# OREGON STATE DAILY BAROMETER

Vol. XLV, No. 15 Oregon State College, Corvallis, Oregon Tuesday, October 20, 1959

## Children's Choir To Give Concert

Looking as if they had just stepped out of the pages of "Hansel and Gretel" the thirty-odd golden-haired girls and blue-eyed boys of the Oberkirchen Children's Choir will sing here, October 22, on the stage of the Coliseum.

## Chem Building Scene of Fire, Power Failure

A short circuit in a transformer caused a power failure and a fire in the basement of the Chemistry Building yesterday afternoon.

Located next to the power room is the chemical solvent storage room. These solvents are highly volatile and, if ignited, could have caused extensive damage, according to the Chemistry Department.

In all, seven units were sent to the scene of the blaze, due to its dangerous location, the Corvallis Fire Department reported.

According to the Physical Plant, power was to be restored to the building in two to three hours.

## Annual Recruiting Underway in B&T

The annual recruiting program by business corporations began yesterday in the School of Business and Technology.

Other companies scheduled for interviews are Texaco Inc. on Oct. 22 and 23, and Boeing Airplane Co. on Oct. 28.

Next month, representatives of General Electric, Bank of America, Sears and Roebuck, and the Personal Products Co., a division of Johnson and Johnson, will visit the OSC campus.

## Meetings

M.U. POSTER COMMITTEE will meet at noon in M.U. 213-C. SENATE TALENT COMMITTEE will meet at noon today in M.U. 111.

PROMENADERS meet tonight from 7:00 to 9:30 in WB 116. Spiraldi will be taught during the instruction period.

EVERYONE IS INVITED to the Inter-Varsity Christian Fellowship meeting tonight at 5 p.m. in M.U. 208.

PANHELLENIC will meet at 7 p.m. tonight in the M.U. council room. SOEA will meet tonight at 7:30 in M.U. 206.

BETA ALPHA PSI accounting honorary will meet Wednesday at 1 p.m. in Commerce 310. Members are asked to bring dues.

DESERET CLUB will meet Wednesday at noon in M.U. in 207. Ray Cattani will speak on the Book of Genesis.

OSC RIFLE CLUB will have a meeting of all old and new members Wednesday at 7 p.m. at the rifle range.

WOMEN'S RECREATION Association council will meet Thursday at noon in M.U. 212. HUI O HAWAII meets Thursday at 7 p.m. in M.U. Luan chairmen are to meet afterwards.

## Homecoming Agenda Lists Varied Events

1959 Homecoming "Beavers Ring Victory" Schedule of Events

Wednesday Oct. 21 8 a.m. to 5 p.m. . . . All school election for Homecoming Queen Thursday Oct. 22 7:30 to 8:30 . . . All school presentation rally at Bandstand

Friday Oct. 23 12 noon to 6 p.m. . . . Rook Bonfire Construction 6 to 10 p.m. . . . Viewing of House Signs 7 to 8:00 p.m. . . . Noise Parade 8 to 9:15 . . . Rook Bonfire 10:30 p.m. . . . Talent Show, Coliseum

Saturday Oct. 31 8:30 a.m. to 12 noon . . . Alumni registration Memorial Union 9 to 12 noon . . . Viewing of house signs 11 a.m. to 1 p.m. . . . Alumni Bar-B-Q - Registration. 1:30 p.m. . . . Football Game Parker Stadium OSC vs WSU 4 p.m. . . . Alumni Jamboree Armory 5 to 8 p.m. . . . Viewing of House Signs 9 to 12 p.m. . . . Homecoming Dance Coliseum 1:30 a.m. . . . Closing hours

## Oratory Squad Sets for Action

The OSC Oratory Squad, under the direction of Dr. Earl T. Wells, oratory coach, is meeting regularly in preparation for various oratorical contests during the year.

At present, scheduled meeting hours are Tuesdays, 4 to 5 p.m. and Thursdays, 4 to 5 p.m.

The squad presently consists of ten members. They are Beverly Burgoyne '60, education; Sue Palmer '60, education; Tom Schooley '61, engineering; Janice Bower '62, home economics; Dennis Brown '62, lower division and Gail Everest '63, home economics.

Jerry Justice '63, agriculture; John Wallin '61, science; and Norma Pauley '63, lower division.

Miss Burgoyne and Miss Palmer are the only two squad members returning to OSC this year.

Last year's squad achieved one of the best records in oratorical contests that has been made at OSC. In various tournaments and contests, five first places were won, six second places, and three third places.

The first competition open to squad members will be the Western Speech Assn. tournament to be held at the College of Pacific in Stockton, Calif., during the last week in November.

Oratorical contests, sponsored by the Intercollegiate Forensics Assn. of Oregon and the Pacific Forensics League, will take place during the year along with various tournaments. The season will end the first of May.

## Magazine Offers Professor Position

Editors of the "Marriage and Family Living" magazine have asked Lester A. Kirkendall, professor of family life, to be associate editor of the magazine.

"Marriage and Family Living" is the official magazine of the National Council on Family Relations.

The job of associate editor is to help the editorial board decide on what articles submitted for publication should be used.

Editors of the "Marriage and Family Living" magazine have asked Lester A. Kirkendall, professor of family life, to be associate editor of the magazine.

## Sign Chairmen To Meet Today

There will be a meeting this noon in MU 206 for all chairmen of Homecoming house signs.

Deadline for turning in these articles is tonight at 5, according to Larry Walker, Homecoming general chairman.

## Institute Slates Convo Speaker Tomorrow at 1

An editor, world traveler and reporter is the first of four keynote speakers scheduled during the 1959 Institute on World Affairs.

Chairman for the convocation is Dr. A. L. Strand, president of Oregon State College.

## Footie Named To Ag. Position

Dr. Wilson H. Footie of the farm crops department has been named assistant director of the Oregon State College agricultural experiment station while Dr. Robert W. Henderson is on a foreign assignment in Thailand.

Henderson, assistant director since 1947, went to Thailand two months ago as a member of the OSC technical assistance team at Kasetsart University, Bangkok.

Footie, a member of the OSC staff since 1948, has had both teaching and research duties in the farm crops department.

Footie's appointment was announced by F. E. Price, dean and director of agriculture.

At the same time, Price announced that Dr. R. L. Davis of Purdue University has accepted a one-year appointment as visiting professor of farm crops at OSC, during Footie's absence.

Davis, professor of agronomy at Purdue, has been on the staff there since 1946. He has specialized in research on alfalfa.

## Prexy Inaugurated

PORTLAND (UPI) — Dr. Bradford P. Millar was inaugurated Sunday as president of growing Portland State College here.

Dr. Millar became president of the 4000-student school last February. Gov. Mark Hatfield attended the inaugural ceremonies.

## Dock Negotiations Resume in New York

NEW YORK (UPI) — Negotiations resume today in the two-coast dock strike halted by a Taft-Hartley injunction Oct. 8.

Officials of the International Longshoremen's Association and the New York Shipping Association were meeting for the first time since 70,000 longshoremen walked out at Atlantic and Gulf Coast ports Oct. 1.

The strike was halted after eight days by a federal court order. The original no-strike order was extended Saturday for the full 90 days authorized by the Taft-Hartley Law.

Longshoremen could resume the strike if no agreement is reached when the injunction expires in December.

# Queen Reigns Over Junior-Senior Prom

## Tickets on Sale For Cal. Safari

Students who signed up for the bus trip to the OSC-California football game at Berkeley Saturday, must pay for the round-trip in the ASOSC office today between 1 p.m. and 3 p.m.

Students who wish to make the trip, but did not sign the list, may buy tickets in the ASOSC office for the trip between 4 and 5 p.m. today on a first come, first served basis.

Candidates for queen are Linda Serrurier, Kappa Alpha Theta, Judy Roake, Delta Delta Delta, Suzanne Chapman, Kappa Kappa Gamma, Eloise Krueger, Delta Gamma, all '61, and Marilyn Cave, Kappa Kappa Gamma, '60.

Voting for the queen will take place in an all school election to be held Wednesday October 21. According to Lou Snyder, associated students OSC first vice president, students can vote by presenting their student body cards.

Voting will take place either on the quad or in the sunny or across from the "O" Club in the Memorial Union if it is wet.

Chaperones for the event were Dr. and Mrs. James Groshong, Mr. and Mrs. Kenneth Patterson and Dr. and Mrs. William Crooks.

## AIS to Group Independents

The organization of off-campus students is the immediate project of the Associated Independent Students as was discussed in the first meeting of the term last Wednesday night.

In the near future all independent off-campus students will be contacted to promote closer social relations with OSC.

Other business included discussion on "Mayhem" given on Monday's Weekend during spring term. A committee was set up for AIS scholarships for winter term.

The AIS Executive Council meets once a week with notice given for group assemblies.

## Interviews For Navy Civilian Jobs Set

Navy employment representatives will interview engineering and science students at Oregon State College Thursday.

They will interview senior and graduate students for research and development work in three of the top scientific centers of the Navy's new Bureau of Weapons.

These civilian-manned Navy laboratories are concerned with new weapon and missile research development and testing, in areas from the depths of the ocean to outermost space.

## Dock Negotiations Resume in New York

NEW YORK (UPI) — Negotiations resume today in the two-coast dock strike halted by a Taft-Hartley injunction Oct. 8.

Officials of the International Longshoremen's Association and the New York Shipping Association were meeting for the first time since 70,000 longshoremen walked out at Atlantic and Gulf Coast ports Oct. 1.

The strike was halted after eight days by a federal court order. The original no-strike order was extended Saturday for the full 90 days authorized by the Taft-Hartley Law.

Longshoremen could resume the strike if no agreement is reached when the injunction expires in December.

Longshoremen could resume the strike if no agreement is reached when the injunction expires in December.

## Honor Banquet Due Ex-Dean At Portland

A testimonial banquet honoring Dr. U. G. Dubach, former dean of men and professor of political science at OSC, will be held in Portland at the Benson Hotel.

Reservations for the banquet must be made by Oct. 22 through M.U. 214, or by sending directly to Paul Keyser, 813 S. W. Sixth Ave., the YM-YWCA Round Table office, Portland 4, Oregon.

The program "Educating Youth for Better Citizenship" is being sponsored by the Pacific Northwest Area Council of YMCA and Oregon YMCA Youth and Government Committee.

The program "Educating Youth for Better Citizenship" is being sponsored by the Pacific Northwest Area Council of YMCA and Oregon YMCA Youth and Government Committee.

Dubach is being honored for his outstanding contributions to the State Youth and Government Program of the YMCA.

He pioneered the YM-YWCA State Youth and Government program of Oregon in 1948.

He has served as chairman of this committee. Generations of high school and college students have lived under his inspired leadership.

The State Youth and Government program is a week-end event for high school and Hi-Y youths. It gives youths practical experience as legislators in state government.

All students, faculty members and friends of Dr. Dubach are urged to attend the testimonial banquet.

## AWS to Coordinate Campus Food Drive

AWS Legislative Council voted at their Oct. 16 meeting to coordinate a campus wide collection of Thanksgiving food baskets.

Letters will be sent to living groups, asking for the support of the drive, according to Sandy Grimm '61, AWS activities chairman.

Food baskets collected by AWS last year helped the Red Cross to supply 50 families with a Thanksgiving dinner, plus extra staples.

This year the Red Cross hopes to provide 1,400 needy people with food for the coming holiday.

A general chairman for the collection is needed. Those interested may obtain a petition at East Bay MU. For further information contact Sandy Grimm at PL 3-6609.

## OSC Band Exhibits 'New Look' in Garb

Wearing new uniforms, the 1959-OSC marching band, directed by Theodore Messing, associate professor of music, performed for the first time at the OSC-Idaho football game Saturday.

The uniforms consist of black slacks, orange coats and orange hats with white plumes. By reversing and not using the front shield, the coats can be changed, giving the band four uniforms.

Purchased this year by the Educational Activities Department, the uniforms will be worn by the 80 piece, all male band in their appearances at all football games and in concert.

## Chairman Needed For Christmas Party

Application forms are now available in MU East Bay for committee chairman for the MU Christmas Party. Committees are decorations, publicity, refreshments, music, entertainment, special events, program, hostesses, and clean-up. Applications are due Friday at 5 p.m. and interviews will be held early next week.

The annual Christmas party will be held on Dec. 6, according to Shelly Stadheim '61, general chairman. Interested students are encouraged to apply for the committees.

A TRIBUTE TO ALASKA is featured in the card stunts during halftime of the Oregon State-University of Idaho game at Parker Stadium Saturday. The card section was at its best as over 2000 students held up their appointed cards at the right time to form the intricate design. (Stone Photo)

### Today's Changing College

Out of a possible 1980 freshmen students approximately 500 Rook voters turned out for the freshman class officer elections last week.

The article went on to ask if fun was still an aim of today's college student. "Yes, say the deans, but not as much as it used to be. And not all of them are sure that this is to the good."

An article in SUNDAY, "Midwest Magazine of the Chicago Sun-Times", written by Nancy Hartley comes to mind when trying to evaluate this constant feeling of apathy among our students.

One of the deans said, "Our student activities elections this year were so dull that one would hardly know that an election was going on. We have a hard time finding enough people to run for class offices. Some of the best professors are a little worried by the apathy of the student body for things that they feel are really good, like Political Emphasis Week and similar activities that are surely not a waste of time."

According to the article, "Whatever Happened to Joe College?", "A strange quiet descended on college campuses this fall. Gone is the sound of the big dance band. Absent are the screams and yells of the pep rally. Even the oratory of electioneering is a muffled crying in the wilderness."

Another was quoted, "The basic philosophy of too many young people nowadays is, 'What's in it for me?' Lacking, unfortunately, is, the idea of 'What can I do for others?'"

"What's happened? Where are the prom-hopping, team-cheering, office-collecting students of yesteryear — those crazy kids who made the word 'collegiate' synonymous with fun and laughter and wild enthusiasms and — for some — with the best years of their lives? Are they extinct? Or merely under-coverage? And what sort of people have taken their place?"

Yet another, "In many cases the student gives the impression he is a little ashamed to be having fun, because he thinks others disapprove. College life shouldn't be too grim."

The article pointed out that the lagging interest in extracurricular activities is accompanied by an increased attention to scholarship. This went along with, so the deans of many schools felt, greater prestige for the egghead, increased number of students wanting to go on to graduate school, presence of older and married students on campus and the sheer necessity to study in order to stay in.

According to the article the question is not one of finding a suitable focus for collegiate enthusiasms, but that the students have themselves found it — in scholarship.

### Farewell, Sweet Tree

One line of the Oregon State College Alma Mater may have to be changed in a few years and be sung, "down to the Trysting stump."

bench which was placed beneath the tree. It was reserved for seniors only. Each class buried its prophecy under the tree, to be opened 25 years later at the class reunion.

Yes, the Trysting tree is dying. The large gray poplar on lower campus that has for so long been a part of Oregon State is starting to rot. Surgery on the tree could save it for future Beavers to enjoy, but it will be an expensive project.

With modern conveniences such as coffee shops, cars and the MU lounge, the Trysting Tree has lost much of its importance. It is surrounded by larger trees and the campus now has other more impressive scenery. Still this is the tree best remembered by many people.

The tree was designated as the Trysting tree in an assembly by Dr. Thomas M. Gatch, a former president of the college, after watching couples meet there. The word "trysting" means agreeing to meet.

If the Trysting tree comes down, Oregon State will be losing one of its oldest traditions. All the history connected with this famous landmark will be forgotten, and the line, "down to the Trysting Tree," will become meaningless words.

### Pamunjon Degenerates Into Tiny Tourist Attraction

This tiny truce village, once the source of a world-wide hope for permanent peace, has degenerated into little more than a tourist attraction.

one happened to be in North Korea. It is now half in South Korea and half in North Korea.

Since July 27, 1953, when the Korean truce was signed here, Pamunjon has served as the site of occasional meetings between the United Nations Command and the Communists, but they have produced almost nothing except propaganda blasts.

Here, on a hill overlooking the peace pagoda, about 10 buildings have been constructed by both sides.

Seldom does a day pass, however, without a visit from some batch of sightseers, whether from the Red side or from the free world or from both.

The Communists built permanent-type stucco buildings with tin roofs, including a central steam heating system.

Even the meetings of the Armistice Commission cannot be held without tourists looking on.

But the U.N. hoping there would be a peace treaty in 60 to 90 days as the armistice agreement called for, put up temporary quarters of corrugated iron. It is still content with them.

Equipped with passes and badges issued by the Military Armistice Commission, these rubbernecks, including brightly-dressed American women, drive 35 miles from Seoul to peep through the windows of the plain corrugated steel hut in which the sessions are held.

The area is guarded and maintained jointly by the Communist and U.N. Forces. Normally about 10 neatly uniformed American military policemen wearing well-polished boots stand guard side by side with their North Korean counterparts who wear baggy, drab clothes.

When something important is to be discussed, the area is flooded with reporters, photographers and tourists who shuffle around rubbing elbows with newsmen and fellow sightseers from the other side of the Bamboo Curtain.

In addition, a U.N. liaison team, consisting of a joint duty officer, an American stenographer and a Korean interpreter, stay here all the time to exchange administrative messages with its Communist counterpart over a telephone line.

When the military demarcation line was established, the general conference site was moved about 800 yards south because the old

area is guarded and maintained jointly by the Communist and U.N. Forces. Normally about 10 neatly uniformed American military policemen wearing well-polished boots stand guard side by side with their North Korean counterparts who wear baggy, drab clothes.

According to Maj. Charles A. Gibbens, of (1606 Westbury Drive) Richmond, Va., who is in charge

of the armistice agreement.

### WIND STORMS

by Chuck Wenstrom

### LITTLE MAN ON CAMPUS

### Novelist's No Scriptwriter Leaves Hollywood To Job

No contradiction there. He's happy to receive those fat Hollywood checks for the screen rights to the novels he turns out, but he won't write the screenplays. "It just isn't my line of writing," explained the rugged war veteran who has mined more than a quarter of a million dollars out of Hollywood with his first two books, "Never So Few" and the just published "Go Naked in the World" (Scribners). "Don't think script work. I'm not a scriptwriter. I want my books given the truest treatment possible when they are turned into scripts for the screen, but I must pass up the chance to insure that by doing the job myself. I just don't think and write along those lines. Maybe some day I'll write a play — I'd like to try it — but right now and for the immediate future I'm a novelist."

Chamaleas was on the set every day as technical adviser for this fictional (?) treatment of that excruciating segment of World War II fought behind the Japanese lines in Burma jungles. As an American officer, he commanded a battalion of native Kachin Rangers. "Go Naked in the World" draws from Chamaleas' background as an American of Greek ancestry in well-learned Chicago circles after World War II. The hero, Publisher Has Third Novel "Go Naked in the World" draws from Chamaleas' background as an American of Greek ancestry in well-learned Chicago circles after World War II. The hero,

### Robot Learns Basic 3 R's

By the time today's baby crop pads off to school, the "three R's" may be museum pieces.

The little students may be totting screw drivers, a can of oil and spare fuses — instead of pencils and paper.

Bliss — or blame — digital computers for such a change. The electronic brains are well on the way to doing high-speed reading, arithmetic — practically without human aid.

Science has great expectations for these robots.

Advanced computers already have made push-button artists out of many a mathematician who entered the field because he was a "real brain" at addition, division and subtraction in grade school a generation or more ago.

A relatively new application of the metal giants involves the treatment of "non-numerical" information. At the University of Illinois, a high-speed digital computer is being trained to compose music.

In a New York research center, another robot digests technical reports and writes abstracts.

The robot that writes musical scores was bound to come along, said Dr. Lejarian Hiller of the University of Illinois.

"The act of composing," he said, "can be thought of as the extraction of order out of a chaotic environment."

Random integers, considered the equivalent of musical notes, rhythmic patterns and other musical entities, first were generated by the University's computer, the Illiac.

Factors not specifically accounted for were left entirely to chance and the Illiac made the decisions. Moved to "creativity" by electricity, the mechanical "composer" clicked and clacked. Out came a four-movement score for a string quartet.

A string quartet played it. The primitive composition sounded like music.

The experimental reading and writing robots are on trial at the International Business Machine Research Center in Yorktown Heights, N.Y.

Dr. Gilbert W. King says the machines are "programmed" — set — to boil weighty scientific texts down to their meatiest sentences.

Electronically, the metal brain scans an entire article, picking out words and phrases most often repeated. From the robot's way of looking at it, such phrases and words are the keys to the main content.

This information stored in its brain, the robot scans the article once again. This time, it plucks out sentences containing the key words and phrases. Then comes the pay-off; a condensation in typewritten form.

Feats such as these still are experimental. But engineers in charge expect to have the devices ready for wide application on a practical scale some day.

whose father is a pillar of the Greek community there, has trouble making terms with life.

"Autobiographical it isn't, nor biographical," the author commented, "but naturally it is partly reflective of people and incidents and places I've known."

Chamaleas already has his third novel, "Forget I Ever Lived," in his publisher's hands, and he is well into the writing of his fourth, "Run and Call It Living."

### STUDYING CAN BE SCREAMS

If studying is bugging you, try mnemonics.

Mnemonics, as we all know, was invented by the great Greek philosopher Mnemon in 526 B.C. (Mnemonics, incidentally, was only one of the inventions of this fertile Athenian. He also invented the staircase which, as you may imagine, was of inestimable value to mankind. Before the staircase people who wished to go from floor to floor were forced to live out their lives, willy-nilly, on the ground floor, and many of them grew cross as bears. Especially Demosthenes who was elected Consul of Athens three times but never served because he was unable to get up to the office of Commissioner of Oaths on the third floor to be sworn in. But after Mnemon's staircase, Demosthenes got up to the third floor easy as pie — to Athens sorrow, as it turned out. Demosthenes, his temper shortened by years of confinement to the ground floor, soon embroiled his countrymen in a series of senseless wars with the Persians, the Visigoths and the Ogallala Sioux. He was voted out of office in 517 B.C. and Mnemon, who had made his accession possible, was pelted to death with fruit salad in the Duomo. This later became known as the Missouri Compromise.)

But I digress. We were discussing mnemonics, which are nothing more than aids to memory — catchwords or jingles that help you remember names, dates and places. For example:

*Columbus sailed the ocean blue  
In fourteen hundred ninety-two.*

See how simple? Make up your own jingles. What, for instance, is the important event immediately following Columbus's discovery of America? The Boston Tea Party, of course. Try this:

*Samuel Adams hung the tea  
Into the briny Zuyder Zee.*

(NOTE: The Zuyder Zee was located in Boston Harbor until 1904 when Salmon P. Chase traded it to Holland for Louisiana and two outfielders.)

But I digress. To get back to mnemonics, you can see how simple and useful they are — not only for history but also for everyday living; for instance:

*In nineteen hundred fifty-nine  
The smoke to look for is Alpine.*

"Why Alpine?" you ask. Taste that fine, fresh flavor. Enjoy that subtle coolness. Until Alpine you needed two cigarettes to reap the benefits of Alpine — one for flavor, one for high filtration — and smoking two cigarettes is never graceful; in fact, with mittens it is nigh impossible. Now you need only one cigarette — Alpine. Get some. You'll see.

The sponsors of this column make Alpine, Philip Morris and Marlboro Cigarettes. Pick what you please. What you pick will please you.

Seniors Reside In Management Environments

Ten senior girls in the School of Home Economics are currently fulfilling part of their course requirements by living for five weeks at the Kent and Withycombe home management houses.

Living at Kent House are Carolyn Courter, Charlotte Kofford, Betty Neri, Nancy Warren, and Kathy Wright, all '60. On Nov. 7, Barbara Clark, Barbara Field, Helen Parton, Carol Poleo, all '60, and Joan Wilcox '61 will move into Kent.

Occupying Withycombe House are Eleanor Buchanan, Amette Brugmann, Diane Rightmeyer, Janet Shoemaker, and Bonnie Wyland. They will be replaced by Luz Alfajardo, Sheryl Baker, Evelyn Hardman, Charlene Cooper, and Linda Hunt, all '60.

IWA Luncheons Put on Reserve

Reservations for Thursday and Friday noon luncheons for the Institute on World Affairs persons may call Ext. 240, announced Austin F. Walter, head of Political Science department and chairman of the Institute.

Skiing Movie Set for Tonight

Ski fans will be exposed to some of the best skiing exhibitions in the country tonight at the "Let's Go Skiing with Warren Miller" ski movie in the Home Economics auditorium at 8 p.m.

This is Miller's eleventh movie and from all indications, his best. Skier-photographer Miller's latest color film effort is tailored to all skiing tastes. He found tobogganists haunting certain death at Snow Valley, Calif. He found Buddy Werner of the United States skiing to victory over Austrian Prvada at last season's North American championships at Squaw Valley, Calif., and he recorded an Easter carnival ski race at Mammoth Mountain, Calif. -complete with bathing beauties, ridiculous costumes and sensible ski action.

Miller visited slopes from California to Vermont and toured the major slopes of Europe. "Let's Go Skiing with Warren Miller" will be in full color with a musical score - all two hours of it.

Friday Variety Acts Wanted

Tryouts for talent acts for the fall term Friday Variety shows will be held Tuesday, Oct. 20, at 7 p.m. in the Memorial Union ballroom, according to Marilyn Murphy '61, Senate talent committee chairman.

The first Friday Variety will be held Friday, from 4 to 5 p.m.

Business Professors Come in From Europe

Two new staff members in the Business and Technology school this year come to Oregon State from foreign lands. Helmut G. Schreima, assistant professor of business administration, is from Germany. Per Sjogren, assistant professor of business administration, is Swedish.

Schreima was in Germany prior to World War II and was one of the first to be arrested for anti-Nazi activities at the age of 18. Several years of imprisonment for treason, including two in solitary confinement, followed in August, 1938, he was inducted into the German Army.

After his third injury, he was transferred to the Army of Occupation in France in 1943 and immediately deserted to become a member of the French underground. Through the Underground he contacted the American Office of Strategic Service and was selected as an operative. In this capacity he parachuted back into German territory to obtain information concerning bombing sights to be used in the D-Day invasion.

Following the war, he emigrated to the United States and received his BA and LL.B. from Willamette University in 1953. Prior to his appointment at OSC, he served as a title officer in the Benton County branch of Title and Trust Co. of Oregon.

Per Sjogren received his first college training from the oldest university in Scandinavia where he majored in languages. A position on the staff of the University of Kansas teaching languages brought him to the United States. While in Kansas he married and returned with this wife to Sweden to teach in a secondary school for boys.

Sjogren's wife attended Oregon State as a sophomore and was a student of Clifford E. Maser, who is presently Dean of the School of Business and Technology. It was through this contact that Sjogren came to OSC, where he is teaching classes in finance, statistics and insurance this term.

Upon re-entering the United States, Sjogren settled in Portland where he worked in a container industry until 1957. Work on his Doctor's degree in business administration with a concentration in finance took him to Columbia University for two years. He is completing the dissertation for the degree at the present time.

Sjogren's wife attended Oregon State as a sophomore and was a student of Clifford E. Maser, who is presently Dean of the School of Business and Technology. It was through this contact that Sjogren came to OSC, where he is teaching classes in finance, statistics and insurance this term.

'Black Magic', Talent Theme

Black Magic, the theme for the 1959 Oregon State College talent show, will be presented from 10:30 p.m. until midnight Friday, October 30 in the Coliseum.

Vic White, '60 talent show producer, said that the show will include many varied acts, with a good cross-section of entertainment.

Steve Jackson, '61, Beta Theta Pi, has been named as master of ceremonies for the event. The talent show as in past years will follow the noise parade and ruck bonfire.

Committee members for the show include Linda Horton, '61, director; Linda Lindsay '61, assistant director; Jim Ostrander '60, co-ordinator; Linda Latourette '60 secretary; Bob Westerberg, '60, lights; Lee Ann Meserve '60 and Sonnie Hayes '60, decorations.

Cattle Judges Take Awards

The Oregon State College Dairy Cattle Judging Team scraped up a few new trophies and awards this year at the Pacific International Livestock exposition. To climax their weekend of judging, the team attended the awards banquet Sunday night in the Malory Hotel.

The team members were John Sederburg, Boyd Bishop, Don Messerle, and Philip Russnogle as alternate, all seniors. Their coach is Ray Kleiwer, research assistant in the Dairy and Animal Husbandry Department.

For individual placings, Sederburg took fifth in Holstein competition, fourth in Guernsey and third in Ayrshires. Messerle placed second in holsteins and fourth in Jerseys. Boyd Bishop placed fourth in Ayrshires and was third high man in the over all contest. David Dixon of Washington State University was high man in the contest.

Out of the six teams competing, OSC, WSU, Fresno State college, University of Utah, University of Idaho, and Montana State, OSC placed first in Ayrshire, Jersey and Guernsey competition with third in Holsteins and third in oral reasons and fourth in the over all contest. Placing above OSC were Montana State, third; WSU, second, and Fresno State in first.

Awards received were silver milk pitchers to each member of the team and the coach of the winning team in Guernsey, picture plaques of a herd of Ayrshires to the winning team members and a miniature Ayrshire cow to the coach, a plaque of a Jersey head to each member of the winning team in Jerseys and also a model Jersey cow to each member of the winning team plus a trophy to the coach.

Other awards were received including a three foot bronze trophy with a miniature Ayrshire cow mounted on the top. This is the first year that this award has been given. All the awards received by the cattle judging team are on display in the main hall in Withycombe Hall.

is a member Alpha Delta Sigma and Kappa Sigma. He is majoring in Business and Technology.

The new divided city of Berlin was formed in 1432 by the merger of two settlements across from each other on the Spree River. They had been founded in 1237.

RENTALS Typewriters - Calculators Adding Machines

HENDERSON'S 344 S. 2nd BUSINESS MACHINES

Omar Khayyam writes a new jingle

A jug of Wine, A loaf of Bread and Winston's Filter-Blend!

Old Omar has come up with another corker of a couplet. Freely translated from the Persian:

It's what's up front that counts If it hasn't got it there it hasn't got it

True, the lines don't scan. But what do you expect from a tent-maker - the perfect rhyme of "Winston tastes good like a cigarette should"? We'll admit that something may have been lost in the translation. But when it comes to Winston, nothing is lost in the translation of rich, good tobacco taste. That's because up front of a pure white filter Winston has Filter-Blend - a special selection of mild flavo-

vorful tobaccos specially processed for filter smoking. Winston is designed to taste good. Or, as Omar puts it: The Moving Lighter lights; and having lit, Flicks off. Then you draw on IT, And bit by bit smoking pleasure mounts; With Filter-Blend up front, Winston's got what counts!

Engineering and Science Majors:

Step right into the SPACE AGE with one of the Great Names in Industry

Space age division of Ford Motor Company has unique opportunities for exceptional engineering and science graduates at new research and engineering center in Newport Beach, Southern California.

HERE IS WHY OPPORTUNITIES AT AERONUTRONIC ARE SO UNIQUE FOR YOUNG MEN - This is the first time in history that ground floor opportunities, together with such outstanding benefits, are open with one of the largest and most respected business enterprises in the world - Ford Motor Company. Aeronutronic, itself a young and growing organization, has definite need for young men with new ideas and a fresh approach to share in research and development work

Here are some straight answers to questions you may have about Aeronutronic:

- Who is Aeronutronic? AERONUTRONIC was established in 1956 by Ford Motor Company to engage in research, development and manufacture of advanced systems and products for military and commercial purposes.
What are its major areas of research? Aeronutronic consists of five main technical groups: Advanced Research Operations; Space Technology Operations; Tactical Weapon Systems Operations; Computer Operations; and Range Systems Operations.
What business does Aeronutronic have? More than 40 government and commercial programs are currently in work - programs like SHILLELAGH, the Army's new surface-to-surface missile, FLIDEN, for the Federal Aviation Agency; and Range Planning Study for NASA's Project "Mercury."
What kind of backing does Aeronutronic have? Ford Motor Company resources provide the finest facilities and financial support for carrying out complete research, development and manufacturing operations - plus additional unlimited production support when needed.
What kind of facilities do they have? Ultra-modern \$22 million Engineering and Research Center is now under construction and already partially occupied. When completed in 1962, the new complex will have over eight major structures totalling over one million square feet.
Is individual capability recognized? Yes. Aeronutronic looks for and recognizes the capabilities and potentials of its people. Matching the capabilities of men with the job to be done is a continuing goal at Aeronutronic.

- What kind of assignments can I expect? Research, design, engineering and development positions are open to exceptional graduates in fields of space sciences, tactical weapon systems, advanced electronics and communications, and computer and data processing technology. (Specific openings are described in new career opportunities booklet offered below.)
Do they have competent leadership? Aeronutronic is a business-oriented organization, headed up by Ford Motor Company Vice-President, Gerald J. Lynch, and other business, scientific and production managers experienced in the application of sound management principles.
Where does Aeronutronic stand in R & D work? By the end of June, 1958, as an example, Aeronutronic moved from 132nd to 48th place among prime sources for government R & D contracts.
Where is Aeronutronic located? Aeronutronic's new facility is located on a 200-acre site overlooking the harbor and Pacific Ocean at Newport Beach in Southern California, the West's most ideal area for living, working and raising a family.
What other benefits can I expect? Ford Motor Company employee benefits are considered the finest in the industry - Ford savings programs, exceptional insurance and hospitalization plans, paid vacations and sick leave, regular salary increases, and many other benefits equal to or better than the industry standard.

talk with the Aeronutronic representative about your interests and specialties when he's at your campus. Or, for more information, send for free booklet "Career Opportunities for Engineers and Scientists." # Beavers Crumble Vandal Defense 66-18, Roll to First Victory One of

**DRIVING OFF-TACKLE** FOR a two point PAT, Fullback Frank Marshall gives the Beavers a 42-10 lead over Idaho late in the third quarter. This was the sixth touchdown in the Beaver march to a 66-18 victory. The 66 points scored by OSC set a new Parker Stadium record for points scored by an individual team.

**WITH 26 SECONDS REMAINING** in the first quarter for an easy two point tally as he reaches paydirt in the end zone, OSC tailback Don Kasso sweeps around end, untouched by enemy hands. The two pointer followed what could be the Beaver's most important touchdown. This was the score which set off a sixty-six point barrage and the first big offensive showing for Oregon State this season.

**OREGON STATE END** Leon Criner makes one of the game's most important plays as he comes up with a sensational interception of a pass fired by Joe Espinoza, waits for his interference, and then follows his blockers to the Idaho one yard line to set up the OSC go ahead touchdown on the last play of the first quarter. Fullback Jim Stinnette dived over the center of the line on the play to give the Beavers a 14-0 lead and a lift on their record-smashing scoring exhibition.

## Sanchez Shines In Home Contest

By GWIL EVANS Sports Editor

The Oregon State College Beavers scored their first grid victory of the season Saturday when they outmaneuvered, outscored and generally outlasted the five-time losers from Idaho to win 66-18. Tailback Larry Sanchez, who played for the first time only one week before at Michigan, dazzling the 10,628 fans with outstanding running and passing.

The Beavers began the Idaho game by exhibiting all the errors they could think up and the Vandals capitalized by running the score up 10-0. Beaver sparks began to fly with less than two minutes remaining in the first quarter as Jim Stinnette fought eight yards into the endzone for the initial Orange tally. From then on the game went with OSC.

Oregon State passed, pushed and ran their way to eight more touchdowns in the course of the game. Idaho rallied in the last two minutes to score their second TD. Over 2,000 kids participating in the fifth annual Kiwanis Kids Day watched the game from their sections.

Sanchez intercepted the center of Oregon State's line three seconds into the second panel bringing OSC into the lead which they held for the rest of the clash. Kasso cut off to the right in a sweeping run but the two-point PAT-try failed.

The remainder of the tilt is the story of Oregon State success as they marched to their most one-sided victory against Idaho in 33 games. The 46-point victory showed the 1940 41-0 score into second place.

Larry Sanchez intercepted an Idaho pass on the OSC 36 with 5:57 remaining in the second panel and scampered 64 yards to a third Orange touchdown. Five blockers successfully handled all opponents between Sanchez and paydirt.

**Sanchez's Pass Scores**  
Five minutes later with 0:40 remaining in the first half, Larry Sanchez fired a short pass to Aaron Thomas on the Idaho 37 for a Beaver first down. The clock read 0:20 and Sanchez flipped a 13-yard aerial to Thomas on the 23 who took off like a shot to score Oregon State's fourth touchdown. Frank Gremlinger failed to punch through center for the point after touchdown.

Idaho won the toss and decided to receive at the start of the second half. Vandal Jim Norton received and returned to the

where he fumbled and Howard Hogan recovered for the Beavers. Two quick plays later, Jim Stinnette dived over center for the fifth OSC touchdown. Again the try for point failed.

Oregon State took over on downs on their own 27 with 8:04 remaining in the third panel. Sanchez shot a beautiful 22-yard pass to Thiel at the Idaho 48. Another incomplete pass and Sanchez carried to the 24, but a clipping penalty moved the Orange back to the 46.

After two more incomplete, Sanchez aerialled another 46 yards to Art Gilmore on the goal line for the sixth Beaver score maneuver. Chuck Marshall swung off right and into the endzone for a successful PAT.

With 0:13 left in the third quarter, Sanchez connected again with Thomas in the endzone. Gremlinger marched around right for the extra two points. Score: OSC 50, Idaho 10.

Moving from their own 35 in ten plays, Don Kasso cut around the left end for the Beavers to rack up tally number eight. Kasso inched over for the extra two points.

**Idaho Shows Fire, Scores**  
Idaho came to life with less than three minutes in the game as Gary Farnworth snapped a 20-yard pass to Kent Valley for a TD. Farnworth carried for the two-point conversion.

Oregon State's ninth and last scoring play came on a beautiful runback by Gilmore who received the Vandal kickoff. Gilmore caught the ball on the 10 yard line and ran to the Idaho 20, where he dodged two tacklers. Gremlinger blocked two more would-be tacklers and Gilmore was into the endzone.

Sanchez passed for the conversion making the final score: OSC 66, Idaho 18.

## SPORT SPURTS

By ED DEYO

Oregon State certainly flipped the football jinx as they humiliated the University of Idaho last Saturday. You may recall that we mentioned this last weekend via John Eggers, athletic news publicity director, who predicted such a thing. John has said all along that they were a much better team than they had shown in the first four games.

The 66 points scored by the Beavers is the highest one-game total in modern history of Beaver football. We mean this in the modern game of, say, the 1930 era or later. If you would care to consider a 62-0 win over Albany College or say a 67-0 win over Wallamette in 1893 and 1902, then pick these, but really this wasn't football then nor were these opponents of OSC caliber.

We had visions of another loss the way the game started and so did many of the fans. The working press, during the first ten minutes, issued forth many words of how poor the Beavers looked, but, oh how many of them stood up and shouted for the Beaver's first touchdown. Generally the press men are supposedly on the quiet side and are not supposed to cheer in the press box. Those loyal fans who spend untold hours plugging OSC sports, though some doubt it by reading certain paper(s), just couldn't hold it back.

**Game Seen From Press Box**  
We would like to cover some aspects of the game that were much easier to see from the "big house" as some students call the press box. The first fumble by the OSC that set up the Idaho td, in the first few minutes, came on a fine Idaho defensive maneuver.

Idaho used a maneuver used more by the pros than by the colleges as they had their left-side linebacker "red dogging." Red dogging, as many people know, is a touchdown and passed for by a linebacker, instead of him staying at home and playing his position. In this instance it paid off for an Idaho recovery, of the fumble, though the linebacker did not bring the fumble about.

Other aspects of the game were the sharp looking band uniforms recently purchased and the tall drum major Gene Ginter. He certainly looks like a giant with the tall hat and plume. The uniforms cost approximately \$8400 . . . The card stunts were not too clear and did not go over too well with the other half-time activities. This no practice, before the game though, puts the students in a tough situation . . . Larry Sanchez certainly had a fine day as did Jim Stinnette and many others. With this type of opponent, who has no real condition, it doesn't take long to beat the good boys down and then go to work. We, along with many others, felt sorry for the Idaho squad late in the game.

**Sports Spurts From Here And There**  
Dimutivie Jim Anderson is back on campus with an assistantship in health and is helping Paul Valenti with the freshmen basketball team. We understand Jim is getting the boys in shape . . . Also riding herd on a freshman team is Jim Brackins with the football team. Saw the team work out Friday and Brackins will certainly have a hustling group. Brackins himself shows the hustle and has his boys following right along . . . John Horriilo is assisting Brackins and has come down with a touch of arthritis . . . Horriilo has a slight problem with his feet and has had treatment for them recently . . . Also assisting Brackins are Ted Searle, Spiros Anagnos and Ed Rogers.

## WRA Hockey Squad Taste 6-0 Defeat

The Hockey Interest Group of the Women's Recreation Association lost their first game of the season to the Linfield College Hockey Team Saturday at McMinnville. The final score was 6 to 0.

This game served as a warm-up game for the Northwest Field Hockey Conference that is to be held on this campus November 20 to the 22. About 200 players are expected from the major colleges in the northwest for the conference. "Circus Time for '59" is the theme for this year's tournament.

The Hockey Interest Group practices every Friday at 5 and Saturday from 8 until 10 in the morning. This is open to any woman who is interested in playing with this group.

## Larry Sanchez One of Heroes

**Coast Weekend Grid Heroes**  
United Press International

Larry Sanchez, Oregon State—Second string tailback helped Beavers to 66-18 win over Idaho by passing for three touchdowns and racing 65 yards for another.

Jerry Traynham, Southern California—Netted 157 yards in 23 carries and scored a touchdown while Trojans were besting Washington, 22-15.

Bill Kilmer, UCLA—Bruin tailback scored twice while leading team to 19-12 victory over California.

Keith Lincoln, Washington State—Big halfback who runs like a welterweight sped 50 yards for a touchdown and passed for two more as Cougars were chewing Stanford, 36-19.

Cleveland Jones, Oregon—Got behind Air Force defenders and grabbed pass from Dave Groz for 50 yard touchdown play that started Ducks on way to 20-3 victory.

## Two Pickers Tie for Spot 'n Baro Race

Gwil Evans and Don Michael were on the ball this week in the "race for a case of root beer" as they tabbed eight games right to move into the lead with overall 14-6 records.

Challenged by a slate of close contests, the experts had a chance to prove themselves this weekend and the results showed quite a spread of ability.

Ranging from the top records of 8-2, the forecasters were evenly spread on down to Ed Tobey who took low honors with only four right out of the ten games he picked.

The addition of these results to those from the previous week all gave a good spread as the six-way tie for second spot was broken. First week leader Mickey Ranslam slipped to third with a 14-6 total.

Wisconsin provided the big upset as all of the experts were surprised when their pick of Iowa proved wrong.

Michigan State's triumph over Notre Dame was another bad pick for seven of the tabbers who saw the "fighting Irish" as the winner.

Big wins were gained by USC, Oregon, and Texas as they emerged from games between unbeaten with pure records. These three contests also claimed their share of victims as the experts were well divided on who should emerge on top.

Although it shouldn't be as treacherous for the "Board of Experts", next week's list of games includes many battles which should fool the pickers.

Probably the biggest tests will be provided by the Penn State vs Illinois, Purdue vs Iowa, and Arkansas vs Mississippi games.

## Frosh Hoopmen Asked to Apply

Assistant basketball coach Paul Valenti has issued an invitation for freshmen to turn out for the Rook basketball squad. Valenti asked that all interested Rooks report to him at dressing room 5 in the Coliseum today at 5 p.m.

## WIN AUTO RALLY

LAS VEGAS, Nev. (UPI)—Les Scott and Ted Sparks of Los Angeles today were declared official winners of the \$10,000 American International Auto Rally.

They turned in a near-perfect score in the 3,200-mile cross-country rally, earning a purse of \$2,767. There were no serious mishaps and 60 of the 68 starters finished the event.

## Grapplers End 2nd Week's Work

Coach Dale Thomas's wrestling squad wound up their second week of practice last Friday, by having nine minute inter-squad matches.

"The boys are looking good but much work still needs to be done," said Coach Thomas.

## WILDROOT CREAM-OIL KEEPS HAIR GROOMED LONGER! MAKES HAIR FEEL STRONGER!

"Surface" Hair Tonics Penetrating Wildroot Cream-Oil

"Surface" hair tonics merely coat your hair. When they dry off, your hair dries out. But the exclusive Wildroot Cream-Oil formula penetrates your hair. Keeps hair groomed longer...makes hair feel stronger than hair groomed an ordinary way. There's no other hair tonic formula like it.

MAKE HAIR OBEY ALL DAY WITH WILDROOT CREAM-OIL!

## Do You Think for Yourself? Study Season Includes Aids

(BLAST OFF ON THESE QUESTIONS AND SEE IF YOU GO INTO ORBIT)

Do you believe that when a man insists on doing what he can do best, regardless of where he finds himself, he's (A) a valuable member of the community? (B) an independent spirit? (C) apt to be pretty silly? A B C

If you saw a fully clothed man about to jump into a river, would you (A) assume the fellow was acting and look for a movie camera? (B) dismiss the whole thing as a piece of personal exhibitionism? (C) rush to stop him? A B C

Do you believe that "a stitch in time saves nine" is (A) an argument for daylight saving? (B) a timely blow against planned obsolescence? (C) a way of saying that when you use foresight you get along better? A B C

In choosing a filter cigarette, would you pick one that (A) says it has a new filter? (B) merely says it tastes good? (C) does the best filtering job for the finest taste? A B C

When you think for yourself . . . you depend on judgment, not chance, in your choice of cigarettes. That is why men and women who think for themselves use Viceroy. They know only Viceroy has a thinking man's filter—the most advanced filter design of them all. And only Viceroy has a smoking man's taste.

## Homecoming To Be Electe

By SHELLY ST. Barometer ST.

The 1959 Homecoming Queen today by an all-school election. I revealed tomorrow night at the Rally at the bandstand in the 7:30 p.m.

Finalists on the court are Mary Chapman, Eloise Krueger, Judy Carrier, all '61.

Voting will take place today 5 p.m. Booths will be set up in the mile day or across from the "O" building. Students must present their wish to vote. Personal data follows:

## Study Season Includes Aids

The annual study aids session, open to all OSC students, is planned for Wednesday, Nov. 4 at 7 p.m. in the Home Economics Auditorium. A panel of faculty members headed by Ned D. Markscraft, associate professor of education, will present suggestions to promote better study habits. Other panel members are Miss Jean C. Severide, assistant professor of education; Frank M. Bear, associate professor of general science and Mrs. Lillian S. Van Loan, instructor in psychology. The program is especially geared toward those people who find college work difficult and whose study procedures have not been satisfactory, but all students are encouraged to attend, according to Louis L. Edwards, head counselor and placement director for the School of Business and Technology.

## Meetings

ASOSC Senate meets today at noon in MU 105. Freshmen are invited.  
CIL meets tonight at 6 p.m. at Alpha Gamma Rho fraternity.  
COLLEGIATE FFA meets tonight at 6 p.m. at Alpha Gamma Rho fraternity.  
COLLEGIATE FFA meets tonight at 7 p.m. in MU 107. Dr. Jack C. Miller, head of dairy and animal husbandry, will be guest speaker.  
SPANISH TABLE will meet at noon today in Kilder Hall 313. Talks will be given by students from Latin America with general discussion by those attending.  
POULTRY CLUB meets tonight at 7:30 p.m. in Poultry building.  
MU ART COMMITTEE meets today at noon in MU 101.  
ORATORY SQUAD meets Thursday from 4:30-5:30 in Shepard Hall 105. Interested students are invited.  
MU PUBLIC RELATIONS COMMITTEE meets today in MU 308 to discuss themes for M.U. Christmas Party.  
AAMPH, American Assn. of Health, Physical Education and Recreation, club meets tonight at 7:30 in Womens building 107. Tommy Pruthi, head football coach at OSC, will be guest speaker.  
SRA BEAVERS will meet at 7 p.m. Thursday in MU 208.  
ASOSC PUBLIC RELATIONS committee meets at noon Thursday in MU 217.
