. By 1926 construction was ready to begin. In 1928 the doors opened. The \$650,000 building was financed by alumni, students, faculty, and friends. Today the same facility would cost \$2 million. Now the M.U. is looking forward to expansion within a few years. These photographs show some of the varied activities which take place each day in the Memorial Union.

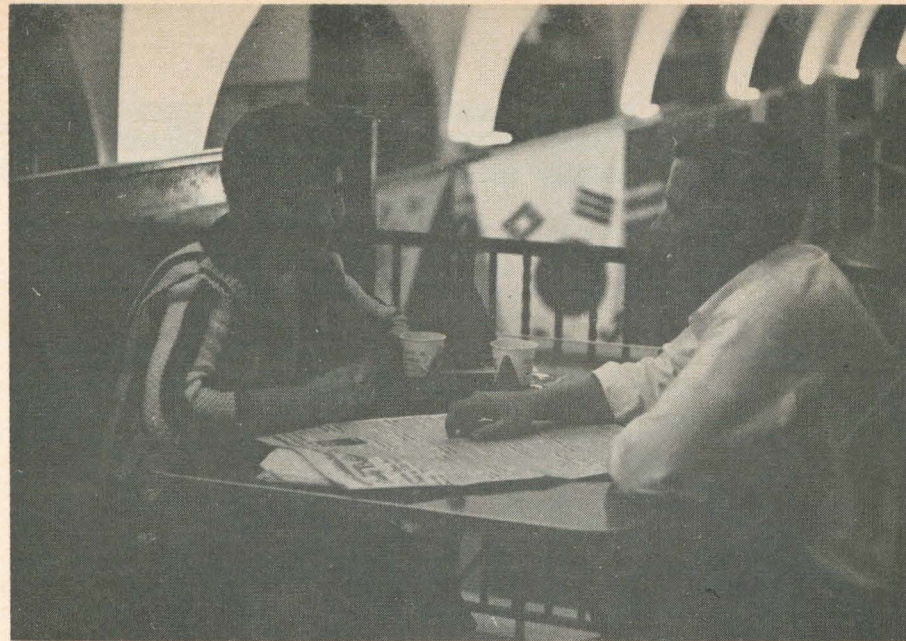

A cigarette, Coke, and campus gossip are a potent combination on the M.U. patio.

Time out for a haircut

Late in the day two Staters find a secluded corner in the Memorial Union.

*Photos by Glenn Davenport, '59*

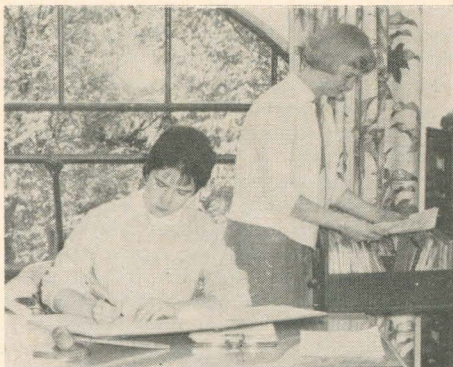

Serious discussions must be taking place along with a coffee break while perched on M.U. balustrade.

Coffee time at the O Club

Pool is a popular pastime

Student offices are humming with activity. The affairs of the AWS office are being handled efficiently by these two coeds on an afternoon and is a typical M.U. scene.

Checking on cameras at the Co-op Bookstore

# BEAVER SPORTS

by Bill Neland  
Athletic Administrative Assistant

AFTER OREGON STATE finished the first four games of the 1958 season, there was wonder on the campus as to whether head football coach Tommy Prothro was planning to eat his pronouncement of early September that "this will be the best team at Oregon State since I came here in 1955."

After splitting the first four matches, including a solid, thrilling 14-0 victory over UCLA at Corvallis, an unimpressive 12-0 win over Kansas in Portland, and two convincing, humiliating losses—to USC (21-0) and Wyoming (28-0)—the Beavers seemed to be a far cry from the Pacific Coast Conference champions of two years ago and last season's co-champs. Prothro had qualified his optimism of September by saying that the first team would not be as good as last year's, but that there was greater reserve strength, and the team, through the first 22 players, was much stronger.

Thus far there has been no evidence to counteract the statement that the first team of 1958 does not measure up to the starters of 1957. And, in cold fact, there has not been much to show to the credit of the reserves. Defensively, the team measures up with last year's outfit, but there is not much comparison offensively between the two clubs, or to any other Prothro-coached team.

The general feeling of the laymen is that there is a lack of unity or fire or enthusiasm on the team, and it lacks the initial talent and depth to get by on strictly craftsmanship. However, there have been mitigating circumstances, some of which could have gone either way for the Beavers, but seem to have bounced wrongly.

## No Leader

The Buzz Randall tragedy, instead of serving as a rallying point for the squad, seems rather to emphasize the lack of a team leader, not in discipline and team organization, but in that necessary quality of "holler" which blends the eleven athletes into a unit, all for one and one for all.

Unfortunately, such "hollerability" is not created in an athlete, but is a trait of the personality gained in youth. It is not to this team's discredit that there is not such a man. It is just one of those unfortunate things.

Additionally second-string center Bruce Hake, a potentially fine, tough football player, but lacking greatly in experience, found himself thrust into the starting lineup, the success or failure of every offensive play resting directly in his hands.

Even Randall, as great as he was, was

able to move gradually into his duties, and was only called on to carry the load when he was deemed ready.

Then the other captain, capable Jim Brackins, a good football player, and an excellent representative of the team as its captain, but not the "holler guy," was out of action for two games, and saw limited action in the others. This placed Jim in the unenviable position of exhorting his teammates to give their all for for alma mater, then walking over to take his place on the bench for the remainder of the game—a case of "do as I say; not as I can't do right now."

In addition Brackins' absence forced George Enderle to move into the starting strong guard spot a year early, and left only a third-team candidate behind George.

The same problems occurred at nearly every position. Jerry Doman sprained an ankle on an uncovered sprinkler head and sat on the bench while sophomore Aaron Thomas tried to fill in. All-American Ted Bates has missed one game completely, played another with a sprained arch, and has worn a towel wrapping around his neck since the first day of September. Hake is also encumbered with this device to protect against pinched nerves.

## Stinnette Injured

Blocking back Derald Swift, probably the solidest field general of the three Prothro has used, was on-again, off-again with a bruised shoulder. Fullback Nub Beamer—Beamer the Steamer—re-injured his shoulder and didn't even leave Corvallis for the Wyoming trip. His regular sub, Jim Stinnette, has been periodically out of action since his freshman year, and has played less than 15 minutes this fall. This forced Prothro to move his fourth tailback, a hard-driving junior, Dainard Paulson, to fullback to bolster the sag there.

Then Grimm Mason, who looked in the Kansas game to be the answer to the tailback problem, sprained his knee and has been on the bench since. Leon Criner and "bonus player" Paul Lowe shared the tailbacking duties, but between them failed to gain the yardage Joe Francis did by himself the last two seasons. Lowe, perhaps the fastest back on the Pacific Coast, has had trouble adjusting to 11-man football, and his few spectacular efforts have failed to overshadow the inconsistency of his other offensive efforts, and consequently, he has gained but 84 yards net rushing in 40 tries.

As this is written Paulson was being

Overseeing Orange practice sessions from his tower is Coach Tommy Prothro. He has a portable loudspeaker handy to correct any mistakes his players make as each week the team prepares for another important game.

shifted back to tailback in an effort to get some running from that spot, with the hope that Beamer can carry his own from fullback. John Horrillo, a hard runner who leads the league in punt returns, and a slower Earnel Durden share the wingback duties, have failed to make the reverse the potent weapon it was in past years.

The rash of injuries, and the lack of capable replacements is slowly reducing Oregon State to a once-a-week football team, with the weekday practice sessions limited to "dummy" drills, almost void of contact so as to preserve what physical condition the team has after the last game. Many, including the coaching staff, bewail this situation, firmly believing that almost daily contact is necessary to maintain sharpness and correct fundamentals. But to paraphrase an old saying—Prothro can't have his team, and beat it, too.

Still in all the Beavers had six league games left to play, albeit the opposition ahead as hungrily hoping for a piece of the Beavers as the first four opponents with the return to full duty of certain players and a development of togetherness and pride by the team, this could be another successful season for Oregon State.

Right now Oregon State football players, are finding that to stay on top is much, much harder than climbing up from the bottom. And where once Oregon State teams were prepared for without much to-do by the enemy, now-a-days whole cities are endangered by the great feeling of accomplishment granted by a victory over Oregon State. The USC rooters almost set fire to several fraternity houses in Los Angeles after the Trojans upset the Beavers, and high-altitude Laramie (el. 7160) almost went into orbit after shellacking the Beavers. Rival

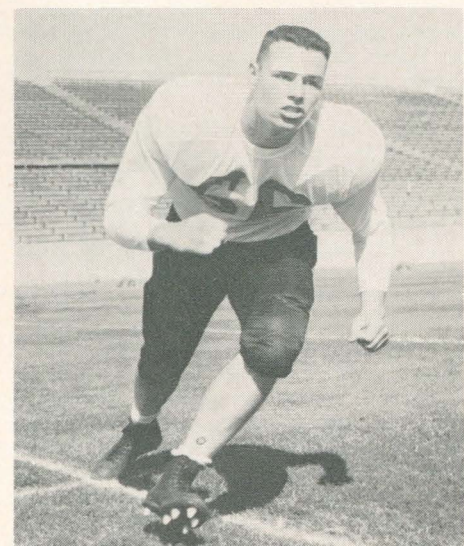

coaches, some of whom walked almost unnoticed through the crowds before, are suddenly carried on shoulder-tops to accept the plaudits of their faithful after beating the Beavers. USC's Don Clark and Wyoming's Bob Devaney were both carried off to glory after their games this year against Oregon State. Prothro, who suffers from back trouble, finds his ailment aggravated from constantly reaching up to congratulate his adversary after the final gun. Seriously, despite the lack of success of the moment, Oregon State football has indeed come a long way in the last 3½ years.

**M**EANWHILE, back at the ranch, Slats Gill and his lads are hooping it up. Basketball practice opened October 15, with Oregon State figuring to be hard-pressed to defend its 1958 co-championship. With All-American Dave Gambee, steady Kenny Nanson and 6-9 Wayne Moss lost by graduation, Slats will have to find a brand-new forward line to go with Lee Harman and Jim Anderson. And in all likelihood it will have to be a consistent scoring three-some, since Harman and Anderson, while strong on the defense, have never been ones to wear out a scorer's pencil.

Returning for his third year is big, good-looking Gary Goble, a blond 6-8 giant, who, if he can solve the problem of putting the ball in the hoop, could solve a lot of Slats Gill's problems. Slats has been working with a sophomore sharpshooter, Steve Flynn, at one of the forward spots, with Ted Miller at the other. To get more scoring he will inject Larry Copple, a great natural shot, into the lineup for Miller. Behind Goble is sophomore Karl Anderson, a lean 6-9, with fine moves, who, given time and experience, could help immensely. Other veterans back include Arnold Schroeder, Roy Critser and Leighton Tuttle, all of whom saw only limited action last season.

Several sophomores are likely to get a shot before the last ball bounces next March, including Ernie Johnson (6-5), Roger Johnson of the football team (6-3), and Mike Carson (5-7, and also a footballer.)

The Third Annual Far West Classic,

Mike Dolby is a 6-2, 206 pound guard from Hoquiam, Wash. Picking up experience this year behind Sanchez and Brundage. Has fine potential as sophomore.

twice won by the host Oregon State Beavers, looks to have another fine round of college teams on hand for the two-night affair late in December. For the first time the event will be split, with the opening round on Saturday, December 27, and the finale on Monday, December 29. Listed for action are Iowa of the Big Ten, Wyoming of the Sky-line conference, the Air Force Academy, and the Beavers. OSC and the USAFA Falcons will meet in the opening round, with the Cowpokes facing Iowa.

An added fillup this year, and destined to be a regular part of the big cage show is a high school division to be run off on the afternoons of the Classic Days. This invitational event, pitting four of the potentially top prep teams in the state, will be run on the same basis as the university division, with two first-round games, and then a final with winner's playing the championship after first-day losers test each other. This year Beaverton, Marshfield, Roseburg and North Salem high schools have accepted invitations.

**Beavers in the news**—Joe Francis seemingly has made his place in the professional football sun, although still seeing only limited action as a quarterback with the Green Bay Packers . . . **Doug Hogland**, another former Beaver star, first with the San Francisco '49ers, then the Chicago Cardinals, has recently been traded to the Detroit Lions . . . ex-OSC All-American **John Witte**, after a year of Canadian style pro ball, and two unsuccessful cracks at the American play-for-pay sport, has entered in business in Corvallis as the owner-manager of the Triangle Diaper service. John plans to mix sudsing baby's lingerie with a little pro wrasslin', in which he was tremendously popular as a "cleanie" last year in the Willamette valley.

Hal Moe, recently resigned as track coach at Oregon State, and before that an assistant football coach and one-time all-coast halfback, has moved right into his new full-time position on the physical ed staff, and spends most of his football enthusiasm these days rooting for son, Steve, the star tailback for Corvallis high . . . set for his third year in the Italian amateur league is popular **Tony Vlastilica**. Tony, who thrilled Beaver basketball fans for three years, is just as thrilling to the Italian fans, and has led his league in scoring since he took the long trip after the 1954-55 OSC season.

**O**REGON STATE welcomed the usual influx of freshmen athletes this fall, with the consensus of the coaches being that while the quantity of top-flight prospects was not as great as past years, there are several men in each sport who will turn out to be fine athletes before they leave Oregon State.

In football seven all-staters headed the list of Oregon prep graduates joining the Beavers. One, Paul Goddard of Portland's Lincoln high, who set a Portland scoring record, will miss Rook football because of a knee injury, but the others, including Jim Funston, Medford tackle; Denny Pieters, Salem guard; Steve Picard, Seaside halfback; Al Adamson, Estacada back-lineman (and the nephew of the late Buzz Randall); Dick West, end from Hood River; and Frank Hawley, Vale fullback, are all slated for action in the Rooks' three games this fall.

From out-of-state the Beavers landed one

of the finest tailback prospects in the nation in Don Kasso, a triple-threat high school All-American from Berkeley, Calif. Others from beyond Oregon enrolled include Tim Ankerson, guard from Santa Ana, Calif., and brother of the varsity's Tony; Don Delzer, Lodi fullback; Bob Schmidt, Whittier tackle; Ross Cariaga, Fresno guard; Bill Sullivan, Crescent City tailback; Jim Galyen, Hollydale end; Dick DeBisschop, San Anselmo guard; Terry Cabe, guard, Everett, Wash.; and Bob Lea, center from Aberdeen, Wash.

The top basketball prospects include Bruce Fleming, 6-7 Corvallis high star; Bob Niles, 6-5 forward from Klamath Falls' state champs; Gary Stenslund, 6-foot cage and track star from David Douglas high in Portland; Jerry Jones, Cleveland of Portland; Jay Carty, 6-6 forward, China Lake, Calif.; Doug Jordon, 6-5, Los Banos, Calif.; Tim Campbell, 6-5 forward from Fort Vancouver, Wash. high; Chap Thompson, 6-5, Oakland, Calif.; and Bob Newton, Landen, Wyoming.

In the other major sports new track coach Sam Bell attracted several state A-1 and A-2 champions, including three record holders. Stenslund from David Douglas (A-1) and Charles Tyler, Lakeview (A-2) both set state marks in the javelin, and Cliff Thompson of Dillard was three-time champion in the A-2 mile and half-mile. Other thinclad prospects include Norm Fones, 880, Grant of Portland; Jim Maryott, hurdles, Grants Pass; and Dale Drake, 880, North Salem.

Jack Mattison, state junior champion from Eugene, paced the golfers, while Grant's all-city Ted Thompson was the top baseball find. Bob Semon, Springfield, Oregon prep champ, and Gordon Brynildsen, Boise, Idaho state champ, headed the list of tennis players. In wrestling Dale Thomas enlisted Jerry Perez, three-time state champion from Sutherlin, and Terry Cabe, Washington champion, who is also a football candidate. Bill Winkler, subbing for Art Koski as swimming coach this season, placed Terry Rust, Redding, Calif., freestyler, at the head of his list.

Tony Ankerson, 6-1, 175 pound sophomore end from Santa Ana, Calif. has developed into one of OSC's punters. Good offensive end.

# ALUMNI 'ROUND THE WORLD

## Deaths

**F. Marion Wilkes, '04**, died in October in Palm Springs, Calif. He had been a resident of that area for the past 20 years. He was 77 years old. Before his retirement Mr. Wilkes had worked for the department of interior. Survivors include the widow, two sons and a daughter.

**Vane Gibson, '12**, died in October at his Corvallis home. He had been in ill health since he had suffered a stroke while on a return trip from Hawaii in 1956. Mr. Gibson was born in 1888 in Indiana. At Oregon State he was affiliated with Phi Delta Theta fraternity. For nine years he was employed by the U.S. department of agriculture, bureau of agricultural economics. He resigned from the agriculture department in 1925 to return to Corvallis and buy a half interest in the Independent lumber company. In 1954 he retired. He is survived by the widow, the former Fern Loughridge.

**Dr. Pennoyer F. English, '19**, died October 8 in the Centre County hospital at State College, Penn. He was born in 1894 in Colfax, Wash. At OSC, Dr. English had received his degree in animal husbandry and zoology. His master of science degree was awarded at Texas A & M and his doctor of philosophy degree from the University of Michigan in wildlife management and zoology.

Dr. English was on the faculty of OSC from 1919 to 1921 and then served three years at Texas A & M. He was professor of biology at the College of St. Teresa, Winona, Minn. from 1924 to 1926 and then returned to Texas A & M where he remained until 1931. Dr. English was a research fellow at Michigan from 1931 to 1933 and the following two years was affiliated with the Michigan department of conservation. He was associate professor of forestry and wildlife management at Connecticut State College from 1935 until his appointment to the Penn State university faculty in 1938.

In 1938 he was named associate professor of wildlife management and professor in 1945, continuing in that position until his death. From 1951 to 1953, he served as acting head of the department of zoology and entomology. Dr. English was widely known for his work in wildlife management and much of his work at Penn State was concerned with deer management.

In 1956 Dr. English was elected an honorary member of The Wildlife Society "in recognition of his distinguished service and achievement in the fields of teaching and wildlife management."

Survivors include the widow and one son, a sister of Salem and a brother, Felix, '23, of Portland.

**T. G. Cowgill, '24**, died recently of a heart attack while hunting deer. He was 63 years old and vice president and manager of the Albany First Federal Savings & Loan Association.

Mr. Cowgill had been hunting with his two sons, Tom and Don, and had separated while hunting and were to meet at an appointed spot. When Mr. Cowgill failed to appear the sons retraced their steps and found his body.

He was graduated from OSC as a civil engineer and was employed for a time on a railway geodetic survey near Medford. Later he returned to Lebanon where he was employed by the Federal Land Bank. He came to Albany in 1939 to become manager of the Linn County Abstract company. He headed the First Federal staff since 1953. Surviving are the widow, four sons, and two sisters.

**Charles R. Hornecker, '53**, was killed October 19 in the crash of a national guard airplane at the Portland International airport. The plane was taking off with one other passenger aboard and was in a vertical climb when it veered left and then hit the field in a full power dive. Chuck and the other passenger, Warren Hunter, were killed almost instantly.

Hornecker was 26 years old and was employed by the Pacific Telephone and Telegraph company in Portland. He was riding as a passenger on a Sunday training flight of an L-19, an artillery observer airplane and errand-type aircraft of the army national guard. He was an air force reserve first lieutenant.

Chuck had a fine college career at Oregon State. A fine student, he was studying agricultural engineering and was a member of Blue Key, Phi Kappa Phi scholastic honorary, and Alpha Zeta, agriculture honorary. He was a national winner of the Sears-Roebuck Foundation scholarship and was also awarded a Delta Upsilon fraternity national scholarship. He was a member of Delta Upsilon. Chuck was also business manager of the 1952 Beaver yearbook.

Hornecker was named as one of the top 10 collegiate leaders in the country in 1953. During his freshman and sophomore years he was named the outstanding man in his class.

Survivors include his widow, the former Janet Albert, '53; a year-and-a-half old son; his parents; a brother, John, '59, and a sister, Sally, '56.

## Class News

'58

Sherrie Moe  
3208 Marathon  
Los Angeles 25, Calif.

Jack Foster and Harold Short are employed by Sandia Corporation at Livermore, Calif. They are doing research and development work in the field of nuclear weapons.

Mr. and Mrs. Bob Eberhard (Kaye Large, '57) are living at 162 Laurel street in San Carlos, Calif. Kaye is teaching the third

grade at Clifford school in Redwood City, Calif. Bob is a sales trainee for California Packing Corp. in San Francisco. Other Oregon Staters teaching at the Clifford school are Flo Hart, '55, and Ann Roderick, '57.

Mr. and Mrs. James Ingram (Luella Richardson) are now living in Reedsport, Ore. Their address is P. O. box 362.

Brian Tanabe has the address of 508 Powell street in Hollister, Calif.

Leo Moll is employed by Bechtel Corporation, Cougar, Wash.

Ensign Gregory Nesbitt is stationed in the USS Bradford (DD 545) c/o FPO, San Francisco, Calif.

Margaret Bauer is working for the government in Washington, D.C. Her address is 2506 52nd avenue, S.E., Boulevard Heights, Washington 27, D.C.

O. R. Pavlovskis has the new address of 4237 12th N.E. in Seattle.

Shirley Schofield is a welfare case worker in Albany. Her address is 205 N. 11th in Corvallis.

Paul Wachter is with the forest service at Winterpark, Colo.

Arden Lindsey's address is 5707 N. Golden West avenue, Temple City, Calif.

Sara Hart is living at 22 Glen Oak Court, Medford.

Ensign George Silkworth is stationed aboard the USS Kearsarge (CUA-33) out of San Francisco, Calif. Dave Martinson and Kermit Jackson are also on board.

Arlene Cattanach is taking pharmacy internship training at Service drug store in Grants Pass. Her address is route 2, box 630, Grants Pass.

Bob Elfers has the address of 15195 S.W. 98th avenue in Tigard.

Elizabeth McGill is employed as an executive trainee at the Bon Marche in Eugene. Her address is 1272 Willamette, apt. 5, Eugene.

Mr. and Mrs. Joe Francis (Dixie Neathamer) and son are living at 536 S. Webster in Green Bay, Wisconsin. Joe is with the Green Bay Packers professional football team.

Sally Ann Ohling and Frank Ross were married on June 15 in Corvallis.

Nevin Chamberlain and Nina Lerche were recently married. They are living at 222 W. Constance, apt. 6, Santa Barbara, Calif.

Eileen Kusachi has the address of 357 S. 4th street, apt. 5, San Jose, Calif.

Paul Wachter's new address is 233 W. Cummings, Long Beach, Calif.

Jerry Ligon has the address of route 2, Halsey street, Troutdale, Ore.

Darrell Reichel is working at Boeing's electronic department as an engineer. His address is 222 Sunset Blvd. West, apt. 22, Renton, Washington.

Carl Carlson is at the Collawash ranger station, Estacada, Ore.

Bruce Belshaw is in his fifth year in veterinary medicine at Washington State.

Second Lt. and Mrs. Neil Saling Jr. (Lucy Sinnard) have been living in Columbus, Georgia, while Neil completed the airborne

course at the infantry school, Fort Benning, Ga. Neil received his parachutist wings after having completed the four-week course which included five training jumps.

Sharon Petie Cook and Joanne Deffenbaugh are living at 16929 Meekland avenue, apt. 42, Hayward, Calif. Sharon is a third grade teacher at Burbank school in Hayward and Joanne is a seventh and eight grade teacher at the Bret Harte school in Hayward.

Mr. and Mrs. Larry Beck (Marlene Sherwood) were recent parents of a son. They named him Glen.

Claire Hughes is now interning at the Alameda county hospital in Oakland, Calif.

Gayle Washburn and Howard Berge were married June 14 in Studio City, Calif.

Sally Cathcart was married July 12 to Gordon Badgely.

Now living in Winter Haven, Florida are Mr. and Mrs. Jim Diehl (Karla Schultz). They were married July 12. Jim is undergoing air force training.

Caroline Boyer was married to Steve Bailey on July 12 in Portland. Caroline is teaching and Steve is attending Portland State.

Garry Bullock and Tanis Tepley, '61, were married recently.

Bill Bayne is attending Southern California doing post graduate work in physical therapy. He can be reached at Touton hall.

Also at USC taking work in physical therapy is Elaine Kardatzki.

Irene Tanaka and Warren Kan were married June 21. They are living in Salem where Warren is a food technologist.

Cece Broome and Harlan Brandt were married during the summer.

## Reunions

The Class of 1923 will celebrate its 35th anniversary November 22. The reunion was postponed from June, 1958 until Homecoming so more members of the class could attend. First official gathering is set for Friday afternoon and evening with rooms 407-8 at the Corvallis hotel reserved for a meeting place for informal visiting.

On Saturday registration will be held in the Memorial Union at 9:30 a.m. A "brunch" is scheduled at 11:15 in the M.U. tearoom.

The Class of 1928 will hold its 30th year reunion on November 22. Registration will begin at 9:30 in the Memorial Union. A "brunch-lunch" begins at 11:30 a.m. in the M.U. tearoom. After the football game there will be a coffee hour for all class members in the Memorial Union. James Morris is chairman of the reunion.

The Class of 1953 will celebrate its fifth anniversary and first reunion at Homecoming. The local committee, spearheaded by Norm Weatherly, has made arrangements for an informal gathering in the Benton hotel ballroom starting at 7:30 p.m. November 22. There will be refreshments and snacks available with dancing from records. Cost is 50 cents per person.

street, apt. 2, Eugene; Ben Sato, 2404 Riverside Place, Los Angeles; James Mori, 230 N. 15th street, Costa Mesa, Calif.; David Beadling, 26E Pulaski avenue., L.H., Ft. Leonard Wood, Mo.; Mr. and Mrs. Max Albertson (Lorraine Reinseth) to 43104 B Mason street, Fort Huachuca, Arizona; Helen Packer, 443 N. 34th street, Corvallis; Patricia Austin, 328 N. 31st street in Corvallis.

Nancy Purviance is teaching physical education at Crater high in Central Point, Ore. During the summer she directed the Pioneer unit at Camp Namanu in Sandy, Oregon. Her address is 1065 East Pine street in Central Point.

Elizabeth Bunnell Ottoman was married July 26. Last year she taught at Pittsburgh, Calif. and this year is teaching at Malin elementary school, Malin, Oregon. Her address is box 547, Malin.

Susan Schofield has the address of apt. 9 H, 434 W. 120th, New York City. Since her graduation from the New York university graduate school of retailing, she has been manager of Orbach's in New York.

Arnold Krueger is a special agent for North America Insurance companies. Mr. and Mrs. Krueger (Dreenali Zwahlen) are now living in Seattle.

Markham Matson is in the navy stationed aboard the U.S.S. Belle Grove (LS42) and just completed a six months tour operating in the Marshall Islands.

Lt. James Waggoner is personnel officer in headquarters of the New York air defense sector, McGuire air force base, New Jersey. Lt. and Mrs. Waggoner (Audrey Allison, '58) are living at P.O. box 111, Wrightstown, New Jersey.

New address for George Wheeler is 511 N. 148th in Seattle.

Second Lt. Clyde Sedgwick completed airborne and ranger training and is now stationed in Gelnhausen, Germany. Address is A company, 2 ARB 48th Inf., OPO 39, New York, N. Y.

Mr. and Mrs. H. Loring Dixon (Judith Wade, '58) are living at 3124 N.E. Fremont in Portland. Loring is in the senior year at

the medical school and Judith is working in the office of Arthur Erfeldt, landscape architect.

Assistant city engineer in Springfield is William Blum. His address is 1043 "E" street.

Lt. and Mrs. Robert Jensen (Nansie Gillfillan) are now stationed at Camp Pendleton, Calif. Their address is 104 A, Chosin Circle, Oceanside, Calif.

Stan Pereira is currently working in the geophysical exploration department of Pan American petroleum company in Casper, Wyoming. His address is P.O. box 40, Casper.

Virginia Ramsay is living at 3021 Oliphant in San Diego. She's working for the Camp Fire Girls as a district director.

Mrs. Robert Macy (Marjorie Miller) has the address of 4344 Gondar, Lakewood 11, California.

Dick Corrick's address is 7468 Mt. Vernon in Riverside, Calif.

Lt. and Mrs. George Wuerch (Brenda Hughes) are stationed at Camp Pendleton, Calif. with the marine corps. Their address is 105-B, Wonsu Circle, Oceanside, Calif.

Mr. and Mrs. Stan Purcell (Patricia Miller) are living in Hillsboro where Stan is teaching in the high school. They were married in February of 1957.

George Bilderback is working for National Carbon company, a division of Union Carbide Corp., as a sales representative. Mr. and Mrs. Bilderback and three children (two girls and a boy) are living at 5804 N. Driscoll Blvd., in Spokane, Wash.

Mr. and Mrs. Dick Vancise and son, Rick, have been living in Barcelona, Spain the past

'57

Sue Pearson  
6306 S.E. 34th  
Portland, Oregon

Second Lt. Ron Smart is now an instructor in the low altitude missile department at Fort Bliss, Texas. His address is box 9840, Fort Bliss.

Carleton Furnberg is still employed by Sandia Corporation as an electrical engineer. He is continuing graduate work in nuclear engineering at the University of California and hopes to receive his master's degree in June of 1960. His new address is 920 Princeton Way, Livermore, Calif.

George Caspar is now living at 3425 S.W. Ninth in Portland and is attending the medical school.

Mr. and Mrs. Raymond Rexford (Sharon Hinton) are living at Star Route, box 128, Westfir, Orgeon. Raymond is teaching science and mathematics at Westfir high school. Sharon is substitute teaching at Westfir high school and Oakridge high school.

Clarence White Jr. and wife, Barbara, are residing at 3150 S.E. 176th Place in Portland. Clarence is now employed at the head office of the U. S. National bank of Portland.

Alice Stiles is teaching in the second grade in Pittsburgh, Calif. Carla Norman lives with her at 174 C Madoline and she is teaching the first grade this year.

James Sias was married May 24. Mr. and Mrs. Sias are now living in San Rafael, Calif. and Jim is employed by Bechtel Corp. in San Francisco.

New addresses: Robert Weber, 1270 Ferry

## ENGINEERS PHYSICISTS MATHEMATICIANS

Investigate the outstanding promotion opportunities at Douglas.

It stands to reason that the biggest field for advancement lies where the biggest programs involving advanced technology are under way.

At Douglas, massive missile, space and transport projects in both military and commercial areas have created a continuous demand for engineers and scientists with backgrounds outside as well as in the avionics, aircraft and missile fields.

As these projects grow in scope, the multiplying supervisory and executive openings are filled by Douglas engineers from within the company. This promotion policy has made Douglas a prime organization for the engineer who wishes to advance in his profession.

For further information, write to Mr. C. C. LaVene, Douglas Aircraft Company, Inc., Santa Monica, California, Section U.

the most respected name in aircraft,  
missile and space technology

## SPECIAL REPORT

Mr. HAROLD W. MCKNIGHT NEW YORK LIFE AGENT  
at DAVENPORT, IOWA

**BORN:** May 4, 1909.

**EDUCATION:** Iowa State Teachers' College, B.S., 1934; M.S., 1948.

**PREVIOUS EMPLOYMENT:** Principal, High School—September, 1935—June, 1941. Industrial Arts Teacher and Audio Visual Coordinator, September, 1941—June, 1954.

**REMARKS:** It was on June 16, 1954, that former High School Principal, Harold McKnight, became a New York Life representative. And ever since then he has applied the same enthusiasm toward helping people plan lifetime financial security as he did toward helping teen-agers chart lifetime careers. His sincere interest in and constant attention to his clients' insurance needs have given Mr. McKnight a successful head start on his own lifetime career. In his first year, after joining New York Life, he qualified for the Company's Star Club—an organization composed of sales leaders from among New York Life's more than 7,000 representatives. With such a beginning, it seems certain that Harold McKnight can expect to add many similar honors to his record as a New York Life representative.

**Note**

Harold McKnight, after 4 years in his new career, has found that it offers him security, substantial income and the deep satisfaction of helping others. If you would like to know more about such a career for yourself with

one of the world's leading insurance companies, write to the address below:

**NEW YORK LIFE INSURANCE CO.**  
College Relations Dept. K-20  
51 Madison Avenue, New York 10, N. Y.

Vic Hartmann and family of wife and four children, Mike, 9, Kathleen, 7, Chris-

L. to R., William H. Harrison, President of T. P. Taylor & Co.; Harry W. Castleman, C.L.U., General Agent of New England Life.

## Princeton ('35) and Yale ('34) see eye-to-eye on retirement plan for Taylor Drug Stores

"Bill Harrison was graduated from Princeton the year after I got my degree from Yale," explained Harry Castleman, General Agent of New England Life in Louisville, Kentucky.

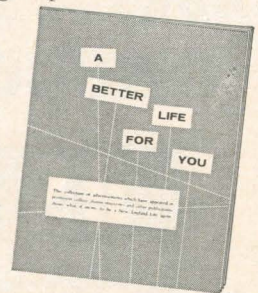

"While we haven't always agreed on the comparative merits of our colleges, we found ourselves in *complete* agreement on the Taylor Employees' Security Plan I helped develop for Bill's company."

Harry Castleman worked closely with Mr. Harrison, president of T. P. Taylor & Co., in installing a New England Life plan for that well-known 79-year-old southern drug store chain. The result was a top-notch program that was enthusiastically received by company management and employees alike.

In much the same way, many executives from coast to coast turn to our representatives for consultation on the business uses of life insurance. New England Life writes

more individual policy pension plans than any other company and is prominent in the group field.

If you are interested in a challenging and rewarding career like Harry Castleman's, we'll be glad to mail you a booklet—"A Better Life For You"—of other brief career reports of the job satisfaction with New England Life. Write Back Bay P. O. Box 333, Boston 17.

## Red Garter Does Snappy Business

Joaquina Makes Music

**A**THRIVING NEW ENTERPRISE in San Francisco with an Oregon Stater tinge is The Red Garter, 670 Broadway. This emporium, specializing in song and refreshment, has been packing the patrons and one of the entertainers and proprietors is Mrs. Jack Dupen (Joaquina Hillstrom, '55).

Mr. and Mrs. Dupen have combined talents with several struggling college students in the bay area to form The Strugglers, San Francisco's banjo band. The students originally started playing together for their own enjoyment but were quickly asked to appear on television. They received so much attention that they decided to try a night spot on a part-time basis.

The Red Garter is the successful result.

This is Dorothea, daughter of Mr. and Mrs. Robert Jirka (Joan Bussman, '56) of 2508 Coolidge Drive in Corvallis. Mr. Jirka is now attending graduate school. Dorothea is now one year old.

specialties for Dewey and Almy chemical company of San Leandro, Calif. His home address is 180 Willow Drive in Danville, Calif.

'38

John Anderson has a new address of route 1, box 320, Beaverton.

Frank McCully is now living at 158 Sorrel Way in Eugene and is branch manager of the Automotive Equipment company, dealers in heavy duty Peterbilt and Diamond T trucks. He was transferred to Eugene from Medford last winter when the company opened the Eugene branch. The company's facilities include a used truck lot, new truck showroom, service shop and parts.

Army Lt. Col. Dean Painter recently arrived in Vietnam and is now a member of the military assistance advisory group.

Virgil Hansen is living at 5250 High Band in Springfield, Oregon and is in the dairy business.

Dwight Baker now resides at 22217 DeLa Osa street in Woodland Hills, Calif. with his wife, Neda, and daughters, Carol, 13, and Deborah, 10. For the past four years he has been working at Rocketdyne, a division of North American Aviation, as an engineering specialist. Prior to this he worked at the Jet Propulsion Laboratory at Cal Tech as a senior research engineer and with Bell telephone laboratories as a member of the technical staff. He had also been with South Dakota School of Mines and Technology as assistant professor of mechanical engineering. He is an active member in the American Rocket Society and a registered professor of engineering.

George Shambrook recently moved from San Jose, California to Tucson, Arizona where he is the county club agent. He writes: "I am enjoying living here in spite of the heat. I have found the people very friendly and the desert very interesting. Wish Oregon State would play a football game down this way. Will miss PCC football. Am sorry the conference disbanded." George's address is 112 W. Pennington street, Tucson, Ariz.

Ivan Nichols is chief geologist, Aluminum Company of America, 1310 First City National Bank Building, Houston, Texas.

Clifford Whitten has the Firestone tire

# Progress Works Here

**One of the most important and basic reasons for good telephone service is research. The many advances in speed, clarity, distance and convenience would not have been possible without it.**

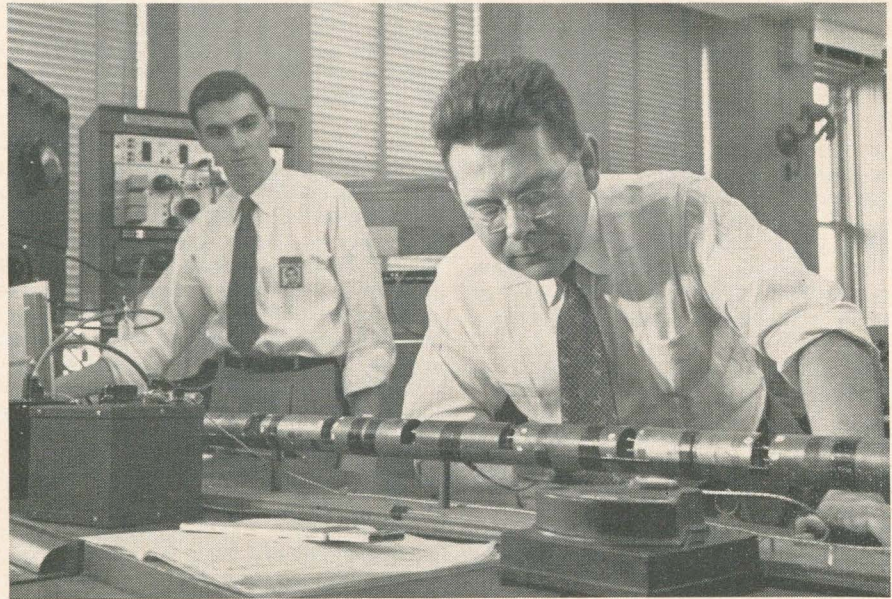

They would not have been possible either, in the same degree or as economically, without one central research organization such as the Bell Telephone Laboratories.

This is the research division of the Bell System. It has grown as the needs of the nation have grown.

The work of its hundreds of scientists and engineers covers many fields and goes exploring and developing in many directions. But it is aimed primarily at the betterment of communications services and the finding of ways to provide this better service at the lowest cost to the customer.

Not just recently, but long ago the Bell System recognized the business and national need for basic research and it has devoted a considerable part of its laboratories program to this field.

The "search for new knowledge—the effort to increase our understanding of nature—the probing into the unknown"—has brought substantial

**RELAYS VOICES UNDER THE SEAS.** This is one of the repeater units in the new undersea telephone cables. These voice boosters make it possible for you to telephone Great Britain and Hawaii as clearly as you call across town. Developed by Bell Telephone Laboratories after many years of research. Made to entirely new precision limits by Western Electric.

benefits beyond their particular application to communications.

An outstanding example was the invention of the Transistor, one of the real breakthroughs in science that come only at rare intervals.

These amazing amplifiers, though little larger than a pea, can amplify electric signals up to 100,000 times. They can do many of the things a vacuum tube can do—and more besides! They have opened the way to new products and improved others.

There is no doubt that the Transistor has been one of the leading

factors in an electronic boom and has helped to create business and jobs in many industries. More than 50,000,000 transistors will be made this year.

The research and manufacturing skills of the Bell System, already organized and at hand, are placed fully at the service of the U. S. Government whenever we are called upon for projects for which we are specially qualified.

Among many present defense assignments is the development of guidance systems for intercontinental missiles.

**BELL TELEPHONE SYSTEM**

dealership at Hood River, Oregon for the past seven years. He has one daughter, Kay, who is a freshman at Wy-East high school. His address is route 2, box 430, Hood River.

Mr. and Mrs. Louis Hanson (Bernadean Currier, '36) of 4708 34th avenue N.E., Seattle have two boys and a girl. Son, Fred, 18, is a Washington State freshman. George is 11 years old and in the sixth grade and Linda is 9 and in the fourth grade. Mr. Hanson is a partner and president of a fast-growing electronic firm in Seattle known as United Control Corporation and employs some 700 people. United Control expects to construct a new plant soon east of Lake Washington.

Teaching in Los Angeles is Mary Menig. Her address is 3214½ Stocker street, Los Angeles 8.

A new address for Wiliam Leer Jr. is 15175 S.W. Glen Eagle Court, Oswego.

Stearns Eason is with the Washington state highway department. Mr. and Mrs. Eason and two daughters reside at 4560 52nd avenue, N.E. in Seattle.

Cylos "Bud" Dunsmoor is western division sales manager for Rieke Metal Products Corp., Oakland, California. Bud's home address is 1098 Amito avenue in Berkeley, Calif.

'37

Gustav Krause of 1970 Kinclair Drive in Pasadena, Calif. is in the construction business. His son, Robert, entered West Point this year as a plebe.

Mrs. Virginia Dulin (Virginia Carlson) attended graduate school at OSC during the

summer and is now teaching homemaking and English at Madison high school in Portland. Her address is 5745 S.E. 17th street, Portland.

'36

Mrs. Crawford Graham  
5733 60th Ave. N.E.  
Seattle 5, Washington

Dr. G. R. Ferguson of 21 Hadden Road, Scarsdale, N. Y. was recently elected a member of the board of directors of National Agricultural Chemicals Association.

O. R. "Jolly" Batcheller is head of the ornamental horticulture department of California State Polytechnic College, Kellogg campus, Pomona, Calif. It's the largest department in ornamental horticulture in the country with 200 students. A new unit will be completed this year with six glass houses and necessary growing grounds.

B. F. Benson was recently appointed as market development manager of the industrial products division of Industrial Rayon Corporation of Cleveland, Ohio. Benson previously was supervisor of the company's tire cord evaluation laboratory. In his new position he will be responsible for market development work connected with the use of the company's products in industrial applications. Prior to joining Industrial Rayon in 1949, Benson was technical superintendent of Inland Rubber Company and previously was with B. F. Goodrich company.

'35

Mr. and Mrs. Clarence Robbins (Erma Byington, '36) are living at 2300 S. Hill in Albany. Clarence is district manager for Atlas life insurance company. He's been in the life insurance business for 14 years. A daughter, Catherine, is in Italy and another daughter, Pattie, is attending Oregon College at Monmouth. A son, Freddie, is in the Albany high school.

A change of address for Colonel Hal Pangle is 1536 A Pershing Drive, Presidio, San Francisco.

Dr. C. Oscar Carlson has the address of P.O. box 902, Los Gatos, Calif.

Mr. and Mrs. John Kucera (Margaret Simpson) are living at route 2, box 74 A, Pendleton. Margaret has gone back to teaching senior English at Pendleton high school.

John is with the forest service. The Kuceras have three sons. Margaret participated on a panel on the OSC campus in September during faculty day.

'26 Mrs. Edward Larsen  
P.O. Box 485  
Clatskanie, Oregon

Mrs. Orlo Holman (Lucile Leland) has the new address of 15110 S.E. Kronberg avenue in Milwaukie, Ore.

GLEN S. FAXON, '39, was recently installed as Worshipful Master of the 175-year-old Alexandria-Washington Masonic lodge at Alexandria, Va. He became the 100th Worshipful Master in the lodge since George Washington.

Mr. Faxon is employed by the Veterans Administration as the principal technical specialist for the Vocational Rehabilitation of Disabled Veterans. After graduation from OSC he attended Louisiana State University and received a master's degree. Prior to World War II he was on the faculty of the speech department at LSU. During the war he was a director of instructor training with the Technical Training Command of the air force.

Mr. Faxon is a member of Phi Kappa Phi, national scholastic honor fraternity; Delta Sigma Rho, national honor fraternity in speech, and Kappa Delta Pi, national honor fraternity in education. At Oregon State he was active in debate and speech activities.

Mr. and Mrs. Faxon have a son and daughter and two grandsons.

DR. HAROLD THOMAS, '36, was recently recognized for his achievements in the field of radio electronics at a meeting of the Scientific Research Society of America at Boulder, Colorado. Thomas' publication "Mi-

crowave Power Measurements Employing Electron Beam Techniques" was cited as one of the most outstanding examples of basic research conducted in the Boulder area.

Dr. Thomas is now in charge of a nuclear physics laboratory at the General Atomic Division of the General Dynamics Corporation in California. He had been chief of the Radio Standards Division of the National Bureau of Standards.

Dr. Thomas received his B.S. and M.S. degrees in electrical engineering and physics respectively from OSC. His PhD degree was awarded him at Texas A & M in 1947 for the graduate work and teaching he performed at both Purdue and Texas A & M.

LYLE MCCAULEY, '29, of Salem has filed for Republican nomination for labor commissioner of Oregon. This is his first venture into politics. Mr. McCauley is currently Oregon's only labor conciliator qualified by the Oregon State Civil Service commission.

Since graduation from Oregon State he has completed courses from Harvard's Graduate School of Business Administration, Bureau of Research, Soldiers Field. He is also a graduate of the Industrial College of the armed forces in emergency management of the national economy in industrial relations.

Mr. and Mrs. McCauley make their home in Salem and they have a daughter, Shirley, who was graduated in 1958 from the University of Oregon.

HOWARD W. COOPER, '21, of Duluth, Minnesota, vice president of Minnesota Power and Light company, was President Eisenhower's representative at a world conference on rural electrification in Geneva, Switzerland on October 6-10. Cooper began his utilities career with Pacific Power and Light company.
